		Casting	Range	Type	Duration	Effect
1	Raven's Wing	7+ [9+]	18"	Augment	Instant	The target may perform a 8" [12"] Magical Move and gains Fly and Light Troops until the end of the Player Turn. Nominate a single model part affected by the spell. This model part may perform a Sweeping Attack during the move (possibly in addition to other Sweeping Attacks). This Sweeping Attack causes D6 hits with Strength 4, Armour Penetration 1, and Magical Attacks.

Apply this effect before other to-hit and to-wound modifiers.
5	Will-o'-the-Wisp	8+ [8+]	18"	Universal	One Turn	Choose which effect to apply when casting the spell: • The target gains Random Movement (2D6") • The target gains Random Movement (3D6")

Magic items

Mask of Ages: The bearer gains **Aegis (5+, against Special Attacks)**, **Aegis (5+, against Magical Attacks)**, and **Fear**. In addition, the bearer **must** reroll failed to-hit rolls with its Close Combat Attacks.

Potion of Strength: One use only. May be activated at the start of any Round of Combat. Until the end of the Player Turn the bearer gains Crush Attack.

Book of Arcane Mastery: The bearer's first Casting Attempt in each Magic Phase gains a +2 Casting Modifier. When using a single Magic Dice for this Casting Attempt, a natural roll of '1' or '2' on the Magic Dice is always a failed Casting Attempt, regardless of any modifiers.

Alchemist's Alloy: The wearer gains +1 Armour and suffers -2 Offensive Skill.

Tablet of Vezodinezh: When the bearer attempts to cast a non-Bound Spell using three or more Magic Dice, treat a single rolled '1' or '2' as a natural '3'. If the bearer would suffer a Witchfire Miscast effect, treat it as Magical Inferno instead.

Magic banners

Banner of the Twice-Branded: The bearer's unit does not suffer the -1 to-hit modifier for Stand and Shoot Charge Reactions. In addition, at the end of the Charge Phase, immediately after all Charge Moves have been resolved, the bearer's unit may perform a Combat Reform (following the normal rules for Combat Reforms) if all of the following conditions are met: • The bearer's unit consists entirely of Infantry models and/or Gunnery Teams. • The bearer's unit performed a Stand and Shoot Charge Reaction during this phase. • The bearer's unit was successfully Charged during this phase.

Their Master's Banner: Apply the following effects while the bearer's unit is within 6" of one or more models with Infernal Brand: • Models in the bearer's unit without Infernal Brand gain **Battle Focus**. • If the bearer's unit is composed entirely of models without Infernal Brand, it may reroll failed Charge Range rolls in the Charge Phase.

Banner of Speed: A unit with one or more Banners of Speed gains +1" Advance Rate and +2" March Rate.

Model Rules

Accurate:

Bow:

Cannot be Stomped:

Crush Attack:

Feigned Flight: A unit consisting solely of models with Feigned Flight that voluntarily chooses to Flee as a Charge Reaction, and subsequently passes a Rally Test in its next Player Turn, doesn't become Shaken. Furthermore, the Reform that is made after Rallying in this case doesn't prevent the unit from moving nor from shooting (but it still counts as having moved for shooting purposes). This rule cannot be applied if a unit fails to rally on the next friendly Player Turn or involuntarily Flees, such as a result of a failed Panic Test or if it was already Fleeing when being charged.

Firing Platform: The model can use Crush Attacks only against enemy units Engaged in the model's Front Facing. All models in the same unit as the model are considered to be in Soft Cover. In addition, they may choose to draw Line of Sight as if they were Gigantic and from any point of the Infernal Bastion's Front Facing when shooting or casting spells. If so, as long as the unit has at least one Full Rank: • A maximum of 20 models can shoot. These models can shoot regardless of the rank they are positioned in. • Measure their range from the Infernal Bastion.

Grind Attacks: A model part with Grind Attacks resolves these attacks at its own Agility. It must choose an enemy unit in base contact with it. The chosen enemy unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the model part's own Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits

, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). When several model parts in the same unit have Grind Attacks and when X is a random number (e.g. Grind Attacks (2D3)), roll for the number of hits separately for each model part.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is considered to be mounted.

Higher Calibre: The maximum range of the model's Artillery Weapon is doubled. Enemy units hit by the weapon suffer -1" Advance Rate to a minimum of 3" and -2" March Rate to a minimum of 6" until the start of the next friendly Player Turn.

Impact Hits: At Initiative Step 10, a charging model part with Impact Hits must choose an enemy unit that is in base contact with the attacking model's Front Facing. This unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the attacking model part's Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). In multipart models, only model parts that also have Harnessed or Inanimate can use their Impact Hits. When several models in the same unit have Impact Hits, and when X is a random number (e.g. Impact Hits (D6)), roll for the number of hits separately for each model part.

Infernal Armour: Armour Equipment
Plate Armour. The wearer gains Aegis (5+, against Flaming Attacks).

Infernal Brand: The model gains **Commanding Presence** with the following restrictions: it has a range of 6" and can only benefit Insignificant models. In addition, Standard Height units with more than half of their models with Infernal Brand double their number of Full Ranks for the purpose of Steadfast in the First Round of Combat unless Charging.

Insignificant:

Lance: Attacks made with a Lance and allocated toward models in the wielders' Front Facing gain Devastating Charge (+2 Strength, +2 Armour Penetration). Infantry cannot use Lances.

Light Armour: Armor +1

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Mechanised Support: The model must be deployed in, and can only join, a unit that includes at least one R&F model with Infernal Brand. The model can never voluntarily leave its unit.

Move or Fire: The attack may not be used if the attacking model has made an Advance Move, March Move, Reform or Pivot during the current Player Turn.

Not a Leader: The model cannot be the General.

Oil Flasks: If one or more simultaneous attacks with Oil Flasks hit, after resolving these attacks, the target unit gains one Incendiary marker.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Secrets of Nezibkesh: When the model successfully casts Curse of Nezibkesh (Hereditary Spell), the target immediately gains 1 Incendiary marker.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

Strider: The model automatically passes Dangerous Terrain Tests taken due to Terrain.
If more than half of a unit's models have Strider, the unit never loses their Steadfast or Rank Bonus due to Terrain.
Sometimes Strider is linked to a specific type of Terrain, stated in brackets.
In this case, models with Strider are considered Striders only when interacting with such type of Terrain.

Tall:

Unbranded: The model cannot take any Special Items from this Army Book and cannot cast Curse of Nezibkesh (Hereditary Spell). It cannot join units with more than half of their models with Infernal Brand or units of Shackled Slaves.

Vanguard: After Deployment (including units with Scout), models with Vanguard may perform a 12" move. The move is performed as an Advance Move in the Movement Phase, including any actions and restrictions the unit would normally have (such as Wheeling, Reforming, joining units, leaving units and so on). The 12" distance is used instead of the unit's Advance Rate and March Rate. This move cannot be used to move within 12" of enemy units. This is decreased to 6" for enemy units which have either Scouted or Vanguarded. Units that have moved in this way may not Declare Charges in the first Player

Turn (if their side has the first turn). If both players have units with Vanguard, alternate moving units one at a time, starting with the player that finished deploying last. Instead of moving a unit, a player may declare to not move any more Vanguarding units.

War Machine: The model cannot Pursue, Declare Charges or Declare Flee as Charge Reaction. Characters can never join units with War Machines, and Characters with War Machine cannot join units at all.

When a War Machine fails a Panic Test, instead of Fleeing it is Shaken until the end of the next Player Turn. War Machines that fail a Break Test are automatically destroyed. War Machines and units Engaged in Combat with them cannot make Combat Reforms.

When a unit charges a War Machine, it can move into base contact by having its Front Facing contact any point of the War Machine's base (it must still maximise the number of models in base contact, see subsection II.1.A "Bases and Base Contact", page 4 and Figure 1 page 4). No Align Move is allowed. Ignore the War Machine's Facing, as it does not have any due to its round base.

War Platform: Unless selected as a mount for a Character, a model with War Platform gains Not a Leader and Character, with the following exceptions:

- It does not count towards the Characters category (for Army List creation).
- It cannot Issue Duels, Accept Duels or Make Way.

- It can perform Swirling Melee.

- It does not count as a Character regarding Bodyguard and Multiple Wounds.

The model can join units even if it has Towering Presence, and having Chariot does not prevent it from joining units without Chariot. When joined to a unit, it must always be placed in the centre of the front rank, possibly pushing back other models with Front Rank, and must keep its position in the centre of the front rank at all times (as long as it is joined to the unit). If two positions are equally central (e.g. in a unit with an even number of models in the first rank and a War Platform replacing an uneven number of models per rank), the War Platform can be placed in either of these positions. If the War Platform cannot be placed in the centre of the front rank (e.g. due to Mismatching Bases or the front rank being too narrow), the model cannot join the unit. This means that a War Platform can never join a unit with Mismatching Bases and that only a single War Platform can be in the same unit unless noted otherwise.

Wizard Apprentice: - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection
