Magics

Racial Trait Spell

This spell can only be cast by models with Infernal Brand.

	Casting	Range	Type	Duration
Curse of Nezibkesh				
<i>Mf</i>	{6+} {7+}	{36"} {18"}	Translation missing: en.magic_spell.type_target.Hex	Permanent
<i>The target suffers -1 Offensive Skill and Defensive Skill (and an additional -1 for every Incendiary marker on the target (if the number of markers changes, so will the modifier)), up to a maximum of -3.</i>				

Magic items

Book of Arcane Mastery: The bearer's first Casting Attempt in each Magic Phase gains a +2 Casting Modifier. When using a single Magic Dice for this Casting Attempt, a natural roll of '1' or '2' on the Magic Dice is always a failed Casting Attempt, regardless of any modifiers.

Death Cheater: The wearer gains +1 Armour and Fortitude (4+).

Ring of Desiccation: At the start of every Round of Combat, every enemy unit in base contact with the bearer's model gains one **Incendiary** marker.

Model Rules

Arrogance: Universal Rule.

The model's unit automatically passes Fear Tests.

Bodyguard: When a Character is joined to a unit in which at least one model has Bodyguard, that Character gains Stubborn. When Characters or Character types are stated in brackets, Bodyguard only works for the specified Characters or Character types.

Crush Attack:

Enslaved Porters: Universal Rule.

Shackled Slaves do not cause Panic Tests in other friendly units. At start of the First Game Turn and at the start of each friendly Player Turn, if the Shackled Slaves unit is not Fleeing, Shaken, or Engaged, choose a single friendly Standard Height unit with more than half of its models with Infernal Brand within 6":

- If the Shackled Slaves unit is equipped with Shields, the chosen unit gains Soft Cover.
- If the Shackled Slaves unit is equipped with Paired Weapons, the chosen unit must reroll natural to hit rolls of '1' with its Close Combat Attacks.

The effects last until the start of the next friendly Player Turn.

Fear: Units in base contact with one or more enemy models with Fear suffer -1 Discipline. At the start of each Round of Combat, such units must take a Discipline Test, called a Fear Test. If this test is failed, the models in the unit are Shaken until the end of the Round of Combat. Models that have Fear themselves are immune to the effects of Fear.

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

Fires of Industry: The sum of the Fires of Industry values stated in brackets of all models in the army is restricted to 1 per 750 Army Points, rounding fractions up.

Firing Platform: Universal Rule.

The model can use Special Attacks only against enemy units Engaged in the model's Front Facing. All models in the same unit as the model are considered to be in Soft Cover. In addition, they may choose to draw Line of Sight as if they were Gigantic and from any point of the Infernal Bastion's Front Facing when shooting or casting spells. If so, as long as the unit has at least one Full Rank:

- A maximum of 20 models can shoot. These models can shoot regardless of the rank they are positioned in.
- Measure their range from the Infernal Bastion.

Flintlock Axe: 0–60 R&F Models with Flintlock Axe or Blunderbuss or Pistol per Army.

Range 18", Shots 1, Str 4, AP 2. Counts as a Close Combat Weapon with Two-Handed in close combat. Close Combat Attacks made with it gain +1 Strength. Can be enchanted like a Close Combat Weapon, but only Close Combat Attacks are affected by the Weapon Enchantment unless specifically stated otherwise. The model may shoot from the third rank (in addition to the first and second).

Fly: The model gains Light Troops and Swiftstride. Units composed entirely of models with Fly may make Flying Movements when performing a Move Chargers move, an Advance Move, or a March Move. When a unit makes a Flying Movement, substitute its models' Advance Rate with the first value given in brackets (X), and their March Rate with the second value given in brackets (Y). All modifiers to ground movement values are also applied to the flying values of a model. Units using Flying Movement ignore all Terrain Features and units during the Flying Movement (from their starting to their ending position), but must abide by the Unit Spacing rule at the end of the move (unless charging, when the normal exceptions to the Unit Spacing rule apply). They are still affected by the effects of the Terrain Features from which they take off and in which they land.

Fortitude: Fortitude is a Special Save. Fortitude Saves cannot be taken against attacks with Lethal Strike that rolled a natural 6+ to wound, or against attacks with Flaming Attacks

Full Steam Ahead!: Universal Rule.

The model may only perform a single Pivot or Wheel during a March Move. If the model is Charging, it must Pursue or Overrun if possible. If the model is not Charging, it always passes Restrain Pursuit Tests and its Pursuit Distance is always 0".

Furnace Breach: Universal Rule.

Instead of rolling on the Misfire Table as normal, apply the following Misfire Effects:

- 2 or less: The model may not shoot its Artillery Weapon until the end of the game. In addition, the model's Grind Attacks become Flaming Attacks and Magical Attacks.
- 3+: The model loses 1 Health Point with no saves of any kind allowed.

Great Weapon: Attacks made with a Great Weapon gain +2 Strength, +2 Armour Penetration and always strike at Initiative Step 0 (regardless of the wielder's Agility). A model using this weapon cannot simultaneously use a Shield against Melee Attacks

Grind Attacks: A model part with Grind Attacks resolves these attacks at its own Agility. It must choose an enemy unit in base contact with it. The chosen enemy unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the model part's own Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits

, it may only use one of these rules in the same Round of Combat

(its controlling player may choose which). When several model parts in the same unit have Grind Attacks and when

X is a random number (e.g. Grind Attacks (2D3)), roll for the number of hits separately for each model part.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with at least one model part with Harnessed is considered to be mounted.

Hatred: During the first Round of Combat, failed to-hit rolls from attacks with Hatred must be rerolled.

Impact Hits: At Initiative Step 10, a charging model part with Impact Hits must choose an enemy unit that is in base contact with the attacking model's Front Facing. This unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the attacking model part's Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which).

In multipart models, only model parts that also have Harnessed or Inanimate can use their Impact Hits. When several models in the same unit have Impact Hits, and when X is a random number (e.g. Impact Hits (D6)), roll for the number of hits separately for each model part.

Infernal Armour: Armour Equipment

Follows the rules for Plate Armour (can be enchanted as if it was Plate Armour). The wearer gains Aegis (5+, against Flaming Attacks).

Infernal Brand: The model gains Commanding Presence with the following restrictions: it has a range of 6" and can only benefit Insignificant models. In addition, Standard Height units with more than half of their models with Infernal Brand double their number of Full Ranks for the purpose of Steadfast in the First Round of Combat unless Charging.

Infernal Weapon: Close Combat Weapon

Attacks made with this weapon gain +1 Strength and +1 Armour Penetration.

Insignificant:

Keys to the Citadel: Universal Rule.

The model must buy Weapon Enchantments for two of its mundane weapons.

Magical Attacks: The attack doesn't have any special effects. However, it interacts with other rules, such as Otherworldly. Model parts with Magical Attacks apply it also to their Special Attacks (such as Stomp Attacks, Impact Hits and Breath Attack).

Mechanised Support: The model must be deployed in, and can only join, a unit that includes at least one R&F model with Infernal Brand. The model can never voluntarily leave its unit.

Not a Leader: The model cannot be the General.

Paired Weapons: The wielder gains +1 Attack Value when using Paired Weapons. Attacks made with Paired Weapons gain +1 Offensive Skill and ignore Parry. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.

Riddle of the Lamassu: Universal Rule.

The model is a Wizard Adept that selects 2 spells from Word of Iron (Alchemy), Breath of Corruption (Occultism), Flaming Swords (Pyromancy), Deceptive Glamour (Witchcraft), and Curse of Nezibkesh (Hereditary Spell). This rule overrides the normal Spell Selection rules connected to being a Wizard Adept. Before Spell Selection (at the start of step 7 of the Pre-Game Sequence), the opponent must choose Power or Wisdom.

- If they choose Power, the Lamassu gains Channel (1) for the duration of the game.
- If they choose Wisdom, the model knows an additional spell that it selects immediately from the list of spells above.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Secrets of Nezibkesh: When the model successfully casts Curse of Nezibkesh (Hereditary Spell), the target immediately gains 1 Incendiary marker.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

Solitary: The model may never join units or be joined by other Characters

Spear:

Strider: The model automatically passes Dangerous Terrain Tests taken due to Terrain.

If more than half of a unit's models have Strider, the unit never loses their Steadfast or Rank Bonus due to Terrain.

Sometimes Strider is linked to a specific type of Terrain, stated in brackets.

In this case, models with Strider are considered Striders only when interacting with such type of Terrain.

Unbreakable: The model gains Fearless and its unit automatically passes all Break Tests. Characters with Unbreakable can only join units consisting entirely of models with Unbreakable. Units with one or more models with Unbreakable can only be joined by Characters with Unbreakable.

Wallbreaker: Universal Rule.

The Battering Ram can only use its Crush Attack against enemy units Engaged in the model's Front Facing. The model must be deployed in and can only join a unit that consists entirely of models with Infernal Brand, and it can never voluntarily leave its unit.

War Platform: Unless selected as a mount for a Character, a model with War Platform gains Not a Leader and Character, with the following exceptions:

- It does not count towards the Characters category (for Army List creation). - It cannot Issue Duels, Accept Duels or Make Way.

- It can perform Swirling Melee.

- It does not count as a Character regarding Bodyguard and Multiple Wounds.

The model can join units even if it has Towering Presence, and having Chariot does not prevent it from joining units without Chariot. When joined to a unit, it must always be placed in the centre of the front rank, possibly pushing back other models with Front Rank, and must keep its position in the centre of the front rank at all times (as long as it is joined to the unit). If two positions are equally central (e.g. in a unit with an even number of models in the first rank and a War Platform replacing an uneven number of models per rank), the War Platform can be placed in either of these positions. If the War Platform cannot be placed in the centre of the front rank (e.g. due to Mismatching Bases or the front rank being too narrow), the model cannot join the unit. This means that a War Platform can never join a unit with Mismatching Bases and that only a single War Platform can be in the same unit unless noted otherwise.
