Magics

Racial Trait Spell

	Casting	Range	Type	Duration
Curse of the Phantom Queen				
<i>Mf</i>	7+	24"	Translation missing: en.magic_spell.type_target.Hex	One Turn
<p><i>Whenever a model that is the target of this spell inflicts a Health Point loss against an enemy unit, the model's unit suffers 1 hit with Strength 4, Armour Penetration 2, and Magical Attacks. These hits are considered Ranged Attacks that are distributed by the attacking unit's owner. Only consider Health Point losses caused by Close Combat Attacks, Shooting Attacks, Special Attacks, and spells with duration Instant for this purpose. No Health Pool can generate more hits this way than it had Health Points before the Health Point loss.</i></p>				

Cosmology

Duality: All Cosmology spells are divided into two versions, representing opposing aspects; Cosmos and Chaos. When casting Cosmology spells, always declare which version of the spell you are using. Whenever the Caster successfully casts a non-Bound Cosmology spell, the next Cosmology spell it attempts to cast has its Casting Value reduced by 1, provided this spell is a Cosmology spell of the opposing aspect.

		Casting	Range	Type	Duration	Effect
4	Perception of Strength Chaos	8+	24"	Hex	One Turn	The target suffers -1 Strength and -1 Armour Penetration .

1	Altered Sight Chaos	5+	24"	Hex	One Turn	The target suffers -1 Offensive Skill and -1 Defensive Skill , and has its weapons' Aim worsened by 1.
2	Truth of Time Cosmos	5+	24"	Augment	One Turn	Rolls for Charge Range, Flee Distance, Pursuit Distance, and Overrun Distance of units with at least one model affected by the spell are subject to two instances of Maximised Roll.

Magic items

Binding Scroll: One use only. May be activated after Siphon the Veil (at the end of step 3 of the Magic Phase Sequence).

When activated, pick an enemy model and select one of its Attribute, Bound, or Learned Spells. The selected model cannot cast the chosen instance of the spell during this Magic Phase. Only a single Binding Scroll may be activated during the same phase.

Magical Heirloom: The bearer gains the Hereditary Spell during Spell Selection, always knows it in addition to its other spells, cannot select it during Spell Selection, and cannot replace or otherwise lose it.

Basalt Infusion: The wearer gains +1 Armour and Aegis (3+, against Flaming Attacks). The wearer automatically fails all Fortitude Saves.

Obsidian Rock: The bearer gains Magic Resistance (2).

Transcendence: Attacks made with this weapon become **Magical Attacks**. For each unsaved wound inflicted against enemy models with this weapon, the wielder gains +1 Strength and +1 Armour Penetration for the rest of the game, up to a maximum of +2 each.

Hero's Heart: The wielder of this enchanted weapon gains +1 Attack Value while using it. Attacks made with this enchanted weapon become Magical Attacks and always have at least Strength 5 and at least Armour Penetration 3.

Magic banners

Aether Icon: The bearer gains Magic Resistance (1). If the unit contains a model with another instance of Magic Resistance, it increases that model's Magic Resistance value by 1 instead.

Model Rules

Academy Training: Units with more than half of their models with Academy Training are considered Academy Trained. While within 8" of one or more other non-Fleeing, friendly Academy Trained units, Academy Trained units:

- Gain Devastating Charge (+1" Adv) when declaring their first Charge in any Charge Phase. The effect lasts until the end of the Charge Phase. Characters without Academy Training that Charge out of the unit are not affected.
- Count as having one additional Full Rank for the purpose of Steadfast and Disrupted if they have at least one Full Rank.

Aegis:

Blades of Darag: Two-Handed. While using this weapon, the wielder gains +1 Attack Value, and attacks made with this weapon become Magical Attacks. For

each non-Attribute Spell with duration One Turn targeting at least one model in the wielder's unit, attacks made with this weapon gain +1 Strength, up to a maximum of +2, for as long as the spell's effects are applied. This weapon cannot be enchanted with Weapon Enchantments.

Daeb Bolt Thrower: Range 24", Shots 8, Str 5, AP 2. Note that the model can move and shoot.

Deadly Riposte: Attack Attribute – Close Combat.

For each enemy Close Combat Attack allocated towards the model for which a natural '1' is rolled to hit, the Dread Prince must perform a Close Combat Attack at the same Initiative Step that must be allocated towards the model (or Health Pool) that rolled the '1' to hit. If this is not possible, ignore the effect.

Devastating Charge: Attacks & Weapons, Melee

A charging model part with Devastating Charge, or using a weapon with Devastating Charge, gains the Model Rules and Characteristic modifiers stated in brackets. For example, a charging model part with Devastating Charge (+1 Strength, Poison Attacks) gains +1 Strength and Poison Attacks when it is charging. This rule is cumulative: a model part with several instances of Devastating Charge applies all Attack Attributes and Characteristics modifiers from all of them when charging.

Feigned Flight: A unit consisting solely of models with Feigned Flight that voluntarily chooses to Flee as a Charge Reaction, and subsequently passes a Rally Test in its next Player Turn, doesn't become Shaken. Furthermore, the Reform that is made after Rallying in this case doesn't prevent the unit from moving nor from shooting (but it still counts as having moved for shooting purposes). This rule cannot be applied if a unit fails to rally on the next friendly Player Turn or involuntarily Flees, such as a result of a failed Panic Test or if it was already Fleeing when being charged.

Halberd: Attacks made with a Halberd gain +1 Strength and +1 Armour Penetration. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is considered to be mounted.

Heavy Armour: +2 Armor

Hunting Bolas: The roll for Flee Distance of enemy units that Break from Combat while in base contact with one or more models with Hunting Bolas is subject to Minimised Roll.

Impact Hits: At Initiative Step 10, a charging model part with Impact Hits must choose an enemy unit that is in base contact with the attacking model's Front Facing. This unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the attacking model part's Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). In multipart models, only model parts that also have Harnessed or Inanimate can use their Impact Hits. When several models in the same unit have Impact Hits, and when X is a random number (e.g. Impact Hits (D6)), roll for the number of hits separately for each model part.

Irresistible Will: Universal Rule.

The Casting Values of spells cast by the model are increased by +1. Dispelling rolls against non-Bound spells cast by the model suffer a -2 modifier.

Lethal Strike: If the attack wounds with a natural to-wound roll of 6+, its Armour Penetration is set to 10 and the target of the attack cannot take a Regeneration save against it.

Light Armour: Armor +1

Light Lance:

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Lightning Reflexes: Close Combat

A Close Combat Attack with Lightning Reflexes gains a +1 to-hit modifier. Model parts with this Attack Attribute wielding Great Weapons do not gain this +1 to-hit modifier, but strike with the Great Weapon at the Initiative Step corresponding to their Agility instead of always striking at Initiative Step 0.

March and Shoot:

Not a Leader: The model cannot be the General.

Repeater Crossbow: Range 18", Shots 2, Str 3, AP 0. When shooting from Short Range, the weapon gains +1 Armour Penetration.

Ruthless Efficiency: Close Combat

The attack gains +1 to wound during the First Round of Combat.

Scent of Blood: The model gains Fearless and Frenzy while Engaged in Combat. In addition, the model gains Devastating Charge (+1" Adv) with the following restrictions:

- The Charged unit has at least one Health Pool that contains fewer Health Points than it did when the unit was deployed or otherwise entered the Battlefield.
- The effect ends immediately before the unit declares a new Charge.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

Spear:

Suppressing Volley: Universal Rule.

At the start of each friendly Charge Phase, each unengaged non-Shaken friendly Silexian Auxiliaries unit, with at least one Full Rank may nominate a single, unengaged enemy unit within 18" and within Line of Sight. If so, the Silexian Auxiliaries unit cannot declare any Charges during this Charge Phase. Until the end of the Player Turn, the nominated enemy unit suffers -1 to-hit against Charging Academy Trained units. Nominating a unit from more than one Silexian Auxiliaries unit has no stacking effect.

Tactician: Universal Rule.

The range of Academy Training to and from the bearer's unit is increased from 8" to 12".

Vanguard: After Deployment (including units with Scout), models with Vanguard may perform a 12" move. The move is performed as an Advance Move in the Movement Phase, including any actions and restrictions the unit would normally have (such as Wheeling, Reforming, joining units, leaving units and so on). The 12" distance is used instead of the unit's Advance Rate and March Rate. This move cannot be used to move within 12" of enemy units. This is decreased to 6" for enemy units which have either Scouted or Vanguarded. Units that have moved in this way may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have units with Vanguard, alternate moving units one at a time, starting with the player that finished deploying last. Instead of moving a unit, a player may declare to not move any more Vanguarding units.

War Machine: The model cannot Pursue, Declare Charges or Declare Flee as Charge Reaction. Characters can never join units with War Machines, and Characters with War Machine cannot join units at all.

When a War Machine fails a Panic Test, instead of Fleeing it is Shaken until the end of the next Player Turn. War Machines that fail a Break Test are automatically destroyed. War Machines and units Engaged in Combat with them cannot make Combat Reforms.

When a unit charges a War Machine, it can move into base contact by having its Front Facing contact any point of the War Machine's base (it must still maximise the number of models in base contact, see subsection II.1.A "Bases and Base Contact", page 4 and Figure 1 page 4). No Align Move is allowed. Ignore the War Machine's Facing, as it does not have any due to its round base.

Will of the Senate: Universal Rule.

Friendly units within 6" of a non-Fleeing unit containing one or more models with Will of the Senate must reroll failed Panic Tests.

Wizard Adept: - Knows 2 spells.

- Can select from the Learned Spells 1, 2, 3, and 4 of its chosen Path and the Hereditary Spell of its army.

The Wizard gains Channel (1) and selects its spells as described in Spell Selection.

Wizard Conclave: The Champion of a unit with Wizard Conclave gains +1 Health Point in addition to the normal Characteristics increases associated with being a Champion, and is a Wizard Adept.

This Champion may select up to two spells from predetermined spells given in brackets after Wizard Conclave.

This overrides the Spell Selection rules connected to being a Wizard Adept.
