Magic items

Death Cheater: The wearer gains +1 Armour and Fortitude (4+).

Dragonfire Gem: The bearer gains Aegis (2+, against Flaming Attacks). The bearer automatically fails all Fortitude Saves.

Magic banners

Zealots' Banner: The maximum number of Supporting Attacks that models in the second rank of the bearer's unit can perform is increased by 1.

Model Rules

- Aegis:**
- Battle Fever:** Units with more than half of their models with Battle Fever must reroll failed Panic and Break Tests.
- Beacon of the Dark Gods:** Instead of selecting spells as normal, the Wizard must select one of the following spells during Spell Selection:
- Whispers of the Veil (Evocation)
 - The Grave Calls (Occultism)
 - Hellfire (Hereditary Spell)
- Channel:** During step 3 of the Magic Phase Sequence, each of the Active Player's models with Channel may add X Veil Tokens to the owner's Veil Token Pool. This Universal Rule is cumulative, adding X Veil Tokens of each independent instance of Channel to the model's total Channel value (so e.g. a model with Channel (1) and Channel (2) is treated like a model with Channel (3)).
- Fear:** Units in base contact with one or more enemy models with Fear suffer -1 Discipline. At the start of each Round of Combat, such units must take a Discipline Test, called a Fear Test. If this test is failed, the models in the unit are Shaken until the end of the Round of Combat. Models that have Fear themselves are immune to the effects of Fear.
- Fearless:** If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.
- Grind Attacks:** A model part with Grind Attacks resolves these attacks at its own Agility. It must choose an enemy unit in base contact with it. The chosen enemy unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the model part's own Strength and Armour Penetration.
- If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). When several model parts in the same unit have Grind Attacks and when X is a random number (e.g. Grind Attacks (2D3)), roll for the number of hits separately for each model part.
- Halberd:** Attacks made with a Halberd gain +1 Strength and +1 Armour Penetration. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.
- Hand Weapon:** All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with at least one model part with Harnessed is considered to be mounted.

Heavy Armour: +2 Armor

Hell-Forged Armour: Armour Equipment.

Follows the rules for Plate Armour (can be enchanted as if it was Plate Armour). The wearer's model gains Aegis (5+, against Toxic Attacks).

Impact Hits: At Initiative Step 10, a charging model part with Impact Hits must choose an enemy unit that is in base contact with the attacking model's Front Facing. This unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the attacking model part's Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which).

In multipart models, only model parts that also have Harnessed or Inanimate can use their Impact Hits. When several models in the same unit have Impact Hits, and when X is a random number (e.g. Impact Hits (D6)), roll for the number of hits separately for each model part.

Inanimate: Inanimate - Melee

Model parts with Inanimate cannot make Close Combat Attacks and cannot use Shooting Weapons. Shooting Weapons carried by model parts with Inanimate can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate).

Master of Destruction: The bearer can use a Shield (or a Spiked Shield) simultaneously with a Great Weapon or a Halberd.

Masters of Battle: Attack Attribute.

The model's maximum number of Supporting Attacks is set to 3.

Not a Leader: The model cannot be the General.

Path of the Exiled: Units with more than half of their models with Path of the Exiled must reroll failed Break Tests. At the end of step 7 of a Round of Combat (after taking Break Tests), models with Path of the Exiled in a unit that failed a Break Test simultaneously perform Close Combat Attacks (ignoring the rules for Initiative Order, but otherwise following the normal rules such as Supporting Attacks and Allocating Attacks). Afterwards, they are removed as casualties. Models with Path of the Exiled cannot join or be joined by models with Path of the Favoured.

Path of the Favoured: Universal Rule.

Units with more than half of their models with Path of the Favoured must reroll failed Break Tests. In addition, model parts with Path of the Favoured upgraded to a Champion additionally gain +1 Health Point to a maximum of 3, and their Discipline is set to 9.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Spiked Shield: Models on foot only.

Follows the rules for Shields (can be enchanted as if it was a Shield). For each successful Armour Save roll of 4+ made by the bearer against a Melee Attack while using a Spiked Shield, the bearer immediately inflicts 1 hit with the bearer's Strength and Armour Penetration against the model that caused the wound, before any casualties are removed, distributed onto the model's Health Pool. This is considered a Special Attack.

Standard Bearer:

Swiftstride: When a unit composed entirely of models with Swiftstride rolls Charge Range, Flee Distance, Pursuit Distance or Overrun Distance, it rolls an additional D6 (normally this will lead to rolling 3D6) and discards the lowest D6 rolled.

Towering Presence: The model gains Tall and can never be joined or join a unit (unless it is a War Platform). A model with Towering Presence increases its Rally Around the Flag and Commanding Presence ranges by 6".

Trophy Rack: The bearer's unit may reroll failed Discipline Tests unless Fleeing. Each time attacks made by the bearer's model kill an enemy model that it is fighting a Duel with, the bearer's model gains a +1 Combat Score modifier for the rest of the game (this also applies to attacks made outside the Melee Phase). In addition, the bearer's model may take a single Banner Enchantment (using the bearer's Special Item allowance as normal).

War Platform: Unless selected as a mount for a Character, a model with War Platform gains Not a Leader and Character, with the following exceptions:

- It does not count towards the Characters category (for Army List creation). - It cannot issue Duels, Accept Duels or Make Way.
- It can perform Swirling Melee.
- It does not count as a Character regarding Bodyguard and Multiple Wounds.

The model can join units even if it has Towering Presence, and having Chariot does not prevent it from joining units without Chariot. When joined to a unit, it must always be placed in the centre of the front rank, possibly pushing back other models with Front Rank, and must keep its position in the centre of the front rank at all times (as long as it is joined to the unit). If two positions are equally central (e.g. in a unit with an even number of models in the first rank and a War Platform replacing an uneven number of models per rank), the War Platform can be placed in either of these positions. If the War Platform cannot be placed in the centre of the front rank (e.g. due to Mismatching Bases or the front rank being too narrow), the model cannot join the unit. This means that a War Platform can never join a unit with Mismatching Bases and that only a single War Platform can be in the same unit unless noted otherwise.

Wizard Apprentice: - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection
