## Magic items

**Lucky Charm:** One use only. May be activated when the bearer's model fails an Armour Save. This failed Armour Save may be rerolled.

**Onyx Core:** Enchantment: Hand Weapon or Infernal Weapon.

Attacks made with this weapon become Flaming Attacks and Magical Attacks and gain Multiple Wounds (D3, against Flammable). In addition, their Strength is always set to 6.

**Talisman of Shielding:** The bearer gains Aegis (5+).

**Willow's Ward:** While using this Shield, the bearer cannot use Parry, gains +1 Armour, and Impact Hits distributed onto the bearer suffer -2 Armour Penetration.

**Binding Scroll:** One use only. May be activated after Siphon the Veil (at the end of step 3 of the Magic Phase Sequence).

When activated, pick an enemy model and select one of its Attribute, Bound, or Learned Spells. The selected model cannot cast the chosen instance of the spell during this Magic Phase. Only a single Binding Scroll may be activated during the same phase.

**Book of Arcane Mastery:** The bearer's first Casting Attempt in each Magic Phase gains a +2 Casting Modifier. When using a single Magic Dice for this Casting Attempt, a natural roll of '1' or '2' on the Magic Dice is always a failed Casting Attempt, regardless of any modifiers.

## Magic banners

**Flaming Standard:** One use only. May be activated at the start of a Round of Combat or before shooting with the bearer's unit.

The bearer's unit gains Flaming Attacks. If activated when Engaged in Combat, the effect lasts until the bearer's unit is no longer Engaged in Combat. If activated before shooting with the bearer's unit, the effect lasts until the end of the phase.

## Model Rules

**Aegis:**

**Bodyguard:** When a Character is joined to a unit in which at least one model has Bodyguard, that Character gains Stubborn. When Characters or Character types are stated in brackets, Bodyguard only works for the specified Characters or Character types.

**Bound or Broken:** The model cannot take any Special Items from this Army Book and cannot cast Curse of Nezibkesh (Hereditary Spell).

In addition, if the model's unit is within 6" of a friendly non-Fleeing model with Infernal Brand, the model:

- Gains Battle Focus.
- Must reroll failed Charge Range rolls in the Charge Phase.

**Bow:**

**Crush Attack:**

**Enslaved Porters:** Universal Rule.

Shackled Slaves do not cause Panic Tests in other friendly units. At start of the First Game Turn and at the start of each friendly Player Turn, if the Shackled Slaves unit is not Fleeing, Shaken, or Engaged, choose a single friendly Standard Height unit with more than half of its models with Infernal Brand within 6":

- If the Shackled Slaves unit is equipped with Shields, the chosen unit gains Soft Cover.
- If the Shackled Slaves unit is equipped with Paired Weapons, the chosen unit must reroll natural to hit rolls of '1' with its Close Combat Attacks.

The effects last until the start of the next friendly Player Turn.

**Fear:** Units in base contact with one or more enemy models with Fear suffer -1 Discipline. At the start of each Round of Combat, such units must take a Discipline Test, called a Fear Test. If this test is failed, the models in the unit are Shaken until the end of the Round of Combat. Models that have Fear themselves are immune to the effects of Fear.

**Fearless:** If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

**Feigned Flight:** A unit consisting solely of models with Feigned Flight that voluntarily chooses to Flee as a Charge Reaction, and subsequently passes a Rally Test in its next Player Turn, doesn't become Shaken. Furthermore, the Reform that is made after Rallying in this case doesn't prevent the unit from moving nor from shooting (but it still counts as having moved for shooting purposes). This rule cannot be applied if a unit fails to rally on the next friendly Player Turn or involuntarily Flees, such as a result of a failed Panic Test or if it was already Fleeing when being charged.

**Fires of Industry:** The sum of the Fires of Industry values stated in brackets of all models in the army is restricted to 1 per 750 Army Points, rounding fractions up.

**Firing Platform:** Universal Rule.

The model can use Special Attacks only against enemy units Engaged in the model's Front Facing. All models in the same unit as the model are considered to be in Soft Cover. In addition, they may choose to draw Line of Sight as if they were Gigantic and from any point of the Infernal Bastion's Front Facing when shooting or casting spells. If so, as long as the unit has at least one Full Rank:

- A maximum of 20 models can shoot. These models can shoot regardless of the rank they are positioned in.
- Measure their range from the Infernal Bastion.

**Flaming Attacks:** The attack doesn't have any special effect. However, it interacts with other rules, such as Flammable and Regeneration.

**Flammable:**

**Fly:** The model gains Light Troops and Swiftstride. Units composed entirely of models with Fly may make Flying Movements when performing a Move Chargers move, an Advance Move, or a March Move. When a unit makes a Flying Movement, substitute its models' Advance Rate with the first value given in brackets (X), and their March Rate with the second value given in brackets (Y). All modifiers to ground movement values are also applied to the flying values of a model. Units using Flying Movement ignore all Terrain Features and units during the Flying Movement (from their starting to their ending position), but must abide by the Unit Spacing rule at the end of the move (unless charging, when the normal exceptions to the Unit Spacing rule apply). They are still affected by the effects of the Terrain Features from which they take off and in which they land.

**Fortitude:** Fortitude is a Special Save. Fortitude Saves cannot be taken against attacks with Lethal Strike that rolled a natural 6+ to wound, or against attacks with Flaming Attacks

**Hand Weapon:** All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

**Harnessed:** Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with at least one model part with Harnessed is considered to be mounted.

**Impact Hits:** At Initiative Step 10, a charging model part with Impact Hits must choose an enemy unit that is in base contact with the attacking model's Front Facing. This unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the attacking model part's Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). In multipart models, only model parts that also have Harnessed or Inanimate can use their Impact Hits. When several models in the same unit have Impact Hits, and when X is a random number (e.g. Impact Hits (D6)), roll for the number of hits separately for each model part.

**Inanimate:** Inanimate - Melee

Model parts with Inanimate cannot make Close Combat Attacks and cannot use Shooting Weapons. Shooting Weapons carried by model parts with Inanimate can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate).

**Infernal Armour:** Armour Equipment

Follows the rules for Plate Armour (can be enchanted as if it was Plate Armour). The wearer gains Aegis (5+, against Flaming Attacks).

**Infernal Brand:** The model gains Commanding Presence with the following restrictions: it has a range of 6" and can only benefit Insignificant models. In addition, Standard Height units with more than half of their models with Infernal Brand double their number of Full Ranks for the purpose of Steadfast in the First Round of Combat unless Charging.

**Infernal Weapon:** Close Combat Weapon

Attacks made with this weapon gain +1 Strength and +1 Armour Penetration.

**Insignificant:**

**Lance:** Attacks made with a Lance and allocated toward models in the wielders' Front Facing gain Devastating Charge (+2 Strength, +2 Armour Penetration). Infantry cannot use Lances.

**Light Armour:** Armor +1

**Light Troops:** Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

**Magical Attacks:** The attack doesn't have any special effects. However, it interacts with other rules, such as Otherworldly. Model parts with Magical Attacks apply it also to their Special Attacks (such as Stomp Attacks, Impact Hits and Breath Attack).

**Mechanised Support:** The model must be deployed in, and can only join, a unit that includes at least one R&F model with Infernal Brand. The model can never voluntarily leave its unit.

**Move or Fire:** The attack may not be used if the attacking model has made an Advance Move, March Move, Reform or Pivot during the current Player Turn.

**Not a Leader:** The model cannot be the General.

**Oil Flasks:** Close Combat, Shooting

If one or more simultaneous attacks with Oil Flasks hit, after resolving these attacks, the target unit gains one Incendiary marker.

**Prophet of Lugar:** Universal Rule.

The model gains Aegis (4+) and loses Infernal Armour. The model part gains Volcanic Embrace (1). If on foot, the model gains Feigned Flight, +1" Advance Rate, and +3" March Rate. The model gains access to the options below

**Riddle of the Lamassu:** Universal Rule.

The model is a Wizard Adept that selects 2 spells from Word of Iron (Alchemy), Breath of Corruption (Occultism), Flaming Swords (Pyromancy), Deceptive Glamour (Witchcraft), and Curse of Nezibkesh (Hereditary Spell). This rule overrides the normal Spell Selection rules connected to being a Wizard Adept.

Before Spell Selection (at the start of step 7 of the Pre-Game Sequence), the opponent must choose Power or Wisdom.

- If they choose Power, the Lamassu gains Channel (1) for the duration of the game.
- If they choose Wisdom, the model knows an additional spell that it selects immediately from the list of spells above.

**Scoring:** Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

**Searing Heat:** Attack Attribute.

The model's Grind Attacks from Volcanic Embrace gain +1 to wound. In addition, enemy units suffer -1 Armour while in base contact with the model.

**Secrets of Nezibkesh:** When the model successfully casts Curse of Nezibkesh (Hereditary Spell), the target immediately gains 1 Incendiary marker.

**Shield:** +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

**Solitary:** The model may never join units or be joined by other Characters

**Strider:** The model automatically passes Dangerous Terrain Tests taken due to Terrain.  
If more than half of a unit's models have Strider, the unit never loses their Steadfast or Rank Bonus due to Terrain.  
Sometimes Strider is linked to a specific type of Terrain, stated in brackets.  
In this case, models with Strider are considered Striders only when interacting with such type of Terrain.

**Supernal:**

**Swiftstride:** When a unit composed entirely of models with Swiftstride rolls Charge Range, Flee Distance, Pursuit Distance or Overrun Distance, it rolls an additional D6 (normally this will lead to rolling 3D6) and discards the lowest D6 rolled.

**Vanguard:** After Deployment (including units with Scout), models with Vanguard may perform a 12" move. The move is performed as an Advance Move in the Movement Phase, including any actions and restrictions the unit would normally have (such as Wheeling, Reforming, joining units, leaving units and so on). The 12" distance is used instead of the unit's Advance Rate and March Rate. This move cannot be used to move within 12" of enemy units. This is decreased to 6" for enemy units which have either Scouted or Vanguarded. Units that have moved in this way may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have units with Vanguard, alternate moving units one at a time, starting with the player that finished deploying last. Instead of moving a unit, a player may declare to not move any more Vanguarding units.

**Vassal Slingshot:** Artillery Weapon.

This Artillery Weapon can be fired in two ways:

- Bolt Thrower: Range 48", Shots 1, Str 3 [6], AP 10, Area Attack (1x5), [Multiple Wounds (D3)].
- Oil Flask Thrower: Range 36", Shots 3, Str 1, AP 0. The target unit gains one Incendiary marker for every successful hit.

**Volcanic Embrace:** The model part gains Magical Attacks. All Melee Attacks (including Special Attacks) made by model parts with Volcanic Embrace become Flaming Attacks. In addition, at Initiative Step 0, all enemy models in base contact with one or more model parts with Volcanic Embrace suffer a hit with Strength 4, Armour Penetration 0, and Flaming Attacks. Models with Volcanic Embrace automatically fail all Fortitude Saves.

**War Machine:** The model cannot Pursue, Declare Charges or Declare Flee as Charge Reaction. Characters can never join units with War Machines, and Characters with War Machine cannot join units at all.

When a War Machine fails a Panic Test, instead of Fleeing it is Shaken until the end of the next Player Turn. War Machines that fail a Break Test are automatically destroyed. War Machines and units Engaged in Combat with them cannot make Combat Reforms.

When a unit charges a War Machine, it can move into base contact by having its Front Facing contact any point of the War Machine's base (it must still maximise the number of models in base contact, see subsection II.1.A "Bases and Base Contact", page 4 and Figure 1 page 4). No Align Move is allowed. Ignore the War Machine's Facing, as it does not have any due to its round base.

**War Platform:** Unless selected as a mount for a Character, a model with War Platform gains Not a Leader and Character, with the following exceptions:

- It does not count towards the Characters category (for Army List creation).
- It cannot issue Duels, Accept Duels or Make Way.
- It can perform Swirling Melee.
- It does not count as a Character regarding Bodyguard and Multiple Wounds.

The model can join units even if it has Towering Presence, and having Chariot does not prevent it from joining units without Chariot. When joined to a unit, it must always be placed in the centre of the front rank, possibly pushing back other models with Front Rank, and must keep its position in the centre of the front rank at all times (as long as it is joined to the unit). If two positions are equally central (e.g. in a unit with an even number of models in the first rank and a War Platform replacing an uneven number of models per rank), the War Platform can be placed in either of these positions. If the War Platform cannot be placed in the centre of the front rank (e.g. due to Mismatching Bases or the front rank being too narrow), the model cannot join the unit. This means that a War Platform can never join a unit with Mismatching Bases and that only a single War Platform can be in the same unit unless noted otherwise.

**Wizard Apprentice:** - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection
