Magics

Racial Trait Spell

During Spell Selection, if a Wizard from Empire of Sonnstahl either selects the Hereditary Spell or gains it by any other means, it must instead choose a single Path from the ones available to it other than its own chosen Path. The Wizard gains the Learned Spell 1 from that Path.

	Casting	Range	Type	Duration
Liberal Magics				
Mf	-			One Turn

Magic items

Blacksteel: The wearer gains +1 Armour and **Fear**. If taken by a model on foot, the wearer gains an additional +1 Armour.

The Light of Sonnstahl: Attacks made with this weapon wound automatically, **always** have Armour Penetration 10, and become **Magical Attacks**.

Model Rules

Bodyguard: When a Character is joined to a unit in which at least one model has Bodyguard, that Character gains Stubborn. When Characters or Character types are stated in brackets, Bodyguard only works for the specified Characters or Character types.

Brace of Pistols: Shooting Weapon

Range 12", Shots 2, Str 4, AP 2, Quick to Fire. Counts as Paired Weapons in close combat.

Cannon: Artillery Weapon.

This Artillery Weapon can be fired in two ways:

- Cannon, Range 72", Shots 1, Str 4 [10], AP 0 [10], Area Attack (1x5), [Multiple Wounds (D3+1, Clipped Wings)]
- Volley Gun, Range 12", Shots 2D6, Str 4, AP 4

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

Feigned Flight: A unit consisting solely of models with Feigned Flight that voluntarily chooses to Flee as a Charge Reaction, and subsequently passes a

Rally Test in its next Player Turn, doesn't become Shaken. Furthermore, the Reform that is made after Rallying in this case doesn't prevent the unit from moving nor from shooting (but it still counts as having moved for shooting purposes). This rule cannot be applied if a unit fails to rally on the next friendly Player Turn or involuntarily Flees, such as a result of a failed Panic Test or if it was already Fleeing when being charged.

Fire on Impact!: A Charging model part with Fire on Impact! using a Pistol, a Brace of Pistols, or a Repeater Pistol **always** strikes at Initiative Step 10, and the Strength of its Close Combat Attacks is **set** to 4 and their Armour Penetration is **set** to 2 (regardless of the user's Agility, Strength, and Armour Penetration).

Great Tactician: The model may give two Orders per turn instead of one.

Great Weapon: Attacks made with a Great Weapon gain +2 Strength, +2 Armour Penetration and always strike at Initiative Step 0 (regardless of the wielder's Agility). A model using this weapon cannot simultaneously use a Shield against Melee Attacks

Halberd: Attacks made with a Halberd gain +1 Strength and +1 Armour Penetration. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Handgun: Range 24", Shots 1, Str 4, AP 2, Unwieldy

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is considered to be mounted.

Lethal Strike: If the attack wounds with a natural to-wound roll of 6+, its Armour Penetration is set to 10 and the target of the attack cannot take a Regeneration save against it.

Light Armour: Armor +1

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Move or Fire: The attack may not be used if the attacking model has made an Advance Move, March Move, Reform or Pivot during the current Player Turn.

Multiple Wounds: Attacks & Weapons, Melee

Unsaved wounds caused by the attacks are multiplied into the value given in brackets (X). If the value is a dice (e.g. Multiple Wounds (D3)), roll one dice for each unsaved wound with Multiple Wounds. The amount of wounds that the attack is multiplied into can never be higher than the Health Points Characteristic of the target (excluding Health Points lost previously in the battle). For example, if a Multiple Wounds (D6) attack wounds a unit of Trolls (HP 3) and rolls a '5' for the multiplier, the number of unsaved wounds is reduced to 3, even if the Troll unit has already lost one or two Health Points previously in battle.

If Clipped Wings is stated after the X value in brackets, any unsaved wound caused by the attack against a model with Fly is multiplied into X+1 instead of X.

Not a Leader: The model cannot be the General.

Orders: A Character with Orders may give a single Order to a Parent or Support Unit within 8";. A General with Orders may instead give a single Order to a friendly Parent or Support Unit within the range of its Commanding Presence. Orders are given at the start of each friendly Player Turn, and their effects last until the end of the next Player Turn. A unit cannot receive the same Order more than once during the same Player Turn. Only models of Standard Height are affected. The available Orders are listed below: **Brace For Impact!** The target gains **Fight in Extra Rank**. **On The Double!** The target gains +1"; Advance Rate and +4"; March Rate. **Ready! Aim! Fire!** The target gains **Accurate**. **Steady, Men!** Discipline Tests taken by the target are subject to Minimised Roll. A unit that receives this Order and passes a Rally Test doesn't become Shaken, and the Reform that is made after Rallying doesn't prevent the unit from moving and/or shooting (but it still counts as having moved for shooting purposes). d

Parent Unit: A unit is considered a Parent Unit if at least half of its models have this Universal Rule. Parent Units treat all Support Units as **Insignificant**. Immediately after a Parent Unit passes a Charge Range roll against a non-Fleeing enemy unit in the Charge Phase, before performing the Charge Move, any Support Units within 8"; of the Parent Unit may perform a Support Charge. To do so, the whole Support Unit declares a Charge against the same enemy unit. Apply all of the usual rules for Charging for this out-of-sequence Charge (such as Line of Sight, Front Arc, must roll for Charge Range, max. one Wheel, etc.), with the exception that the enemy cannot choose a Charge Reaction other than Hold. For the purpose of Charge Moves, treat this as any other case of Combined Charges. When calculating Combat Scores in the following Melee Phase, combine the Rank Bonus of both the Parent Unit and up to one Support Unit that performed a successful Support Charge (following all normal restrictions), up to a maximum of +6.

Plate Armour: +3 Armor

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

Support Unit: A unit is considered a Support Unit if at least half of its models have this Universal Rule. Support Units are treated as **Insignificant** by Parent Units. Support Units within 8" of at least one Parent Unit gain **Fight in Extra Rank** and may use Shooting Attacks from the third rank (in addition to the first and second). If the Support Unit has at least one Full Rank, it counts as having the same number of Full Ranks as a Parent Unit within 8"; for the purpose of being Steadfast if it has fewer Full Ranks than the Parent Unit. During the opponent's Charge Phase, Support Units may perform one of the following actions: 1. Immediately after an unengaged Parent Unit within 8" declares a Charge Reaction other than a mandatory Flee Charge Reaction, the Support Unit may Stand and Shoot as if the enemy had declared a Charge against them in their current position (apply the normal rules for the Stand and Shoot Charge Reaction). 2. Immediately after all enemy units have completed their Charge Moves, Support Units within 8" of any Parent Unit that was successfully Charged in this phase may Counter Charge. To do so, choose one enemy unit that successfully Charged the Parent Unit and declare a Charge with the whole Support Unit. Apply all the usual rules for Charging for this out-of-sequence Charge (such as Line of Sight, Front Arc, must roll for Charge Range, max. one Wheel, etc.). When calculating Combat Scores in the following Melee Phase, combine the Rank Bonus of both the Parent Unit and up to one Support Unit that performed a successful Counter Charge (following all normal restrictions), up to a maximum of +6.

Vanguard: After Deployment (including units with Scout), models with Vanguard may perform a 12" move. The move is performed as an Advance Move in the Movement Phase, including any actions and restrictions the unit would normally have (such as Wheeling, Reforming, joining units, leaving units and so on). The 12" distance is used instead of the unit's Advance Rate and March Rate. This move cannot be used to move within 12" of enemy units. This is decreased to 6" for enemy units which have either Scouted or Vanguarded. Units that have moved in this way may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have units with Vanguard, alternate moving units one at a time, starting with the player that finished deploying last. Instead of moving a unit, a player may declare to not move any more Vanguarding units.

War Machine: The model cannot Pursue, Declare Charges or Declare Flee as Charge Reaction. Characters can never join units with War Machines, and Characters with War Machine cannot join units at all. When a War Machine fails a Panic Test, instead of Fleeing it is Shaken until the end of the next Player Turn. War Machines that fail a Break Test are automatically destroyed. War Machines and units Engaged in Combat with them cannot make Combat Reforms. When a unit charges a War Machine, it can move into base contact by having its Front Facing contact any point of the War Machine's base (it must still maximise the number of models in base contact, see subsection II.1.A "Bases and Base Contact", page 4 and Figure 1 page 4). No Align Move is allowed. Ignore the War Machine's Facing, as it does not have any due to its round base.

Qr codes of your army

You can print this page to have all your army's units qrcode and cut them to stick them on your units, with them you can directly access to the unit's profil with your phone.
