Evocation

		Casting	Range	Type	Duration	Effect

3	Hasten the Hour	7+ [10+]	24" [18"]	Hex Damage Direct	Instant	Choose 1 {up to 3 different} models in the target unit (which may be Characters or Champions). Each of them suffers 1 hit that wounds automatically with Armour Penetration 10 and Magical Attacks.
2	Whispers of the Veil	8+	24"	Hex	One Turn	The target suffers -1 Resilience. In addition, a unit with at least one model affected by one or more instances of the spell suffers -1 Discipline.
A	Evocation of Souls				Instant	If your Veil Token pool contains less than 3 Veil Tokens, you gain one Veil Token. No more than 1 Veil Token can be gained from this spell each Phase.
5	Touch of the Reaper	7+ [9+]	(24") {18"}]	Hex Missile Damage Focused Direct	Instant	The target suffers D3 hits with Strength 10, Armour Penetration 10, and Magical Attacks. When rolling to wound with this attack, use the target's Discipline instead of the target's Resilience.

4	Ancestral Aid	6+ [7+]	12" [18"]	Augment	One Turn	The target must reroll failed to-hit rolls with its Close Combat Attacks.

## Magic items

**Magical Heirloom:** The bearer gains the Hereditary Spell during Spell Selection, always knows it in addition to its other spells, cannot select it during Spell Selection, and cannot replace or otherwise lose it.

**Blessed Incriptions:** Attacks made with this enchanted weapon become Divine Attacks and Magical Attacks, and failed to wound rolls must be rerolled.

**Death Cheater:** The wearer gains +1 Armour and Fortitude (4+).

**Potion of Swiftmess:** One use only. May be activated at the start of any Round of Combat. Until the end of the Player Turn, the bearer gains +3 Agility.

## Magic banners

**Banner of Discipline:** The bearer's unit may reroll failed Panic Tests. If the Battle Standard Bearer or the General is part of the bearer's unit, it automatically passes Panic Tests instead.

**Banner of the Relentless Company:** One use only. May be activated during the owner's Movement Phase. All Infantry models in the bearer's unit always have March Rate 15", until the end of the Player Turn. Only a single Banner of the Relentless Company may be activated during the same phase.

## Model Rules

**Aegis:**

**Battle Focus:** If the attack hits with a natural to-hit roll of '6', the attack causes two hits instead of one.

**Blowpipe:** Shooting Weapon.

Range 12", Shots 2, Str 2, AP 0, Poison Attacks, +1 to hit against units consisting entirely of models with Towering Presence.

**Born Predator:** Close Combat

Natural to-hit rolls of '1' of attacks with this Attack Attribute must be rerolled.

**Breath Attack:**

**Cold-Blooded:** The model's Discipline Tests are subject to Minimised Roll.

**Fear:** Units in base contact with one or more enemy models with Fear suffer -1 Discipline. At the start of each Round of Combat, such units must take a Discipline Test, called a Fear Test. If this test is failed, the models in the unit are Shaken until the end of the Round of Combat. Models that have Fear themselves are immune to the effects of Fear.

**Fearless:** If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

**Fly:** The model gains Light Troops and Swiftstride. Units composed entirely of models with Fly may make Flying Movements when performing a Move Chargers move, an Advance Move, or a March Move. When a unit makes a Flying Movement, substitute its models' Advance Rate with the first value given in brackets (X), and their March Rate with the second value given in brackets (Y). All modifiers to ground movement values are also applied to the flying values of a model. Units using Flying Movement ignore all Terrain Features and units during the Flying Movement (from their starting to their ending position), but must abide by the Unit Spacing rule at the end of the move (unless charging, when the normal exceptions to the Unit Spacing rule apply). They are still affected by the effects of the Terrain Features from which they take off and in which they land.

**Frenzy:** A unit with at least half its models with Frenzy cannot choose Flee as Charge Reaction, and when taking Discipline Tests, apply the following:

- If it is a Panic Test, Decimated Test or Fear Test: the unit gains +2 Discipline.

- If it is a Break Test, roll the test as normal.

- If it is any other Discipline Test, the unit suffers -2 Discipline.

At the start of the Charge Phase, each of your units with at least one model with Frenzy that could Declare a Charge against an enemy unit within the unit's Advance Rate +7" (using the lowest Advance Rate among the unit's models; if a model has more than 1 Advance Rate available, use the highest one) must take a Discipline Test, called a Frenzy Test. If the test is failed, the whole unit must Declare a Charge this Player Turn. Note that Characters are never forced to charge out of their units.

**Hand Weapon:** All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

**Hard Target:**

**Harnessed:** Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with at least one model part with Harnessed is considered to be mounted.

**Lethal Strike:** If the attack wounds with a natural to-wound roll of 6+, its Armour Penetration is set to 10 and the target of the attack cannot take a Regeneration save against it.

**Light Armour:** Armor +1

**Light Lance:**

**Light Troops:** Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

**Palanquin:** Universal Rule.

When the model is in a unit with Bodyguard, it gains Stand Behind. The model can be the General even if it is also the Battle Standard Bearer, and it cannot be chosen by the opponent as the model that suffers the penalties for refusing a Duel. The model counts as being mounted.

**Poison Attacks:** If the attack successfully hits with a natural to-hit roll of '6', it automatically wounds with no to-wound roll needed. Shooting Attacks using the Hopeless Shot can only automatically wound if the first to-hit roll is a natural '6'. Note that the second to-hit roll must still be successful in order to hit the target. If the attack can be turned into more than one hit (e.g. a hit with Area Attack, Battle Focus, or Penetrating), only a single hit, chosen by the attacker, automatically wounds. All other hits must roll to wound as normal.

**Poisoned Javelin:** Shooting Weapon.

Range 12", Shots 1, Str as user, AP as user, Poison Attacks, Quick to Fire.

**Prey Scent:** Attack Attribute – Close Combat.

Right before the battle (during step 7 of the Deployment Phase Sequence), if you have one or more units of Rhamphodon Riders or Skink Captains on Alpha Rhamphodon in your army, you must choose 2 units from your opponent's Army List (this may also be Characters). The models of these units are considered "marked".

Rhamphodon mounts gain +D3 Attack Value and must reroll failed to-hit rolls for attacks allocated either towards marked models, or towards models joined to units with more than half of their models marked. The additional attacks must be allocated towards models meeting either of those criteria.

**Scoring:** Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.

- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.

- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

**Scout:** At step 8 of the Pre-Game Sequence (after Spell Selection) an army that includes units with Scout must state which of its units with Scout will use it, starting with the player that picked the

Deployment Zone. Deploy your army as usual, but without deploying any of the Scouting units. These units are placed after all other non-Scouting units have been deployed. They can either be deployed in your Deployment Zone, using the normal rules, or they can be deployed outside the Deployment Zone, but must be more than 18" away from any enemy units. This is decreased to 12" if the Scouting unit is deployed entirely within a Forest, Ruins, Field, Building, or Water Terrain Feature. Scouting units that are deployed outside their player's Deployment Zone may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have Scouting units, alternate deploying one unit at a time, starting with the player that finished deploying first.

**Shield:** +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

**Skirmisher:** The model can draw Lines of Sight in any direction (i.e. it is not limited by the Front Arc) from any point on its base (remember that Charge Moves are limited by a single Wheel of no more than 90°, and that Stand and Shoot Charge Reactions can only be done against enemies in the Front Arc) and can always use Shooting Attacks from any rank (they are not limited to shooting from first and second rank).

Units with at least one R&F model with Skirmisher are formed into a skirmish formation. They are not placed in base to base contact with each other. Instead, models are placed with a 12.5 mm distance between them. This gap is considered part of the unit for Cover purposes, and will have the same Size as the models in the unit. Other than this gap between models, units with Skirmisher follow the normal rules for forming units and therefore have a Front, two Flanks, a Rear, can perform Supporting Attacks, and so on. Units in skirmish formation gain Hard Target and Light Troops, never block Line of Sight, and when units in skirmish formation would contribute to Hard Cover, they contribute to Soft Cover instead.

**Stomp Attacks:**

**Strider:** The model automatically passes Dangerous Terrain Tests taken due to Terrain.

If more than half of a unit's models have Strider, the unit never loses their Steadfast or Rank Bonus due to Terrain.

Sometimes Strider is linked to a specific type of Terrain, stated in brackets.

In this case, models with Strider are considered Striders only when interacting with such type of Terrain.

**Tall:**

**Terror:** The model gains Fear and is immune to the effects of Terror. When a unit with one or more models with Terror Declares a Charge, its target must take a Panic Test. If the test is failed, the target of the charge must declare a Flee Charge Reaction, if able to do so.

**Towering Presence:** The model gains Tall and can never be joined or join a unit (unless it is a War Platform). A model with Towering Presence increases its Rally Around the Flag and Commanding Presence ranges by 6".

**Vanguard:** After Deployment (including units with Scout), models with Vanguard may perform a 12" move. The move is performed as an Advance Move in the Movement Phase, including any actions and restrictions the unit would normally have (such as Wheeling, Reforming, joining units, leaving units and so on). The 12" distance is used instead of the unit's Advance Rate and March Rate. This move cannot be used to move within 12" of enemy units. This is decreased to 6" for enemy units which have either Scouted or Vanguarded. Units that have moved in this way may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have units with Vanguard, alternate moving units one at a time, starting with the player that finished deploying last. Instead of moving a unit, a player may declare to not move any more Vanguarding units.

**Wizard Master:** - Knows 4 spells.

- Can select from the Learned Spells 1, 2, 3, 4, 5, and 6 of its chosen Path and the Hereditary Spell of its army.

The Wizard gains Channel (1) and a +1 modifier to its casting rolls, and selects its spells as described in Spell Selection
