6	Molter Copper	7+	24"	Hex Missile Damage	Instant	The target suffers D3+4 hits with Strength X, Armour Penetration 4, Flaming Attacks, and Magical Attacks, where X is equal to the target's Armour.
1	Quicksilver Lash	7+	24"	Hex Missile Damage	Instant	The target suffers D3+1 hits with Flaming Attacks, Magical Attacks, and Armour Penetration 10. These hits always wound on a roll equal to or greater than "7 minus the target's Armour". An unmodified '6' always wounds and an unmodified '1' always fails to wound.
A	Alchemical Fire		18"	Hex	One Turn	The target gains Flammable against Melee Attacks.

Magic items

Hypnotic Pendant: The bearer gains **Distracting**. All Standard Height R&F models in the bearer's unit gain **Parry**.

Model Rules

Aegis:

Ashes to Ashes: At the end of any phase in which the Master is removed as a casualty, every unit in the army with one or more models with Ashes to Ashes **must** pass a Discipline Test or lose a number of Health Points equal to the amount by which the test was failed, with no saves of any kind allowed. These Health Point losses are allotted following the rules for Unstable, except that they can never be allotted to models that do not have Ashes to Ashes. The number of Health Points lost is reduced by 1 if the unit is within range of Rally Around the Flag. At the end of the Player Turn in which the Master was removed as a casualty, a new Master may be selected. In order to do so, nominate a friendly Wizard Character that either has Vampiric or has chosen Evocation. This Character becomes the new Master. At the start of each friendly Player Turn after the army's Master has been removed as a casualty and no new Master has been selected, every unit with Ashes to Ashes **must** once again pass a Discipline Test or lose Health Points as described above.

Aura of Undeath: During its Shooting Phase, the model part can make a Shooting Attack that targets all enemy units within 12" of the model (including those Engaged in Combat and outside Front Arc and/or Line of Sight). This attack can be used even if the Altar is Engaged in Combat. The targets suffer D6 hits with a Strength equal to the current Game Turn number and Armour Penetration 2.

Autonomous: Undead units consisting entirely of models with Autonomous may perform March Moves as normal, even when outside the range of Commanding Presence of any friendly

models. The unit **must** still pass a Discipline Test in order to do so if within " of non-Fleeing enemy units.

Awaken: The model can Raise Health Points above a unit's starting size for the units stated within brackets. However, units cannot be increased beyond twice their starting size or beyond the maximum unit size written in their unit entry. A unit's starting size is the size of the unit as written on the Army List or the size of the unit when it is Summoned.

Devastating Charge: Attacks & Weapons, Melee

A charging model part with Devastating Charge, or using a weapon with Devastating Charge, gains the Model Rules and Characteristic modifiers stated in brackets. For example, a charging model part with Devastating Charge (+1 Strength, Poison Attacks) gains +1 Strength and Poison Attacks when it is charging. This rule is cumulative: a model part with several instances of Devastating Charge applies all Attack Attributes and Characteristics modifiers from all of them when charging.

Extra Support:

Fear: Units in base contact with one or more enemy models with Fear suffer -1 Discipline. At the start of each Round of Combat, such units must take a Discipline Test, called a Fear Test. If this test is failed, the models in the unit are Shaken until the end of the Round of Combat. Models that have Fear themselves are immune to the effects of Fear.

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

Fortitude: Fortitude is a Special Save . Fortitude Saves cannot be taken against attacks with Lethal Strike that rolled a natural 6+ to wound, or against attacks with Flaming Attacks

Gates of the Netherworld: Whenever a model with Gates of the Netherworld successfully casts Arise!, after resolving the spell's effect, choose a friendly unit with a Reanimated value and within 12" of the Caster. This unit, or a single Character inside the unit, Raises 1 Health Point. No unit can be chosen more than twice per Magic Phase by Gates of the Netherworld.

Ghost Step: The model treats all Terrain Features as Open Terrain for movement purposes, but must abide by the Unit Spacing rule upon the completion of its moves.

Ghostly Form: The model gains **Ghost Step** and **Magical Attacks**. R&F models with Ghostly Form can only be joined by Characters with Ghostly Form.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is considered to be mounted.

Hatred: During the first Round of Combat, failed to-hit rolls from attacks with Hatred must be rerolled.

Impact Hits: At Initiative Step 10, a charging model part with Impact Hits must choose an enemy unit that is in base contact with the attacking model's Front Facing. This unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the attacking model part's Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). In multipart models, only model parts that also have Harnessed or Inanimate can use their Impact Hits. When several models in the same unit have Impact Hits, and when X is a random number (e.g. Impact Hits (D6)), roll for the number of hits separately for each model part.

Inanimate: Inanimate - Melee

Model parts with Inanimate cannot make Close Combat Attacks and cannot use Shooting Weapons. Shooting Weapons carried by model parts with Inanimate can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate).

Lash of Souls: The model can cast Pentagram of Pain (Occultism) as a Bound Spell with Power Level (4/8).

Magical Attacks: The attack doesn't have any special effects. However, it interacts with other rules, such as Otherworldly. Model parts with Magical Attacks apply it also to their Special Attacks (such as Stomp Attacks, Impact Hits and Breath Attack).

Poison Attacks: If the attack successfully hits with a natural to-hit roll of '6', it automatically wounds with no to-wound roll needed. Shooting Attacks using the Hopeless Shot can only automatically wound if the first to-hit roll is a natural '6'. Note that the second to-hit roll must still be successful in order to hit the target. If the attack can be turned into more than one hit (e.g. a hit with Area Attack, Battle Focus, or Penetrating), only a single hit, chosen by the attacker, automatically wounds. All other hits must roll to wound as normal.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Swiftstride: When a unit composed entirely of models with Swiftstride rolls Charge Range, Flee Distance, Pursuit Distance or Overrun Distance, it rolls an additional D6 (normally this will lead to rolling 3D6) and discards the lowest D6 rolled.

Terror: The model gains Fear and is immune to the effects of Terror. When a unit with one or more models with Terror Declares a Charge, its target must take a Panic Test. If the test is failed, the target of the charge must declare a Flee Charge Reaction, if able to do so.

Towering Presence: The model gains Tall and can never be joined or join a unit (unless it is a War Platform). A model with Towering Presence increases its Rally Around the Flag and Commanding Presence ranges by 6".

Undead: The model gains Unstable. Models with Undead cannot perform March Moves, unless their unit starts the March Move within the range of a friendly model's Commanding Presence. The only Charge Reaction a unit with one or more models with Undead can make is Hold.

When units consisting entirely of models with Undead lose Health Points due to Unstable, the number of lost Health Points can be reduced in some situations. Apply the modifiers in the following order:

1. If the unit is Stubborn, halve the number of lost Health Points (round fractions up).
2. If the unit is Steadfast, reduce all lost Health Points above 12 to 12.
3. If the unit receives Rally Around the Flag, reduce the number of lost Health Points with the unit's current Rank Bonus. Units with no Rank Bonus reduce the number of Health Points lost by 1 instead.

4. Apply all other modifiers (from Special Equipment, Model Rules, spells, etc.) afterwards.

Unholy Appetite: After a Round of Combat in which at least one attack with Unholy Appetite caused an unsaved wound, all attacks with Unholy Appetite from models in the same unit **must** reroll failed to-hit rolls until the end of the next Player Turn.

Vampiric: At the end of each Melee Phase, check and resolve the following effects for all models with Vampiric: • **Character** - If at least one attack with Vampiric made by the Character caused an unsaved wound against enemy units, the Character can make a single Vampiric roll. If successful, the Character Recovers a single Health Point. • **R&F model** - If at least one attack with Vampiric made by a R&F model in the unit caused an unsaved wound against enemy units, the unit can make a single Vampiric roll. If successful, the unit Raises a single Health Point. A Vampiric roll is successful if the D6 scores X+, where X is the number stated within brackets. Use only the best value if a unit or Character has multiple parts with this Attack Attribute that each caused unsaved wounds. A roll of '1' on a Vampiric roll is always a failure and a '6' is always a success. Models with Towering Presence suffer a -2 modifier to their Vampiric rolls.

Vanguard: After Deployment (including units with Scout), models with Vanguard may perform a 12" move. The move is performed as an Advance Move in the Movement Phase, including any actions and restrictions the unit would normally have (such as Wheeling, Reforming, joining units, leaving units and so on). The 12" distance is used instead of the unit's Advance Rate and March Rate. This move cannot be used to move within 12" of enemy units. This is decreased to 6" for enemy units which have either Scouted or Vanguarded. Units that have moved in this way may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have units with Vanguard, alternate moving units one at a time, starting with the player that finished deploying last. Instead of moving a unit, a player may declare to not move any more Vanguarding units.

Wizard Apprentice: - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.
The Wizard selects its spells as described in Spell Selection
