## Magics

### Racial Trait Spell

This spell can only be cast by models with Infernal Brand.

	Casting	Range	Type	Duration
Curse of Nezibkesh				
<i>Mf</i>	{6+} {7+}	{36"} {18"} <small>(if the number of markers changes, so will the modifier)</small>	Translation missing: en.magic_spell.target.Hex	Permanent
The target suffers -1 Offensive Skill and Defensive Skill {and an additional -1 for every Incendiary marker on the target (if the number of markers changes, so will the modifier)}, up to a maximum of -3.				

## Model Rules

### Arrogance: Universal Rule.

The model's unit automatically passes Fear Tests.

**Fearless:** If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already fleeing). Models that are Fearless are also immune to the effects of Fear.

**Fires of Industry:** The sum of the Fires of Industry values stated in brackets of all models in the army is restricted to 1 per 750 Army Points, rounding fractions up.

### Flintlock Axe: 0-60 R&F Models with Flintlock Axe or Blunderbuss or Pistol per Army.

Range 18", Shots 1, Str 4, AP 2. Counts as a Close Combat Weapon with Two-Handed in close combat. Close Combat Attacks made with it gain +1 Strength. Can be enchanted like a Close Combat Weapon, but only Close Combat Attacks are affected by the Weapon Enchantment unless specifically stated otherwise. The model may shoot from the third rank (in addition to the first and second).

### Full Steam Ahead!: Universal Rule.

The model may only perform a single Pivot or Wheel during a March Move. If the model is Charging, it must Pursue or Overrun if possible. If the model is not Charging, it always passes Restrain Pursuit Tests and its Pursuit Distance is always 0".

### Furnace Breach: Universal Rule.

Instead of rolling on the Misfire Table as normal, apply the following Misfire Effects:

- 2 or less: The model may not shoot its Artillery Weapon until the end of the game. In addition, the model's Grind Attacks become Flaming Attacks and

Magical Attacks.

- 3+: The model loses 1 Health Point with no saves of any kind allowed.

**Great Weapon:** Attacks made with a Great Weapon gain +2 Strength, +2 Armour Penetration and always strike at Initiative Step 0 (regardless of the wielder's Agility). A model using this weapon cannot simultaneously use a Shield against Melee Attacks

**Grind Attacks:** A model part with Grind Attacks resolves these attacks at its own Agility. It must choose an enemy unit in base contact with it. The chosen enemy unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the model part's own Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits

, it may only use one of these rules in the same Round of Combat

(its controlling player may choose which). When several model parts in the same unit have Grind Attacks and when X is a random number (e.g. Grind Attacks (2D3)), roll for the number of hits separately for each model part.

**Hand Weapon:** All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

**Harnessed:** Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is considered to be mounted.

**Hatred:** During the first Round of Combat, failed to-hit rolls from attacks with Hatred must be rerolled.

**Impact Hits:** At Initiative Step 10, a charging model part with Impact Hits must choose an enemy unit that is in base contact with the attacking model's Front Facing. This unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the attacking model part's Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). In multipart models, only model parts that also have Harnessed or Inanimate can use their Impact Hits. When several models in the same unit have Impact Hits, and when X is a random number (e.g. Impact Hits (D6)), roll for the number of hits separately for each model part.

**Infernal Armour:** Armour Equipment

Follows the rules for Plate Armour (can be enchanted as if it was Plate Armour). The wearer gains Aegis (5+, against Flaming Attacks).

**Infernal Brand:** The model gains Commanding Presence with the following restrictions: it has a range of 6" and can only benefit Insignificant models. In addition, Standard Height units with more than half of their models with Infernal Brand double their number of Full Ranks for the purpose of Steadfast in the First Round of Combat unless Charging.

**Infernal Weapon:** Close Combat Weapon

Attacks made with this weapon gain +1 Strength and +1 Armour Penetration.

**Keys to the Citadel:** Universal Rule.

The model must buy Weapon Enchantments for two of its mundane weapons.

**Paired Weapons:** The wielder gains +1 Attack Value when using Paired Weapons. Attacks made with Paired Weapons gain +1 Offensive Skill and ignore Parry. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.

**Prophet of Lugar:** Universal Rule.

The model gains Aegis (4+) and loses Infernal Armour. The model part gains Volcanic Embrace (1). If on foot, the model gains Feigned Flight, +1" Advance Rate, and +3" March Rate. The model gains access to the options below

**Scoring:** Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

**Secrets of Nezibkesh:** When the model successfully casts Curse of Nezibkesh (Hereditary Spell), the target immediately gains 1 Incendiary marker.

**Spear:**

**Unbreakable:** The model gains Fearless and its unit automatically passes all Break Tests. Characters with Unbreakable can only join units consisting entirely of models with Unbreakable. Units with one or more models with Unbreakable can only be joined by Characters with Unbreakable.

**Weapon Master:**

**Wizard Apprentice:** - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection

.
