Magic items

Ancestral Carvings: Attacks made with this weapon gain +2Strength and +2 Armour Penetration, and become **Magical Attacks**. The wielder gains +2 Attack Value and **Distracting** while using this weapon.

Crown of Autocracy: The model's range of Commanding Presence (if available) is increased by 3", up to a maximum of 18". If the model does not have Commanding Presence, it gains Commanding Presence whose range is always set to 3".

Seed of the Dark Forest: One use only. Right before the battle (during step 7 of the DeploymentPhase Sequence), the bearer **must** place a single Forest Terrain Feature that **must** be no larger than 10" in length and 6" in width on the Battlefield, not in contact with any other Terrain Feature except Open Terrain, more than 1" away from all enemy units, and with its centre within 12" of the bearer. All friendly models inside this Forest Terrain Feature gain a +1 Casting Modifier for Augment, Hex, and Universal spells, and add (+1/+1) to the Power Level of Totem Bound Spells they cast. A natural roll of '1' or '2' for Casting Attempts with a single Magic Dice from friendly models is **always** a failed Casting Attempt, regardless of any modifiers.

Lucky Charm: One use only. May be activated when the bearer's model fails an Armour Save. This failed Armour Save may be rerolled.

Alchemist's Alloy: The wearer gains +1 Armour and suffers -2 Offensive Skill.

Hawthorne Curse: Attacks made with this weapon gain **Devastating Charge (+2 Str, +2 AP)** and become **Magical Attacks**. The weapon can be used as a Shooting Weapon (3+) with the following profile: Range 18", Shots 1, Str 3 [6], AP 10, **Area Attack (1x5)**, **Reload!**, **[Multiple Wounds (D3)]**. This Shooting Attack never suffers negative to-hit modifiers.

Willow's Ward: While using this Shield, the bearer cannot use Parry, gains +1 Armour, and Impact Hits distributed onto the bearer suffer -2 Armour Penetration.

Magic banners

Legion Standard: A unit with one Legion Standard increases the maximum of its Rank Bonus by +1 (normally this means the unit can add up to 4 Full Ranks to its Combat Score). A unit with two or more Legion Standards increases the maximum of its Rank Bonus by +2 instead.

Model Rules

Aegis:

Ambush:

Battle Focus: If the attack hits with a natural to-hit roll of '6', the attack causes two hits instead of one.

Blood Offering: Universal Rule.

A unit that includes at least one Character with Blood Offering may reroll failed Panic Tests at the cost of inflicting one wound with no saves of any kind allowed to a Character with Blood Offering in the unit.

Bow:

Devastating Charge: Attacks & Weapons, Melee

A charging model part with Devastating Charge, or using a weapon with Devastating Charge, gains the Model Rules and Characteristic modifiers stated in brackets. For example, a charging model part with Devastating Charge (+1 Strength, Poison Attacks) gains +1 Strength and Poison Attacks when it is charging. This rule is cumulative: a model part with several instances of Devastating Charge applies all Attack Attributes and Characteristics modifiers from all of them when charging.

Divine Attacks: Successful Aegis saves taken against the attack must be rerolled.

Drunkard: The unit may gain one of two different sets of effects depending on whether it shows up Sober or Drunk on the Battlefield. At step 8 of the Pre-Game Sequence (after Spell Selection) the player must choose whether a Drunkard unit is Sober or Drunk. Drunk Characters cannot join units containing any Sober models and vice versa (models without Drunkard are considered neither Drunk nor Sober).

Sober

The model gains Light Troops and Vanguard. A unit that has been Sober once loses Scoring for the rest of the game. If playing Capture the Flags, Scoring is not lost.

Drunk

The model gains Devastating Charge (+1 Str, +1 AP) and Fearless. Drunk units cannot Ambush.

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

Frenzy: A unit with at least half its models with Frenzy cannot choose Flee as Charge Reaction, and when taking Discipline Tests, apply the following:

- If it is a Panic Test, Decimated Test or Fear Test: the unit gains +2 Discipline.
- If it is a Break Test, roll the test as normal.
- If it is any other Discipline Test, the unit suffers -2 Discipline.

At the start of the Charge Phase, each of your units with at least one model with Frenzy that could Declare a Charge against an enemy unit within the unit's Advance Rate +7" (using the lowest Advance Rate among the unit's models; if a model has more than 1 Advance Rate available, use the highest one) must take a Discipline Test, called a Frenzy Test. If the test is failed, the whole unit must Declare a Charge this Player Turn. Note that Characters are never forced to charge out of their units.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Hard Target:

Hurl Attack: Artillery Weapon.

Catapult (4x4). Range 6–36", Shots 1, Str 3 [7], AP 0 [4], Divine Attacks, Magical Attacks, [Multiple Wounds (D3, Clipped Wings)].

A Cyclops that only Pivots (and moves no further) during its owner's Movement Phase ignores the to-hit modifier from Moving and Shooting in the next Shooting Phase

Impact Hits: At Initiative Step 10, a charging model part with Impact Hits must choose an enemy unit that is in base contact with the attacking model's Front Facing. This unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the attacking model part's Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). In multipart models, only model parts that also have Harnessed or Inanimate can use their Impact Hits. When several models in the same unit have Impact Hits, and when X is a random number (e.g. Impact Hits (D6)), roll for the number of hits separately for each model part.

Insignificant:

Light Armour: Armor +1

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Looted Booze: One use only.

May be activated at the start of any Player Turn. All models with Drunkard in the bearer's unit change from Sober to Drunk.

Magic Resistance:

Pack Tactics: Units fully composed of models with Pack Tactics gain Swiftstride for the Charge Range roll if they are Located in the Charged unit's Flank or Rear Facing when rolling their Charge Range in the Charge Phase.

Primal Instinct: Attack Attribute – Close Combat

At the start of each Round of Combat, each unit with one or more model parts with this Attack Attribute must take a Discipline Test.

If the test is passed, all model parts with Primal Instinct in the unit must reroll failed to-hit rolls during this Round of Combat.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Skirmisher: The model can draw Lines of Sight in any direction (i.e. it is not limited by the Front Arc) from any point on its base (remember that Charge Moves are limited by a single Wheel of no more than 90°, and that Stand and Shoot Charge Reactions can only be done against enemies in the Front Arc) and can always use Shooting Attacks from any rank (they are not limited to shooting from first and second rank).

Units with at least one R&F model with Skirmisher are formed into a skirmish formation. They are not placed in base to base contact with each other. Instead, models are placed with a 12.5 mm distance between them. This gap is considered part of the unit for Cover purposes, and will have the same Size as the models in the unit. Other than this gap between models, units with Skirmisher follow the normal rules for forming units and therefore have a Front, two Flanks, a Rear, can perform Supporting Attacks, and so on. Units in skirmish formation gain Hard Target and Light Troops, never block Line of Sight, and when units in skirmish formation would contribute to Hard Cover, they contribute to Soft Cover instead.

Strider: The model automatically passes Dangerous Terrain Tests taken due to Terrain.

If more than half of a unit's models have Strider, the unit never loses their Steadfast or Rank Bonus due to Terrain.

Sometimes Strider is linked to a specific type of Terrain, stated in brackets.

In this case, models with Strider are considered Striders only when interacting with such type of Terrain.

Vanguard: After Deployment (including units with Scout), models with Vanguard may perform a 12" move. The move is performed as an Advance Move in the Movement Phase, including any actions and restrictions the unit would normally have (such as Wheeling, Reforming, joining units, leaving units and so on). The 12" distance is used instead of the unit's Advance Rate and March Rate. This move cannot be used to move within 12" of enemy units. This is decreased to 6" for enemy units which have either Scouted or Vanguarded. Units that have moved in this way may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have units with Vanguard, alternate moving units one at a time, starting with the player that finished deploying last. Instead of moving a unit, a player may declare to not move any more Vanguarding units.

Wizard Apprentice: - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection
