Magics

Magic items

Rune of Retribution: Whenever the wearer of an armour engraved with one or more Runes of Retribution rolls a successful Shield Wall Aegis Save (including Shield Wall stacked with Rune of Shielding), the wearer immediately inflicts a hit with the Strength and Armour Penetration of the saved attack against the model that caused the wound, before any casualties are removed, distributed onto the model's Health Pool. This is considered a Special Attack.

Rune of Shielding: The bearer gains Aegis (+1, max 4+). The Aegis from this Rune only stacks with itself and/or Shield Wall.

Rune of Steel: The wearer of an armour engraved with this Rune must reroll failed Armour Saves.

Rune of Craftsmanship: A weapon engraved with this Rune follows the rules for Great Weapons (this does not prevent the weapon from being engraved with additional Runes).

Rune of Kinship: Cannot be taken by model on War Throne
The bearer gains Scout and Ambush.

Rune of Precision: The wielder of a weapon engraved with this Rune gains Lightning Reflexes.

Rune of Quickening: For each Rune of Quickening engraved on a weapon, the wielder gains +3 Agility when using it.

Rune of Readiness: One use only. May be activated at the end of the Charge Phase, directly after all Charge Moves have been resolved. If the bearer's unit was successfully charged during this phase, it may perform a Combat Reform (following the normal rules for Combat Reforms).

Rune of Dragon's Breath: The bearer gains Breath Attack (Str 4, AP 1, Flaming Attacks, Magical Attacks).
A single friendly Rune of Dragon's Breath may be used per Round of Combat.

Magic banners

Banner of Speed: A unit with one or more Banners of Speed gains +1" Advance Rate and +2" March Rate.

Runic Standard of Steadiness: One use only. May be activated at the start of any Movement Phase. The bearer's unit gains Quick to Fire until the end of the Player Turn.

Model Rules

Aegis:

Bodyguard: When a Character is joined to a unit in which at least one model has Bodyguard, that Character gains Stubborn. When Characters or Character types are stated in brackets, Bodyguard only works for the specified Characters or Character types.

Cannot be Stomped:

Dwarf Ballista: Artillery Weapon:
Range 48", Shots 1, Str 3[6], AP 10, [Multiple Wounds (D3)], Area Attack (5x1).

Engineer: Once per Shooting Phase, an unengaged Engineer may select a single War Machine within 6" that has not fired yet to gain the following effects:

- Replace the Aim of one of the War Machine's Artillery Weapons with the value given in brackets (X+).
- You may reroll the roll on the Misfire Table.
- You may reroll the dice (all of them or none) for determining the number of hits of a Flamethrower Artillery Weapon.

Engineering Rune: Universal Rule.

Field Artillery adds +4 to any roll on the Misfire Table.

Entrench: Right before the battle (during step 7 of the Deployment Phase Sequence), the model with this rule may Entrench a single War Machine. The War Machine counts as being in Hard Cover. The War Machine loses this rule permanently if it makes an Advance or March Move.

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already fleeing). Models that are Fearless are also immune to the effects of Fear.

Fly: The model gains Light Troops and Swiftstride. Units composed entirely of models with Fly may make Flying Movements when performing a Move, Chargers move, an Advance Move, or a March Move. When a unit makes a Flying Movement, substitute its models' Advance Rate with the first value given in brackets (X), and their March Rate with the second value given in brackets (Y). All modifiers to ground movement values are also applied to the flying values of a model. Units using Flying Movement ignore all Terrain Features and units during the Flying Movement (from their starting to their ending position), but must abide by the Unit Spacing rule at the end of the move (unless charging, when the normal exceptions to the Unit Spacing rule apply). They are still affected by the effects of the Terrain Features from which they take off and in which they land.

Forge Repeater: Shooting Weapon.
Range 18", Shots 4, Str 5, AP 2, Flaming Attacks, Quick to Fire.

Great Weapon: Attacks made with a Great Weapon gain +2 Strength, +2 Armour Penetration and always strike at Initiative Step 0 (regardless of the wielder's Agility). A model using this weapon cannot simultaneously use a Shield against Melee Attacks

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Heavy Armour: +2 Armor

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Move or Fire: The attack may not be used if the attacking model has made an Advance Move, March Move, Reform or Pivot during the current Player Turn.

Paired Weapons: The wielder gains +1 Attack Value when using Paired Weapons. Attacks made with Paired Weapons gain +1 Offensive Skill and ignore Parry. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.

Plate Armour: +3 Armor

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Scout: At step 8 of the Pre-Game Sequence (after Spell Selection) an army that includes units with Scout must state which of its units with Scout will use it, starting with the player that picked the Deployment Zone. Deploy your army as usual, but without deploying any of the Scouting units. These units are placed after all other non-Scouting units have been deployed. They can either be deployed in your Deployment Zone, using the normal rules, or they can be deployed outside the Deployment Zone, but must be more than 18" away from any enemy units. This is decreased to 12" if the Scouting unit is deployed entirely within a Forest, Ruins, Field, Building, or Water Terrain Feature. Scouting units that are deployed outside their player's Deployment Zone may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have Scouting units, alternate deploying one unit at a time, starting with the player that finished deploying first.

Seen It All: Friendly units within 6" of a Greybeards unit may reroll failed Panic Tests and Decimated Tests.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

Shield Wall: When using a Shield, the model gains Aegis (6+, against Close Combat Attacks). This is improved to Aegis (5+, against Close Combat Attacks) if the attacker is Charging. This Special Save can only be used against attacks from enemies Engaged in the model's unit's Front Facing.

Shrapnel Bombs: Special Attack.
Sweeping Attack.

The enemy unit suffers D6*2 hits with Strength 3 and Armour Penetration 1. If a natural '6' is rolled for the number of hits, after the attack has been resolved, the Shrapnel Bombs cannot be used anymore during this battle.

Strider: The model automatically passes Dangerous Terrain Tests taken due to Terrain.
If more than half of a unit's models have Strider, the unit never loses their Steadfast or Rank Bonus due to Terrain.
Sometimes Strider is linked to a specific type of Terrain, stated in brackets.
In this case, models with Strider are considered Striders only when interacting with such type of Terrain.

Stubborn: A unit with at least one model with Stubborn ignores any Combat Score penalties to its Discipline when taking Break Tests or Combat Reform Discipline Tests.

Sturdy: Melee.
The model gains Devastating Charge (+1 Str, +1 AP) and it does not suffer from negative to-hit modifiers from a Stand and Shoot Charge Reaction.

Swiftstride: When a unit composed entirely of models with Swiftstride rolls Charge Range, Flee Distance, Pursuit Distance or Overrun Distance, it rolls an additional D6 (normally this will lead to rolling 3D6) and discards the lowest D6 rolled.

Tall:

The bigger they are...: When Charging a unit that contains at least one Large or Gigantic model, the model gains Swiftstride for the Charge Range roll.

Unbreakable: The model gains Fearless and its unit automatically passes all Break Tests. Characters with Unbreakable can only join units consisting entirely of models with Unbreakable. Units with one or more models with Unbreakable can only be joined by Characters with Unbreakable.

Volley Gun: Artillery Weapon:
Range 30", Shots 2D6*2, Str 5, AP 3.

Wall of Iron: The model gains Aegis (5+, against Close Combat Attacks). This rule can only be used against attacks from enemies Engaged in the model's unit's Front Facing.

War Machine: The model cannot Pursue, Declare Charges or Declare Flee as Charge Reaction. Characters can never join units with War Machines, and Characters with War Machine cannot join units at all.

When a War Machine fails a Panic Test, instead of Fleeing it is Shaken until the end of the next Player Turn. War Machines that fail a Break Test are automatically destroyed. War Machines and units Engaged in Combat with them cannot make Combat Reforms.

When a unit charges a War Machine, it can move into base contact by having its Front Facing contact any point of the War Machine's base (it must still maximise the number of models in base contact, see subsection II.1.A "Bases and Base Contact", page 4 and Figure 1 page 4). No Align Move is allowed. Ignore the War Machine's Facing, as it does not have any due to its round base.

Weapon Master:

Yer comin' with me!: Close Combat.

In order to use this Attack Attribute, the unit must be at least as wide as it is deep at the start of the Round of Combat.

Close Combat Attacks made by models with this Attack Attribute can never wound on worse than 4+. In addition, when a model with this Attack Attribute is removed as a casualty during the Melee Phase due to an enemy Melee Attack, it must immediately, before removal, perform a single Close Combat Attack with the following rules and restrictions:

- The attack is always resolved with Strength 5 and Armour Penetration 2.
- The owner must choose one of the following options:
 - (1) The attack is allocated towards the model that caused the casualty.
 - (2) The attack is allocated towards a R&F model in that model's unit. The hit is distributed onto the unit.

In either case, the model with Yer comin' with me! is considered in base contact with the attacked model, and the models count as Engaged in the same Facing as their units.

- This Attack Attribute cannot be used against casualties caused by Impact Hits.

Qr codes of your army

You can print this page to have all your army's units qrcode and cut them to stick them on your units, with them you can directly access to the unit's profil with your phone.
