Magics

Racial Trait Spell

This spell has a second Boosted version, which is shown using {{this colour-coding}}

	Casting	Range	Type	Duration
Arise!				
<i>Mf</i>	4+ [8+] {11+}	18" [6" Aura] {12" Aura}	Augment	Instant
<p><i>When resolving the spell, choose one of the following effects for each target:</i></p> <ul style="list-style-type: none"> • The R&F part of the target Raises a number of Health Points equal to its Reanimated value. • Up to one Character within the target Recovers a number of Health Points equal to its Reanimated value. <p><i>Models with Towering Presence cannot Recover more than 2 Health Points from this spell in a single Magic Phase.</i></p>				

Evocation

		Casting	Range	Type	Duration	Effect
A	Evocation of Souls				Instant	If your Veil Token pool contains less than 3 Veil Tokens, you gain one Veil Token. No more than 1 Veil Token can be gained from this spell each Phase.
1	Spectral Blades	5+ [9+]	18"	Augment	Last one Turn	The target must reroll failed to-wound rolls with its Melee Attacks [and gains Lethal Strike] .
2	Whispers of the Veil	8+	24"	Hex	Last one Turn	The target suffers -1 Resilience. In addition, a unit with at least one model affected by one or more instances of the spell suffers -1 Discipline.
3	Hasten the Hour	7+ [10+]	24" [18"]	Hex, Damage, Direct	Instant	Choose 1 {up to 3 different} models in the target unit (which may be Characters or Champions). Each of them suffers 1 hit that wounds automatically with Armour Penetration 10 and Magical Attacks.
4	Ancestral Aid	6+ [7+]	12" [18"]	Augment	Last one Turn	The target must reroll failed to-hit rolls with its Close Combat Attacks.
5	Touch of the Reaper	7+ [9+]	(24") [18"]	Hex, Missile, Damage, Focused, Direct	Instant	The target suffers D3 hits with Strength 10, Armour Penetration 10, and Magical Attacks. When rolling to wound with this attack, use the target's Discipline instead of the target's Resilience.
6	Danse Macabre	5+ [9+]	12" [9" Aura]	Augment	Instant	The target may perform a 8" [6"] Magical Move and gains Ghost Step during this move.

Occultism

The Sacrifice: When casting a non-Bound Spell from this Path, immediately after the casting roll, but before any Dispelling Attempt, the Active Player may choose the Caster's unit or another friendly unengaged unit within 24".

A unit may only be chosen once per phase. The chosen unit suffers X hits that wound automatically with Armour Penetration 10 and Magical Attacks, and with no saves of any kind allowed, where X is determined by the Discipline value of the largest fraction of models in the unit, ignoring all Discipline modifiers. In case of a tie, use the lower value:

- 0 to 4: 3 hits
- 5 to 7: 2 hits
- 8 to 10: 1 hit

Any Health Point loss from The Sacrifice that would remove the last model of the chosen unit as a casualty is discarded.

These Health Points losses never cause Panic Tests.

If at least one Health Point loss was caused, the spell is cast with the **{amplified}** version. In that case, use any text marked with **{}**.

		Casting	Range	Type	Duration	Effect
5	Marked for Doom	9+	24"	Hex, Damage, Direct	Instant	The target suffers 1 hit with Strength 10, Armour Penetration 10, Multiple Wounds (D3), and Magical Attacks. {If the target is within 12" of the Caster, the spell targets a single Character or Champion joined to the target unit.}
4	Breath of Corruption	6+ [9+]	Caster [12"]	[Augment], Focused	Last one Turn	The target gains Breath Attack (Magical Attacks, Toxic Attacks). [This spell may only target Characters, Champions, and single model units.] {If the Breath Attack is used as a Shooting Attack, its range is increased to 18".}
6	The Grave Calls	11+	12"	Hex, Damage, Direct	Instant	The target suffers 2D6 hits with Strength 5, Armour penetration 2, and Magical Attacks. {The hits gain +1 Strength and +1 Armour Penetration.}
2	Hand of Glory	6+ [8+]	Caster [12"]	[Augment], Focused	Last one Turn	[This spell may only target Characters, Champions, and single model units.] The target {and all models in its unit} gain Aegis (6+) and Aegis (+1, max 3+).
1	Pentagram of Pain	5+[6+]	24"[12"Aura]	[Hex], [Direct], [Universal], [Damage]	Instant	The target suffers D6 hits with Strength 4, Armour Penetration 1, and Magical Attacks. [The Caster's unit is unaffected.] {If one or more unsaved wounds are caused with this spell, the Caster Recovers 1 Health Point.}
3	The Rot Within	6+	18"	Hex	Permanent	The target suffers -1 Offensive Skill and -1 Defensive Skill. {The Caster gains +1 Offensive Skill and +1 Defensive Skill.}

Magic items

Destiny's Call: The wearer gains Aegis (4+) and its Armour is set to 3 and can never be improved beyond this.

Obsidian Rock: The bearer gains Magic Resistance (2).

Reaper's Harvest: Attacks made with this weapon always have Strength 10 and Armour Penetration 10 and gain Divine Attacks and become Magical Attacks. When rolling to wound with attacks made with this weapon, use the enemy's Discipline instead of its Resilience.

Talisman of the Void: The bearer gains Channel (1).

Magic banners

Rending Banner: One use only. May be activated at the start of a Round of Combat. Close Combat Attacks from R&F models in the bearer's unit gain +1 Armour Penetration until the bearer's unit is no longer Engaged in Combat. A model can only be affected by a single Rending Banner at the same time.

Legion Standard: A unit with one Legion Standard increases the maximum of its Rank Bonus by +1 (normally this means the unit can add up to 4 Full Ranks to its Combat Score). A unit with two or more Legion Standards increases the maximum of its Rank Bonus by +2 instead.

Model Rules

Aegis:

Ashes to Ashes: At the end of any phase in which the Master is removed as a casualty, every unit in the army with one or more models with Ashes to Ashes must pass a Discipline Test or lose a number of Health Points equal to the amount by which the test was failed, with no saves of any kind allowed. These Health Point losses are allotted following the rules for Unstable, except that they can never be allotted to models that do not have Ashes to Ashes. The number of Health Points lost is reduced by 1 if the unit is within range of Rally Around the Flag.

At the end of the Player Turn in which the Master was removed as a casualty, a new Master may be selected. In order to do so, nominate a friendly Wizard Character that either has Vampiric or has chosen Evocation. This Character becomes the new Master.

At the start of each friendly Player Turn after the army's Master has been removed as a casualty and no new Master has been selected, every unit with Ashes to Ashes must once again pass a Discipline Test or lose Health Points as described above.

Autonomous: Undead units consisting entirely of models with Autonomous may perform March Moves as normal, even when outside the range of friendly models' Commanding Presence. The unit must still pass a Discipline Test in order to do so if within 8" of non-Fleeing enemy units.

Awaken: The model can Raise Health Points above a unit's starting size for the units stated within brackets. However, units cannot be increased beyond twice their starting size or beyond the maximum unit size written in their unit entry. A unit's starting size is the size of the unit as written on the Army List or the size of the unit when it is Summoned.

Chill of the Grave: Enemy units within 6" of one or more models with Chill of the Grave suffer -2 Agility and -2 Defensive Skill, both to a minimum of 1.

Chilling Shriek: Special Attack.

A model with this Special Attack can use it as 1. a Shooting Attack, and as 2. a Special Attack when Engaged in Combat.

1. Choose a target using the normal rules for Shooting Attacks. The attack has Range 8" and March and Shoot.

2. The attack is made at the model part's Agility. Declare that you are using Chilling Shriek when allocating attacks. If used, the model part cannot perform any Close Combat Attacks. Choose a single unit in base contact as the target.

Regardless of whether it is used as a Shooting or Melee Attack, the Chilling Shriek inflicts 1 hit for each Health Point the model with Chilling Shriek currently has. These hits always have Strength 10, Armour Penetration 10, and Magical Attacks. When rolling to wound with this attack, use the enemy's Discipline instead of its Resilience.

Devastating Charge: Attacks & Weapons, Melee

A charging model part with Devastating Charge, or using a weapon with Devastating Charge, gains the Model Rules and Characteristic modifiers stated in brackets. For example, a charging model part with Devastating Charge (+1 Strength, Poison Attacks) gains +1 Strength and Poison Attacks when it is charging. This rule is cumulative: a model part with several instances of Devastating Charge applies all Attack Attributes and Characteristics modifiers from all of them when charging.

Fear: Units in base contact with one or more enemy models with Fear suffer -1 Discipline. At the start of each Round of Combat, such units must take a Discipline Test, called a Fear Test. If this test is failed, the models in the unit are Shaken until the end of the Round of Combat. Models that have Fear themselves are immune to the effects of Fear.

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

Fly: The model gains Light Troops and Swiftstride. Units composed entirely of models with Fly may make Flying Movements when performing a Move Chargers move, an Advance Move, or a March Move. When a unit makes a Flying Movement, substitute its models' Advance Rate with the first value given in brackets (X), and their March Rate with the second value given in brackets (Y). All modifiers to ground movement values are also applied to the flying values of a model. Units using Flying Movement ignore all Terrain Features and units during the Flying Movement (from their starting to their ending position), but must abide by the Unit Spacing rule at the end of the move (unless charging, when the normal exceptions to the Unit Spacing rule apply). They are still affected by the effects of the Terrain Features from which they take off and in which they land.

Fortitude: Fortitude is a Special Save. Fortitude Saves cannot be taken against attacks with Lethal Strike that rolled a natural 6+ to wound, or against attacks with Flaming Attacks

Gates of the Netherworld: Whenever a model with Gates of the Netherworld successfully casts Arise!, after resolving the spell's effect, choose a friendly unit with a Reanimated value and within 12" of the Caster. This unit, or a single Character inside the unit, Raises 1 Health Point. No unit can be chosen more than twice per Magic Phase by Gates of the Netherworld.

Ghost Step: The model treats all Terrain Features as Open Terrain for movement purposes, but must abide by the Unit Spacing rule upon the completion of its moves.

Great Weapon: Attacks made with a Great Weapon gain +2 Strength, +2 Armour Penetration and always strike at Initiative Step 0 (regardless of the wielder's Agility). A model using this weapon cannot simultaneously use a Shield against Melee Attacks

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is considered to be mounted.

Impact Hits: At Initiative Step 10, a charging model part with Impact Hits must choose an enemy unit that is in base contact with the attacking model's Front Facing. This unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the attacking model part's Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). In multipart models, only model parts that also have Harnessed or Inanimate can use their Impact Hits. When several models in the same unit have Impact Hits, and when X is a random number (e.g. Impact Hits (D6)), roll for the number of hits separately for each model part.

Inanimate: Inanimate - Melee

Model parts with Inanimate cannot make Close Combat Attacks and cannot use Shooting Weapons. Shooting Weapons carried by model parts with Inanimate can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate).

Light Armour: Armor +1

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a

model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Magical Attacks: The attack doesn't have any special effects. However, it interacts with other rules, such as Otherworldly. Model parts with Magical Attacks apply it also to their Special Attacks (such as Stomp Attacks, Impact Hits and Breath Attack).

Not a Leader: The model cannot be the General.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

Swiftstride: When a unit composed entirely of models with Swiftstride rolls Charge Range, Flee Distance, Pursuit Distance or Overrun Distance, it rolls an additional D6 (normally this will lead to rolling 3D6) and discards the lowest D6 rolled.

Towering Presence: The model gains Tall and can never be joined or join a unit (unless it is a War Platform). A model with Towering Presence increases its Rally Around the Flag and Commanding Presence ranges by 6".

Undead: The model gains Unstable. Models with Undead cannot perform March Moves, unless their unit starts the March Move within the range of a friendly model's Commanding Presence. The only Charge Reaction a unit with one or more models with Undead can make is Hold.

When units consisting entirely of models with Undead lose Health Points due to Unstable, the number of lost Health Points can be reduced in some situations. Apply the modifiers in the following order:

1. If the unit is Stubborn, halve the number of lost Health Points (round fractions up).
2. If the unit is Steadfast, reduce all lost Health Points above 12 to 12.
3. If the unit receives Rally Around the Flag, reduce the number of lost Health Points with the unit's current Rank Bonus. Units with no Rank Bonus reduce the number of Health Points lost by 1 instead.
4. Apply all other modifiers (from Special Equipment, Model Rules, spells, etc.) afterwards.

Unholy Conduit: Universal Rule.

Friendly units within 6" of the model gain Autonomous

Vampiric: At the end of each Melee Phase, check and resolve the following effects for all models with Vampiric:

- Character – If at least one attack with Vampiric made by the Character caused an unsaved wound against enemy units, the Character can make a single Vampiric roll. If successful, the Character Recovers a single Health Point.
- R&F model – If at least one attack with Vampiric made by a R&F model in the unit caused an unsaved wound against enemy units, the unit can make a single Vampiric roll. If successful, the unit Raises a single Health Point.

A Vampiric roll is successful if the D6 scores X+, where X is the number stated within brackets. Use only the best value if a unit or Character has multiple parts with this Attack Attribute that each caused unsaved wounds. A roll of '1' on a Vampiric roll is always a failure and a '6' is always a success. Models with Towering Presence suffer a -2 modifier to their Vampiric rolls.

Vanguard: After Deployment (including units with Scout), models with Vanguard may perform a 12" move. The move is performed as an Advance Move in the Movement Phase, including any actions and restrictions the unit would normally have (such as Wheeling, Reforming, joining units, leaving units and so on). The 12" distance is used instead of the unit's Advance Rate and March Rate. This move cannot be used to move within 12" of enemy units. This is decreased to 6" for enemy units which have either Scouted or Vanguarded. Units that have moved in this way may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have units with Vanguard, alternate moving units one at a time, starting with the player that finished deploying last. Instead of moving a unit, a player may declare to not move any more Vanguarding units.

War Platform: Unless selected as a mount for a Character, a model with War Platform gains Not a Leader and Character, with the following exceptions:

- It does not count towards the Characters category (for Army List creation).
- It cannot Issue Duels, Accept Duels or Make Way.
- It can perform Swirling Melee.
- It does not count as a Character regarding Bodyguard and Multiple Wounds.

The model can join units even if it has Towering Presence, and having Chariot does not prevent it from joining units without Chariot. When joined to a unit, it must always be placed in the centre of the front rank, possibly pushing back other models with Front Rank, and must keep its position in the centre of the front rank at all times (as long as it is joined to the unit). If two positions are equally central (e.g. in a unit with an even number of models in the first rank and a War Platform replacing an uneven number of models per rank), the War Platform can be placed in either of these positions. If the War Platform cannot be placed in the centre of the front rank (e.g. due to Mismatching Bases or the front rank being too narrow), the model cannot join the unit. This means that a War Platform can never join a unit with Mismatching Bases and that only a single War Platform can be in the same unit unless noted otherwise.

QR codes of your army

You can print this page to have all your army's units QR code and cut them to stick them on your units, with them you can directly access to the unit's profile with your phone.
