Magic items

Mortal Reminder: The wielder gains **Fear**. Attacks made with this weapon gain +1 Strength, +1 Armour Penetration, and become **Magical Attacks**.

Prayer-Etched: The wearer gains +1 Armour and Aegis (+1, max. 4+).

Lucky Charm: One use only. May be activated when the bearer's model fails an Armour Save. This failed Armour Save may be rerolled.

Percival's Panoply: The wearer gains +2 Armour.

Uther's Mettle: Attacks made with this weapon ignore Parry and become Magical Attacks.

At the start of the Initiative Step in which the wielder's Close Combat Attacks will be performed, nominate one enemy unit Engaged with the wielder's Front Facing. The wielder gains +1 Attack Value, up to a maximum of +5:

- For each rank of the nominated unit after the first if the wielder's model is Engaged with the unit's Front or Rear Facing.
- For each file of the nominated unit after the first if the wielder's model is Engaged with the unit's Flank Facing.

The additional attacks must be allocated towards non-Champion R&F models of the nominated unit.

If this is not possible, the additional attacks are ignored.

Magical Heirloom: The bearer gains the Hereditary Spell during Spell Selection, always knows it in addition to its other spells, cannot select it during Spell Selection, and cannot replace or otherwise lose it.

Magic banners

Oriflamme: The bearer gains **Fear** while Engaged in Combat. Enemy units in base contact with the bearer's unit cannot benefit from Rally Around the Flag.

Rending Banner: One use only. May be activated at the start of a Round of Combat. Close Combat Attacks from R&F models in the bearer's unit gain +1 Armour Penetration until the bearer's unit is no longer Engaged in Combat. A model can only be affected by a single Rending Banner at the same time.

Relic Shroud: The bearer of one or more Relic Shrouds can cast Breath of the Lady (Hereditary Spell) as a Bound Spell with Power Level (4/8).

Castellan's Crest: One use only. May be activated immediately before declaring a Charge with the bearer or the bearer's unit in the Charge Phase.

Failed Charge Range rolls of the bearer or the bearer's unit must be rerolled until the end of the phase. Other Characters Charging out of the bearer's unit are not affected.

Model Rules

Beloved: Universal Rule.

While the model is joined to a unit with at least one Full Rank, it gains Stand Behind.

Courage: The model gains Aegis (+1, max. 4+) with the following restriction: The effect can only be used against wounds against which the model cannot take or would automatically fail its any Armour Saves. Units with more than half of their models with Courage ignore friendly units consisting entirely of models with Ordeal for the purpose of Panic Tests.

Daring: Units with more than half of their models with Daring cannot voluntarily declare Flee as a Charge Reaction and must reroll failed Panic Tests

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

Feigned Flight: A unit consisting solely of models with Feigned Flight that voluntarily chooses to Flee as a Charge Reaction, and subsequently passes a Rally Test in its next Player Turn, doesn't become Shaken. Furthermore, the Reform that is made after Rallying in this case doesn't prevent the unit from moving nor from shooting (but it still counts as having moved for shooting purposes). This rule cannot be applied if a unit fails to rally on the next friendly Player Turn or involuntarily Flees, such as a result of a failed Panic Test or if it was already Fleeing when being charged.

Fey Spirit: The model gains Fearless and Magical Attacks. Models with Fey Spirit can only join or be joined by Damsels or models with Fey Spirit.

Fly: The model gains Light Troops and Swiftstride. Units composed entirely of models with Fly may make Flying Movements when performing a Move Chargers move, an Advance Move, or a March Move. When a unit makes a Flying Movement, substitute its models' Advance Rate with the first value given in brackets (X), and their March Rate with the second value given in brackets (Y). All modifiers to ground movement values are also applied to the flying values of a model. Units using Flying Movement ignore all Terrain Features and units during the Flying Movement (from their starting to their ending position), but must abide by the Unit Spacing rule at the end of the move (unless charging, when the normal exceptions to the Unit Spacing rule apply). They are still affected by the effects of the Terrain Features from which they take off and in which they land.

Gallantry: During Army List creation, the unit gains a Gallantry value that corresponds to the value stated in brackets (X). Multiple instances of Gallantry (X) in the same unit do not stack. The sum of the Gallantry values of all units on the Army List is restricted to 1 per 650 Army Points, rounding fractions up (this means that e.g. a 4500 pts army can contain units with a combined Gallantry value of up to 7).

Grind Attacks: A model part with Grind Attacks resolves these attacks at its own Agility. It must choose an enemy unit in base contact with it. The chosen enemy unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the model part's own Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits

, it may only use one of these rules in the same Round of Combat

(its controlling player may choose which). When several model parts in the same unit have Grind Attacks and when X is a random number (e.g. Grind Attacks (2D3)), roll for the number of hits separately for each model part.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is considered to be mounted.

Hatred: During the first Round of Combat, failed to-hit rolls from attacks with Hatred must be rerolled.

Heavy Armour: +2 Armor

Honesty: The model gains Aegis (+1, against Magical Attacks, max. 4+)

Lance: Attacks made with a Lance and allocated toward models in the wielders' Front Facing gain Devastating Charge (+2 Strength, +2 Armour Penetration). Infantry cannot use Lances.

Lance Formation: Close Combat

The model gains Fight in Extra Rank, and its maximum number of Supporting Attacks is increased by 1. If more than half of a unit's models have Lance Formation and the unit is 3 or 4 models wide, it counts as being in Line Formation and only needs to be 3 models wide in order to form Full Ranks.

Light Armour: Armor +1

Light Lance:

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Longbow: Portée 30", tir 1, Force 3, PA 0, Tir précis , Tir rapide

Ordeal: The model gains Aegis (+1, max. 5+) with the following condition: Its unit must be Engaged in the same Combat as at least one other friendly unit containing one or more models with Courage or Honesty.

Units consisting entirely of models with Ordeal are ignored by units with more than half of their models with Courage for the purpose of Panic Tests.

Orison: At the start of step 7 of the Pre-Game Sequence (Spell Selection), each model with Orison (X) adds X Orison Tokens to its owner's Orison Token pool. Any player's Orison Token pool can never contain more than 6 Orison Tokens. At the start of any phase or Round of Combat, one or more Orison Tokens can be removed from the Orison Token pool. For each removed token, choose one friendly non-Fleeing unit within 8" of any friendly non-Fleeing model with Orison (X).

The chosen unit gains one of the following effects:

- Holy Strike: Model parts without Harnessed gain +1 to hit with their Close Combat Attacks.
- Holy Shield: Aegis (+1, max. 4+).
- Holy Wrath: Fear; any model that already has Fear gains Terror instead.

Several instances of an effect on the same model are not cumulative, and a single unit can only be the target of one Orison per phase unless specifically stated otherwise. The effects last until the end of the phase.

Paired Weapons: The wielder gains +1 Attack Value when using Paired Weapons. Attacks made with Paired Weapons gain +1 Offensive Skill and ignore Parry. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Scout: At step 8 of the Pre-Game Sequence (after Spell Selection) an army that includes units with Scout must state which of its units with Scout will use it, starting with the player that picked the Deployment Zone. Deploy your army as usual, but without deploying any of the Scouting units. These units are placed after all other non-Scouting units have been deployed. They can either be deployed in your Deployment Zone, using the normal rules, or they can be deployed outside the Deployment Zone, but must be more than 18" away from any enemy units. This is decreased to 12" if the Scouting unit is deployed entirely within a Forest, Ruins, Field, Building, or Water Terrain Feature. Scouting units that are deployed outside their player's Deployment Zone may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have Scouting units, alternate deploying one unit at a time, starting with the player that finished deploying first.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

Unstable:

Vanguard: After Deployment (including units with Scout), models with Vanguard may perform a 12" move. The move is performed as an Advance Move in the Movement Phase, including any actions and restrictions the unit would normally have (such as Wheeling, Reforming, joining units, leaving units and so on). The 12" distance is used instead of the unit's Advance Rate and March Rate. This move cannot be used to move within 12" of enemy units. This is decreased to 6" for enemy units which have either Scouted or Vanguarded. Units that have moved in this way may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have units with Vanguard, alternate moving units one at a time, starting with the player that finished deploying last. Instead of moving a unit, a player may declare to not move any more Vanguarding units.

Water Spirits: Universal Rule.

The model gains Strider (Water Terrain) and Scout with the following restriction: At least half the models of the model's unit must be deployed fully inside Water Terrain or the owner's Deployment Zone.

In addition, Melee Attacks that are Flaming Attacks from enemy units Engaged with the model lose Flaming Attacks.

Units with more than half of their models with Water Spirits are Stubborn if more than half of their models are inside a Water Terrain with the centre of their bases. In addition, Water Terrain is Covering Terrain for models with Water Spirits inside them and contributes to Soft Cover.

Wizard Apprentice: - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection

Wizard Conclave: The Champion of a unit with Wizard Conclave gains +1 Health Point in addition to the normal Characteristics increases associated with being a Champion, and is a Wizard Adept.

This Champion may select up to two spells from predetermined spells given in brackets after Wizard Conclave.

This overrides the Spell Selection rules connected to being a Wizard Adept.
