<b>Options</b>	Walking Earthquake
----------------	--------------------

## Magics

### Racial Trait Spell

This spell can only be cast by models with Infernal Brand.

	Casting	Range	Type	Duration
<b>Curse of Nezibkesh</b>				
<i>Mf</i>	{6+} {7+}	{36"} {18"}	Hex	Permanent
<i>The target suffers -1 Offensive Skill and Defensive Skill {and an additional -1 for every Incendiary marker on the target (if the number of markers changes, so will the modifier)}, up to a maximum of -3.</i>				

		Casting	Range	Type	Duration	Effect
<b>5</b>	Corruption of Tin	8+	36"	Hex	Permanent	The target suffers -1 Armour.
<b>2</b>	Word of Iron	5+ [9+]	24"	Augment	Last one Turn	The target gains +1[+2] to its Armour.
<b>3</b>	Glory of Gold	8+	18"	Augment	Last one Turn	The target gains +1 Armour Penetration, Flaming Attacks and Magical Attacks.
<b>4</b>	Silver Spike	(6+){9+}	(18"){36"}	Hex, Missile, Damage	Instant	The target suffers 1 hit with Strength 4 [6], Armour Penetration 10, Magical Attacks, [Multiple Wounds (D3)], and Area Attack (1x5).
<b>6</b>	Molter Copper	7+	24"	Hex, Missile, Damage	Instant	The target suffers D3+3 hits with Strength X, Armour Penetration 4, Flaming Attacks, and Magical Attacks, where X is equal to the target's Armour.
<b>A</b>	Alchemical Fire		18"	Hex	Last one Turn	The target gains Flammable against Melee Attacks.
<b>1</b>	Quicksilver Lash	7+	24"	Hex, Missile, Damage	Instant	The target suffers D3+1 hits with Flaming Attacks, Magical Attacks, and Armour Penetration 10. These hits always wound on a roll equal to or greater than "7 minus the target's Armour". An unmodified '6' always wounds and an unmodified '1' always fails to wound.

## Magic items

**Basalt Infusion:** The wearer gains +1 Armour and Aegis (3+, against Flaming Attacks). The wearer automatically fails all Fortitude Saves.

**Ghostly Guard:** The wearer gains +2 Armour against non-Magical Attacks.

## Magic banners

**Flaming Standard:** One use only. May be activated at the start of a Round of Combat or before shooting with the bearer's unit. The bearer's unit gains Flaming Attacks. If activated when Engaged in Combat, the effect lasts until the bearer's unit is no longer Engaged in Combat. If activated before shooting with the bearer's unit, the effect lasts until the end of the phase.

## Model Rules

**Accurate:**

**Aegis:**

**Bodyguard:** When a Character is joined to a unit in which at least one model has Bodyguard, that Character gains Stubborn. When Characters or Character types are stated in brackets, Bodyguard only works for the specified Characters or Character types.

**Bound or Broken:** The model cannot take any Special Items from this Army Book and cannot cast Curse of Nezibkesh (Hereditary Spell). In addition, if the model's unit is within 6" of a friendly non-Fleeing model with Infernal Brand, the model:

- Gains Battle Focus.
- Must reroll failed Charge Range rolls in the Charge Phase.

**Bow:**

**Cannot be Stomped:**

**Fear:** Units in base contact with one or more enemy models with Fear suffer -1 Discipline. At the start of each Round of Combat, such units must take a Discipline Test, called a Fear Test. If this test is failed, the models in the unit are Shaken until the end of the Round of Combat. Models that have Fear themselves are immune to the effects of Fear.

**Fearless:** If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

**Feigned Flight:** A unit consisting solely of models with Feigned Flight that voluntarily chooses to Flee as a Charge Reaction, and subsequently passes a Rally Test in its next Player Turn, doesn't become Shaken. Furthermore, the Reform that is made after Rallying in this case doesn't prevent the unit from moving nor from shooting (but it still counts as having moved for shooting purposes). This rule cannot be applied if a unit fails to rally on the next friendly Player Turn or involuntarily Flees, such as a result of a failed Panic Test or if it was already Fleeing when being charged.

**Fires of Industry:** The sum of the Fires of Industry values stated in brackets of all models in the army is restricted to 1 per 750 Army Points, rounding fractions up.

**Full Steam Ahead!:** Universal Rule.

The model may only perform a single Pivot or Wheel during a March Move. If the model is Charging, it must Pursue or Overrun if possible. If the model is not Charging, it always passes Restrain Pursuit Tests and its Pursuit Distance is always 0".

**Furnace Breach:** Universal Rule.

Instead of rolling on the Misfire Table as normal, apply the following Misfire Effects:

- 2 or less: The model may not shoot its Artillery Weapon until the end of the game. In addition, the model's Grind Attacks become Flaming Attacks and Magical Attacks.
- 3+: The model loses 1 Health Point with no saves of any kind allowed.

**Grind Attacks:** A model part with Grind Attacks resolves these attacks at its own Agility. It must choose an enemy unit in base contact with it. The chosen enemy unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the model part's own Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits

, it may only use one of these rules in the same Round of Combat

(its controlling player may choose which). When several model parts in the same unit have Grind Attacks and when

X is a random number (e.g. Grind Attacks (2D3)), roll for the number of hits separately for each model part.

**Hand Weapon:** All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

**Harnessed:** Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is considered to be mounted.

**Higher Calibre:** Universal Rule.

The maximum range of the model's Artillery Weapon is doubled. Enemy units hit by the weapon suffer -1" Advance Rate to a minimum of 3" and -2" March Rate to a minimum of 6" until the start of the next friendly Player Turn.

**Impact Hits:** At Initiative Step 10, a charging model part with Impact Hits must choose an enemy unit that is in base contact with the attacking model's Front Facing. This unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the attacking model part's Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). In multipart models, only model parts that also have Harnessed or Inanimate can use their Impact Hits. When several models in the same unit have Impact Hits, and when X is a random number (e.g. Impact Hits (D6)), roll for the number of hits separately for each model part.

**Infernal Armour:** Armour Equipment

Follows the rules for Plate Armour (can be enchanted as if it was Plate Armour). The wearer gains Aegis (5+, against Flaming Attacks).

**Infernal Brand:** The model gains Commanding Presence with the following restrictions: it has a range of 6" and can only benefit Insignificant models. In addition, Standard Height units with more than half of their models with Infernal Brand double their number of Full Ranks for the purpose of Steadfast in the First Round of Combat unless Charging.

**Insignificant:**

**Lance:** Attacks made with a Lance and allocated toward models in the wielders' Front Facing gain Devastating Charge (+2 Strength, +2 Armour Penetration). Infantry cannot use Lances.

**Light Armour:** Armor +1

**Light Troops:** Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

**Mechanised Support:** The model must be deployed in, and can only join, a unit that includes at least one R&F model with Infernal Brand. The model can never voluntarily leave its unit.

**Move or Fire:** The attack may not be used if the attacking model has made an Advance Move, March Move, Reform or Pivot during the current Player Turn.

**Not a Leader:** The model cannot be the General.

**Oil Flasks:** Close Combat, Shooting

If one or more simultaneous attacks with Oil Flasks hit, after resolving these attacks, the target unit gains one Incendiary marker.

**Prophet of Lugar:** Universal Rule.

The model gains Aegis (4+) and loses Infernal Armour. The model part gains Volcanic Embrace (1). If on foot, the model gains Feigned Flight, +1" Advance Rate, and +3" March Rate. The model gains access to the options below

**Scoring:** Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

**Searing Heat:** Attack Attribute.

The model's Grind Attacks from Volcanic Embrace gain +1 to wound. In addition, enemy units suffer -1 Armour while in base contact with the model.

**Secrets of Nezibkesh:** When the model successfully casts Curse of Nezibkesh (Hereditary Spell), the target immediately gains 1 Incendiary marker.

**Shield:** +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

**Supernal:**

**Tall:**

**Unbreakable:** The model gains Fearless and its unit automatically passes all Break Tests. Characters with Unbreakable can only join units consisting entirely of models with Unbreakable. Units with one or more models with Unbreakable can only be joined by Characters with Unbreakable.

**Vanguard:** After Deployment (including units with Scout), models with Vanguard may perform a 12" move. The move is performed as an Advance Move in the Movement Phase, including any actions and restrictions the unit would normally have (such as Wheeling, Reforming, joining units, leaving units and so on). The 12" distance is used instead of the unit's Advance Rate and March Rate. This move cannot be used to move within 12" of enemy units. This is decreased to 6" for enemy units which have either Scouted or Vanguarded. Units that have moved in this way may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have units with Vanguard, alternate moving units one at a time, starting with the player that finished deploying last. Instead of moving a unit, a player may declare to not move any more Vanguarding units.

**Volcanic Embrace:** The model part gains Magical Attacks. All Melee Attacks (including Special Attacks) made by model parts with Volcanic Embrace become Flaming Attacks. In addition, at Initiative Step 0, all enemy models in base contact with one or more model parts with Volcanic Embrace suffer a hit with Strength 4, Armour Penetration 0, and Flaming Attacks.

Models with Volcanic Embrace automatically fail all Fortitude Saves.

**War Machine:** The model cannot Pursue, Declare Charges or Declare Flee as Charge Reaction. Characters can never join units with War Machines, and Characters with War Machine cannot join units at all.

When a War Machine fails a Panic Test, instead of Fleeing it is Shaken until the end of the next Player Turn. War Machines that fail a Break Test are automatically destroyed. War Machines and units Engaged in Combat with them cannot make Combat Reforms.

When a unit charges a War Machine, it can move into base contact by having its Front Facing contact any point of the War Machine's base (it must still maximise the number of models in base contact, see subsection II.1.A "Bases and Base Contact", page 4 and Figure 1 page 4). No Align Move is allowed. Ignore the War Machine's Facing, as it does not have any due to its round base.

**War Platform:** Unless selected as a mount for a Character, a model with War Platform gains Not a Leader and Character, with the following exceptions:

- It does not count towards the Characters category (for Army List creation). - It cannot Issue Duels, Accept Duels or Make Way.

- It can perform Swirling Melee.

- It does not count as a Character regarding Bodyguard and Multiple Wounds.

The model can join units even if it has Towering Presence, and having Chariot does not prevent it from joining units without Chariot. When joined to a unit, it must always be placed in the centre of the front rank, possibly pushing back other models with Front Rank, and must keep its position in the centre of the front rank at all times (as long as it is joined to the unit). If two positions are equally central (e.g. in a unit with an even number of models in the first rank and a War Platform replacing an uneven number of models per rank), the War Platform can be placed in either of these positions. If the War Platform cannot be placed in the centre of the front rank (e.g. due to Mismatching Bases or the front rank being too narrow), the model cannot join the unit. This means that a War Platform can never join a unit with Mismatching Bases and that only a single War Platform can be in the same unit unless noted otherwise.

**Wizard Apprentice:** - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection

## Qr codes of your army

You can print this page to have all your army's units qrcode and cut them to stick them on your units, with them you can directly access to the unit's profile with your phone.
