Magic items

Crown of the Cavern King: Cannot be taken by models with Towering Presence.

All models in the bearer's unit that have at least one model part of the Greenhide Races Common Goblin, Cave Goblin, or Forest Goblin gain Vanguard and Feigned Flight.

If the bearer is Common Goblin, Cave Goblin, or Forest Goblin, its Commanding Presence and Rally Around the Flag range (if available) is increased by 6".

Binding Scroll: One use only. May be activated after Siphon the Veil (at the end of step 3 of the Magic Phase Sequence).

When activated, pick an enemy model and select one of its Attribute, Bound, or Learned Spells. The selected model cannot cast the chosen instance of the spell during this Magic Phase. Only a single Binding Scroll may be activated during the same phase.

Model Rules

Common Goblin: The model gains Insignificant.

Fear: Units in base contact with one or more enemy models with Fear suffer -1 Discipline. At the start of each Round of Combat, such units must take a Discipline Test, called a Fear Test. If this test is failed, the models in the unit are Shaken until the end of the Round of Combat. Models that have Fear themselves are immune to the effects of Fear.

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee

Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

Fortitude: Fortitude is a Special Save. Fortitude Saves cannot be taken against attacks with Lethal Strike that rolled a natural 6+ to wound, or against attacks with Flaming Attacks

Giant See, Giant Do: Universal Rule.
The model gains Born to Fight.

Git Launcher: Catapult Artillery Weapon.
Range 12-60", Shots 1, Str 5, AP 4.

This weapon follows the rules for Catapult Artillery Weapons with the following exceptions: if the weapon hits (including with a Partial Hit), instead of causing a hit with Area Attack, the unit suffers D3+1 hits with the weapon's profile. In case of a Partial Hit, neither the number of hits nor their Strength and Armour Penetration are reduced.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Hard Target:

Insignificant:

Light Armour: Armor +1

Look At 'Em Go!: Universal Rule.

After contacting a unit for the first time, a Gnasher Wrecking Team gains Running Amok!! for the remainder of the game.

Move or Fire: The attack may not be used if the attacking model has made an Advance Move, March Move, Reform or Pivot during the current Player Turn.

Rage: Attack Attribute - Close Combat.

Whenever the model loses a Health Point, it gains +1 Attack Value. Whenever it gains a Health Point, it suffers -1 Attack Value.

Random Movement: The unit cannot Declare Charges and cannot move normally (Advance, March, Reform) in the Movement Phase (which also means they cannot perform Magical Moves). The model loses Swiftstride (and can never gain it), but always charges, Flees, Pursues and Overruns the distance stated in brackets.

In the Movement Phase, at the end of step 2 of the the it with Random Movement moves using the rules for Pursuing units, except that they can freely choose which direction to rotate towards before rolling the Pursuit Distance, cannot move off the Board Edge and only take Dangerous Terrain Tests if they actually charge an enemy unit (they still test as normal when Fleeing, Pursuing a Broken enemy or Overrunning).

Whenever a unit with Random Movement needs a March Rate (e.g. when Post-Combat Reforming), use the potential maximum value of X as its March Rate.

Characters with Random Movement can only join units with Random Movement (by moving into contact with them during the Movement Phase or by being deployed inside), and units with Random Movement can only be joined by Characters with Random Movement. Units with Random Movement cannot enter Buildings. If a unit has several sets of Random Movement, use the one with the lowest average (in case of a tie, you may choose which version to use). A model with Random Movement cannot move in the same phase as it arrives on the Battlefield as Reinforcement (Dawn Assault) or Ambusher.

Ricochet: Models with Ricochet cannot Charge enemy units and can move through all units (friend and foe) as if they were Open Terrain. If its move is ended in contact with another unit, or within 1" of a unit that it has moved through, its move distance is extended; keep moving the model in the same direction (still moving through other units) until it can be placed 1" away from all other units. If, after an extended move, the model would end up within 1" of Impassable Terrain or in contact with the Board Edge, immediately remove the model as a casualty. If there is no legal position where it follows the Unit Spacing rule when backtracking the model's move (based on the rules for Random Movement), immediately remove the model as a casualty.

If a unit's Unit Boundary is contacted by a Ricochet model's initial move (i.e. excluding an extension of the move distance needed to clear units), this unit suffers X hits, where X corresponds to the value given in brackets (after completing the move). For this purpose, all units Engaged in the same Combat are treated as a single unit. The owner of the model with Ricochet distributes the hits between all units Engaged in this Combat as evenly as possible (after this follow the normal rules for distributing hits to models within each unit).

Enemy units cannot Charge models with Ricochet. Units (friend and foe) ignore models with Ricochet regarding the Unit Spacing rule for all movement (including Ambush). In addition, they can move onto and through models with Ricochet. However, if a unit moves into contact with a Ricochet model, it immediately (before completing the move) suffers X+D6 hits, and the model with Ricochet is removed as a casualty. This is not triggered by moves that can move through units normally (e.g. Flying Movement), unless the move is ended in contact (note that units can move into contact with multiple Ricochet models simultaneously).

Hits are resolved with the Strength and Armour Penetration of the model with Ricochet.

a) The Ricochet model cannot be placed 1" behind unit B, because unit A is too close. The model is thus moved through both units following its original direction. Only unit B suffers the Ricochet hits as unit A is not within the initial Shambolic move.

b) After moving through units, the Ricochet model comes into contact with Impassable Terrain and is thus removed as a casualty. The Ricochet model moves through at least one unit Engaged in the Combat, inflicting 5 hits in total, which are distributed evenly amongst all units in the combat.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Shambolic: Units with Shambolic models cannot be joined by Characters. When rolling the distance of a Random Movement move with a Shambolic unit, if all the dice show the same result, the unit loses D3 Health Points (with no saves of any kind allowed), and then moves in a random direction instead of the chosen direction. When units with Shambolic touch the Board Edge, stop 1" away from Impassable Terrain, or come into contact with or move inside any Terrain Feature other than Open Terrain or Hills, all models in the unit must take a Dangerous Terrain (2) Test.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

Stupid: Universal Rule.

At the start of each friendly Player Turn, each unengaged non-fleeing unit with one or more models with Stupid must take a Discipline Test. If the test is failed, all models in the unit become Shaken until the end of the Player Turn, and in the Movement Phase, immediately after Rallying Fleeing units, the unit must move D6" directly forward, stopping 1" before Impassable Terrain or other units.

Troll Belch: Special Attack.

At the model part's Initiative Step, the owner may choose an enemy unit Engaged in Combat that the model part is able to attack with Close Combat Attacks.

If so, this unit suffers a hit, which is resolved with Strength 5 and Armour Penetration 10, and the model part may not perform any Close Combat Attacks.

War Machine: The model cannot Pursue, Declare Charges or Declare Flee as Charge Reaction. Characters can never join units with War Machines, and Characters with War Machine cannot join units at all.

When a War Machine fails a Panic Test, instead of Fleeing it is Shaken until the end of the next Player Turn. War Machines that fail a Break Test are automatically destroyed. War Machines and units Engaged in Combat with them cannot make Combat Reforms.

When a unit charges a War Machine, it can move into base contact by having its Front Facing contact any point of the War Machine's base (it must still maximise the number of models in base contact, see subsection II.1.A "Bases and Base Contact", page 4 and Figure 1 page 4). No Align Move is allowed. Ignore the War Machine's Facing, as it does not have any due to its round base.

Wizard Apprentice: - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection

Qr codes of your army

You can print this page to have all your army's units qrcode and cut them to stick them on your units, with them you can directly access to the unit's profil with your phone.
