Magic items

Cleansing Light: At the start of each Round of Combat, the wielder may choose to have attacks made with this weapon become Divine Attacks and Flaming Attacks and Magical Attacks.

Supernatural Dexterity: The wielder gains +2 Offensive Skill and +2 Agility while using this weapon, and attacks made with it become Magical Attacks.

Model Rules

Accurate:

Blunderbuss: Shooting Weapon

0–60 R&F Models with Blunderbuss or Flintlock Axe or Pistol per Army.

Range 12", Shots 1, Str 5, AP 3, Accurate, March and Shoot, Quick to Fire. Does not suffer the negative to-hit modifier from a Stand and Shoot Charge Reaction.

Chained Together:

Flintlock Axe: Shooting Weapon

0–60 R&F Models with Blunderbuss or Flintlock Axe or Pistol per Army.

Range 18", Shots 1, Str 4, AP 2. Counts as a Close Combat Weapon with Two-Handed in close combat. Close Combat Attacks made with it gain +1 Strength. Can be enchanted like a Close Combat Weapon, but only Close Combat Attacks are affected by the Weapon Enchantment unless specifically stated otherwise. The model may shoot from the third rank (in addition to the first and second).

Great Weapon: Attacks made with a Great Weapon gain +2 Strength, +2 Armour Penetration and always strike at Initiative Step 0 (regardless of the wielder's Agility). A model using this weapon cannot simultaneously use a Shield against Melee Attacks

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Hatred: During the first Round of Combat, failed to-hit rolls from attacks with Hatred must be rerolled.

Higher Calibre: The minimum range and the maximum range of the model's Artillery Weapon are doubled. Enemy units hit by the weapon suffer -1 Advance Rate to a minimum of 3 and -2 March Rate to a minimum of 6; until the start of the next friendly Player Turn.

Infernal Armour: Armour Equipment

Plate Armour. The wearer gains Aegis (5+, against Flaming Attacks).

Infernal Brand: The model gains **Commanding Presence** with the following restrictions: it has a range of 6 and can only benefit Insignificant models. In addition, when losing a Round of Combat, Standard Height units with more than half of their models with Infernal Brand double their number of Full Ranks for the purpose of Steadfast in the First Round of Combat unless Charging.

Infernal Weapon: Close Combat Weapon

Attacks made with this weapon gain +1 Strength and +1 Armour Penetration.

Insignificant:

Keys to the Citadel: The model **must** buy Weapon Enchantments for two of its mundane weapons. The Point Cost of one of the Weapon Enchantments, the cheapest if applicable, is halved, rounding fractions up.

Move or Fire: The attack may not be used if the attacking model has made an Advance Move, March Move, Reform or Pivot during the current Player Turn.

Paired Weapons: The wielder gains +1 Attack Value when using Paired Weapons. Attacks made with Paired Weapons gain +1 Offensive Skill and ignore Parry. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

Spear:

Unstable:

War Machine: The model cannot Pursue, Declare Charges or Declare Flee as Charge Reaction. Characters can never join units with War Machines, and

Characters with War Machine cannot join units at all.

When a War Machine fails a Panic Test, instead of Fleeing it is Shaken until the end of the next Player Turn. War Machines that fail a Break Test are automatically destroyed. War Machines and units Engaged in Combat with them cannot make Combat Reforms.

When a unit charges a War Machine, it can move into base contact by having its Front Facing contact any point of the War Machine's base (it must still maximise the number of models in base contact, see subsection II.1.A "Bases and Base Contact", page 4 and Figure 1 page 4). No Align Move is allowed. Ignore the War Machine's Facing, as it does not have any due to its round base.

Weapon Master:

Qr codes of your army

You can print this page to have all your army's units qrcode and cut them to stick them on your units, with them you can directly access to the unit's profil with your phone.
