Racial Trait Spell

Casting	Range	Type	Duration
Favour of Meladys			
Mf	10+	Caster	Last one Turn
<p><i>Immediately after successfully casting the spell, add one Veil Token to your Veil Token pool. When a friendly unit within 18" of the Caster suffers a wound before Special Saves, you may discard a Veil Token from your Veil Token pool instead and the wound is ignored. An attack with Multiple Wounds will inflict one wound less than usual instead. For Standard Infantry, up to 2 wounds are ignored per token provided they are suffered simultaneously. A maximum of two Veil Tokens may be discarded each phase for this purpose. Characters and Gigantic models can only ignore a single wound this way per phase.</i></p>			

Model Rules

Aegis:

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

Fly: The model gains Light Troops and Swiftstride. Units composed entirely of models with Fly may make Flying Movements when performing a Move Chargers move, an Advance Move, or a March Move. When a unit makes a Flying Movement, substitute its models' Advance Rate with the first value given in brackets (X), and their March Rate with the second value given in brackets (Y). All modifiers to ground movement values are also applied to the flying values of a model. Units using Flying Movement ignore all Terrain Features and units during the Flying Movement (from their starting to their ending position), but must abide by the Unit Spacing rule at the end of the move (unless charging, when the normal exceptions to the Unit Spacing rule apply). They are still affected by the effects of the Terrain Features from which they take off and in which they land.

Frost: The model gains Aegis (5+), Fearless, and Supernal. Enemy units in base contact with one or more Frost Phoenixes suffer -2 Agility, -2 Offensive Skill, and -2 Defensive Skill.

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position. If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Rebirth: Universal Rule.

The first time a Phoenix loses its last Health Point, the owner must roll a D6. The roll is successful on a roll of 5+ (or 3+ if the model has Warden's Bond):

- Remove the model as a casualty as usual, but place a marker on the centre of the model's final position.
 - In the next Player Turn, at the start of step 3 of the Movement Phase Sequence (after Rallying Fleeing units), the Phoenix model is placed back on the Battlefield. The centre of the model must be placed within 3" of the marker and the model must be placed more than 1" away from other units and Impassable Terrain, facing any direction.
 - If the model cannot be placed following these rules, it cannot return for the rest of the game.
 - The returned model is the same model that left the game, including any and all ongoing effects (such as spells affecting the model), with the exception that it always returns with only 1 Health Point left and counts as Rallied in case it was Fleeing when it lost its last Health Point (and thus is Shaken until the end of the Player Turn).
 - The model does not grant Victory Point for being Destroyed if it still has Health Points left at the end of the game.
- If the roll fails, follow the normal rules (i.e the model is removed as a casualty)

Supernal:

Qr codes of your army

You can print this page to have all your army's units qrcode and cut them to stick them on your units, with them you can directly access to the unit's profil with your phone.

Frost Phoenix #1
