<i>Place a Forest Terrain Feature underneath the target (this can be substituted by placing a marker next to the unit). This Forest always extends to the edges of the target's Unit Boundary (even if the unit moves or changes formation). [Enemy units in base contact with the target must reroll natural to-hit rolls of '6'.]</i>				

Model Rules

Forest Walker: The model gains Strider (Forest). If a unit comprised entirely of models with Forest Walker starts a Round of Combat with more than half of its models with the centre of their bases inside a Forest, then all model parts without Harnessed must reroll to-wound rolls of '1' with their Close Combat Attacks for the duration of that Round of Combat.

Lightning Reflexes:

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Sylvan Longbow: Shooting Weapon

0-55 Models with Sylvan Longbow per Army.

Follows the rules for Longbows. In addition, attacks made with a Sylvan Longbow gain Armour Penetration 1 and Quick to Fire. Also, when shooting from Short Range, their Strength is set to 4.
