Model Rules

Aegis:

Ambush:

Bodyguard: When a Character is joined to a unit in which at least one model has Bodyguard, that Character gains Stubborn. When Characters or Character types are stated in brackets, Bodyguard only works for the specified Characters or Character types.

Cannot be Stomped:

Crossbow: Range 30" Shots 1 Strength 4 Armour Penetration 1 Unwieldy

Distracting: Close Combat Attacks allocated towards a model with Distracting suffer a -1 to-hit modifier. This to-hit modifier cannot be combined with any other

negative to-hit modifiers.

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

Fly: The model gains Light Troops and Swiftstride. Units composed entirely of models with Fly may make Flying Movements when performing a Move Chargers move, an Advance Move, or a March Move. When a unit makes a Flying Movement, substitute its models' Advance Rate with the first value given in brackets (X), and their March Rate with the second value given in brackets (Y). All modifiers to ground movement values are also applied to the flying values of a model. Units using Flying Movement ignore all Terrain Features and units during the Flying Movement (from their starting to their ending position), but must abide by the Unit Spacing rule at the end of the move (unless charging, when the normal exceptions to the Unit Spacing rule apply). They are still affected by the effects of the Terrain Features from which they take off and in which they land.

Forge Repeater: Shooting Weapon.
Range 18", Shots 4, Str 5, AP 2, Flaming Attacks, Quick to Fire.

Great Weapon: Attacks made with a Great Weapon gain +2 Strength, +2 Armour Penetration and always strike at Initiative Step 0 (regardless of the wielder's Agility). A model using this weapon cannot simultaneously use a Shield against Melee Attacks

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Hard Target:

Heavy Armour: +2 Armor

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Paired Weapons: The wielder gains +1 Attack Value when using Paired Weapons. Attacks made with Paired Weapons gain +1 Offensive Skill and ignore Parry. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.

Plate Armour: +3 Armor

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Scout: At step 8 of the Pre-Game Sequence (after Spell Selection) an army that includes units with Scout must state which of its units with Scout will use it, starting with the player that picked the Deployment Zone. Deploy your army as usual, but without deploying any of the Scouting units. These units are placed after all other non-Scouting units have been deployed. They can either be deployed in your Deployment Zone, using the normal rules, or they can be deployed outside the Deployment Zone, but must be more than 18" away from any enemy units. This is decreased to 12" if the Scouting unit is deployed entirely within a Forest, Ruins, Field, Building, or Water Terrain Feature. Scouting units that are deployed outside their player's Deployment Zone may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have Scouting units, alternate deploying one unit at a time, starting with the player that finished deploying first.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

Shield Wall: When using a Shield, the model gains Aegis (6+, against Close Combat Attacks). This is improved to Aegis (5+, against Close Combat Attacks) if the attacker is Charging. This Special Save can only be used against attacks from enemies Engaged in the model's unit's Front Facing.

Shrapnel Grenades: Special Attack.

Sweeping Attack which can be used once per game.

The enemy unit suffers D3 hits for each Steam Copter in the unit. Hits are resolved with Strength 3 and Armour Penetration 0.

Strider: The model automatically passes Dangerous Terrain Tests taken due to Terrain.

If more than half of a unit's models have Strider, the unit never loses their Steadfast or Rank Bonus due to Terrain.

Sometimes Strider is linked to a specific type of Terrain, stated in brackets.

In this case, models with Strider are considered Striders only when interacting with such type of Terrain.

Sturdy: Melee.

The model gains Devastating Charge (+1 Str, +1 AP) and it does not suffer from negative to-hit modifiers from a Stand and Shoot Charge Reaction.

Swiftstride: When a unit composed entirely of models with Swiftstride rolls Charge Range, Flee Distance, Pursuit Distance or Overrun Distance, it rolls an additional D6 (normally this will lead to rolling 3D6) and discards the lowest D6 rolled.

Tall:

The bigger they are...: When Charging a unit that contains at least one Large or Gigantic model, the model gains Swiftstride for the Charge Range roll.

Unbreakable: The model gains Fearless and its unit automatically passes all Break Tests. Characters with Unbreakable can only join units consisting entirely of models with Unbreakable. Units with one or more models with Unbreakable can only be joined by Characters with Unbreakable.

Weapon Master:

Whirling Chains of Doom: Close Combat Weapon.

Attacks made with this weapon gain +1 Strength, +1 Armour Penetration, and always strike at Initiative Step 10 (regardless of the wielder's Agility).
A model with this weapon cannot be joined by Characters.

Yer comin' with me!: Close Combat.

In order to use this Attack Attribute, the unit must be at least as wide as it is deep at the start of the Round of Combat.

Close Combat Attacks made by models with this Attack Attribute can never wound on worse than 4+. In addition, when a model with this Attack Attribute is removed as a casualty during the Melee Phase due to an enemy Melee Attack, it must immediately, before removal, perform a single Close Combat Attack with the following rules and restrictions:

- The attack is always resolved with Strength 5 and Armour Penetration 2.

- The owner must choose one of the following options:

(1) The attack is allocated towards the model that caused the casualty.

(2) The attack is allocated towards a R&F model in that model's unit. The hit is distributed onto the unit.

In either case, the model with Yer comin' with me! is considered in base contact with the attacked model, and the models count as Engaged in the same Facing as their units.

- This Attack Attribute cannot be used against casualties caused by Impact Hits.
