Magic items
Willow's Ward: While using this Shield, the bearer cannot use Parry, gains +1 Armour, and Impact Hits distributed onto the bearer suffer -2 Armour Penetration.

Model Rules
Bastard Sword: Close Combat Weapon Hand Weapon. Attacks made with a Bastard Sword gain +1 Strength and, in the First Round of Combat, +1 Armour Penetration.
Beloved: Universal Rule. While the model is joined to a unit with at least one Full Rank, it gains Stand Behind.
Courage: The model gains Aegis (+1, max. 4+) with the following restriction: The effect can only be used against wounds against which the model cannot take or would automatically fail its any Armour Saves. Units with more than half of their models with Courage ignore friendly units consisting entirely of models with Ordeal for the purpose of Panic Tests.

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

Fey Spirit: The model gains Fearless and Magical Attacks. Models with Fey Spirit can only join or be joined by Damsels or models with Fey Spirit.

Grind Attacks: A model part with Grind Attacks resolves these attacks at its own Agility. It must choose an enemy unit in base contact with it. The chosen enemy unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the model part's own Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits

, it may only use one of these rules in the same Round of Combat

(its controlling player may choose which). When several model parts in the same unit have Grind Attacks and when

X is a random number (e.g. Grind Attacks (2D3)), roll for the number of hits separately for each model part.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is considered to be mounted.

Heavy Armour: +2 Armour

Honesty: The model gains Aegis (+1, against Magical Attacks, max. 4+)

Lance: Attacks made with a Lance and allocated toward models in the wielders' Front Facing gain Devastating Charge (+2 Strength, +2 Armour Penetration). Infantry cannot use Lances.

Lance Formation: Close Combat

The model gains Fight in Extra Rank, and its maximum number of Supporting Attacks is increased by 1. If more than half of a unit's models have Lance Formation and the unit is 3 or 4 models wide, it counts as being in Line Formation and only needs to be 3 models wide in order to form Full Ranks.

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Orison: At the start of step 7 of the Pre-Game Sequence (Spell Selection), each model with Orison (X) adds X Orison Tokens to its owner's Orison Token pool. Any player's Orison Token pool can never contain more than 6 Orison Tokens. At the start of any phase or Round of Combat, one or more Orison Tokens can be removed from the Orison Token pool. For each removed token, choose one friendly non-Fleeing unit within 8" of any friendly non-Fleeing model with Orison (X).

The chosen unit gains one of the following effects:

- Holy Strike: Model parts without Harnessed gain +1 to hit with their Close Combat Attacks.

- Holy Shield: Aegis (+1, max. 4+).

- Holy Wrath: Fear; any model that already has Fear gains Terror instead.

Several instances of an effect on the same model are not cumulative, and a single unit can only be the target of one Orison per phase unless specifically stated otherwise. The effects last until the end of the phase.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.

- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.

- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

The Quest: Universal Rule.

Immediately after deploying the first friendly unit of Knights of the Quest during the Deployment Phase, the owner must choose 1 unit entry from the opponent's Army Book (this may also be a Character, but not a Character Mount). Models of all units from this unit entry in the enemy army (even if there is more than one such unit) are considered "marked".

For attacks allocated either towards marked models, or towards models joined to units with more than half of their models marked, Questing Knights gain Lethal Strike and must reroll failed to-wound rolls.

Water Spirits: Universal Rule.

The model gains Strider (Water Terrain) and Scout with the following restriction: At least half the models of the model's unit must be deployed fully inside Water Terrain or the owner's Deployment Zone.

In addition, Melee Attacks that are Flaming Attacks from enemy units Engaged with the model lose Flaming Attacks.

Units with more than half of their models with Water Spirits are Stubborn if more than half of their models are inside a Water Terrain with the centre of their bases. In addition, Water Terrain is Covering Terrain for models with Water Spirits inside them and contributes to Soft Cover.

Wizard Apprentice: - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection

.

Wizard Conclave: The Champion of a unit with Wizard Conclave gains +1 Health Point in addition to the normal Characteristics increases associated with being a Champion, and is a Wizard Adept.

This Champion may select up to two spells from predetermined spells given in brackets after Wizard Conclave.

This overrides the Spell Selection rules connected to being a Wizard Adept.

Qr codes of your army

You can print this page to have all your army's units qrcode and cut them to stick them on your units, with them you can directly access to the unit's profil with your phone.
