Magics

Racial Trait Spell

This spell has a second Boosted version, which is shown using {{this colour-coding}}

	Casting	Range	Type	Duration
Arise!				
<i>Mf</i>	4+ [8+] {11+}	18" [6" Aura] {12" Aura}	Augment	Instant
<p><i>When resolving the spell, choose one of the following effects for each target:</i></p> <ul style="list-style-type: none"> The R&F part of the target Raises a number of Health Points equal to its Reanimated value. Up to one Character within the target Recovers a number of Health Points equal to its Reanimated value. <p><i>Models with Towering Presence cannot Recover more than 2 Health Points from this spell in a single Magic Phase.</i></p>				

Occultism

The Sacrifice: When casting a non-Bound Spell from this Path, immediately after the casting roll, but before any Dispelling Attempt, the Active Player may choose the Caster's unit or another friendly unengaged unit within 24".

A unit may only be chosen once per phase. The chosen unit suffers X hits that wound automatically with Armour Penetration 10 and Magical Attacks, and with no saves of any kind allowed, where X is determined by the Discipline value of the largest fraction of models in the unit, ignoring all Discipline modifiers. In case of a tie, use the lower value:

- 0 to 4: 3 hits
- 5 to 7: 2 hits
- 8 to 10: 1 hit

Any Health Point loss from The Sacrifice that would remove the last model of the chosen unit as a casualty is discarded.

These Health Point losses never cause Panic Tests.

If at least one Health Point loss was caused, the spell is cast with the {amplified} version. In that case, use any text marked with {}.

		Casting	Range	Type	Duration	Effect
2	Hand of Glory	6+ [8+]	Caster [12"]	[Augment], Focused	Last one Turn	[This spell may only target Characters, Champions, and single model units.] The target {and all models in its unit} gain Aegis (6+) and Aegis (+1, max 3+).
3	The Rot Within	6+	18"	Hex	Permanent	The target suffers -1 Offensive Skill and -1 Defensive Skill. {The Caster gains +1 Offensive Skill and +1 Defensive Skill.}
6	The Grave Calls	11+	12"	Hex, Damage, Direct	Instant	The target suffers 2D6 hits with Strength 5, Armour penetration 2, and Magical Attacks. {The hits gain +1 Strength and +1 Armour Penetration.}
1	Pentagram of Pain	5+[6+]	24"[12" Aura]	[Hex], [Direct], [Universal], [Damage]	Instant	The target suffers D6 hits with Strength 4, Armour Penetration 1, and Magical Attacks. [The Caster's unit is unaffected.] {If one or more unsaved wounds are caused with this spell, the Caster Recovers 1 Health Point.}
4	Breath of Corruption	6+ [9+]	Caster [12"]	[Augment], Focused	Last one Turn	The target gains Breath Attack (Magical Attacks, Toxic Attacks). [This spell may only target Characters, Champions, and single model units.] {If the Breath Attack is used as a Shooting Attack, its range is increased to 18".}
5	Marked for Doom	9+	24"	Hex, Damage, Direct	Instant	The target suffers 1 hit with Strength 10, Armour Penetration 10, Multiple Wounds (D3), and Magical Attacks. {If the target is within 12" of the Caster, the spell targets a single Character or Champion joined to the target unit.}

Magic items

Crystal Ball: The firsts Dispelling Attempt in each enemy Magic Phase gains a +2 Dispelling Modifier, provided the bearer is on the Battlefield.

Destiny's Call: The wearer gains Aegis (4+) and its Armour is set to 3 and can never be improved beyond this.

Talisman of Shielding: The bearer gains Aegis (5+).

Talisman of the Void: The bearer gains Channel (1).

True Thirst: Attacks made with this weapon gain +1 Strength, +1 Armour Penetration, and become Magical Attacks, and Vampiric (3+). For each unsaved wound caused by this weapon during a Melee Phase, Raise 1 Health Point of R&F models in the wielder's unit at the end of the Melee Phase. The number of Raised Health Points in each phase cannot exceed the fixed component of the Reanimated value of the R&F models in the unit, disregarding any D3 or D6 parts (e.g. you can Raise 4 Zombies in a single phase).

Model Rules

Ashes to Ashes: At the end of any phase in which the Master is removed as a casualty, every unit in the army with one or more models with Ashes to Ashes must pass a Discipline Test or lose a number of Health Points equal to the amount by which the test was failed, with no saves of any kind allowed. These Health Point losses are allotted following the rules for Unstable, except that they can never be allotted to models that do not have Ashes to Ashes. The number of Health Points lost is reduced by 1 if the unit is within range of Rally Around the Flag.

At the end of the Player Turn in which the Master was removed as a casualty, a new Master may be selected. In order to do so, nominate a friendly Wizard Character that either has Vampiric or has chosen Evocation. This Character becomes the new Master.

At the start of each friendly Player Turn after the army's Master has been removed as a casualty and no new Master has been selected, every unit with Ashes to Ashes must once again pass a Discipline Test or lose Health Points as described above.

Autonomous: Undead units consisting entirely of models with Autonomous may perform March Moves as normal, even when outside the range of friendly models' Commanding Presence. The unit must still pass a Discipline Test in order to do so if within 8" of non-Fleeing enemy units.

Awaken: The model can Raise Health Points above a unit's starting size for the units stated within brackets. However, units cannot be increased beyond twice their starting size or beyond the maximum unit size written in their unit entry. A unit's starting size is the size of the unit as written on the Army List or the size of the unit when it is Summoned.

Fear: Units in base contact with one or more enemy models with Fear suffer -1 Discipline. At the start of each Round of Combat, such units must take a Discipline Test, called a Fear Test. If this test is failed, the models in the unit are Shaken until the end of the Round of Combat. Models that have Fear themselves are immune to the effects of Fear.

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

First Raised: As long as the unit has a Champion, it can perform Swift Reforms as if it had a Musician.

Gates of the Netherworld: Whenever a model with Gates of the Netherworld successfully casts Arise!, after resolving the spell's effect, choose a friendly unit with a Reanimated value and within 12" of the Caster. This unit, or a single Character inside the unit, Raises 1 Health Point. No unit can be chosen more than twice per Magic Phase by Gates of the Netherworld.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Poison Attacks: If the attack successfully hits with a natural to-hit roll of '6', it automatically wounds with no to-wound roll needed. Shooting Attacks using the Hopeless Shot can only automatically wound if the first to-hit roll is a natural '6'. Note that the second to-hit roll must still be successful in order to hit the target. If the attack can be turned into more than one hit (e.g. a hit with Area Attack, Battle Focus, or Penetrating), only a single hit, chosen by the attacker, automatically wounds. All other hits must roll to wound as normal.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Undead: The model gains Unstable. Models with Undead cannot perform March Moves, unless their unit starts the March Move within the range of a friendly model's Commanding Presence. The only Charge Reaction a unit with one or more models with Undead can make is Hold.

When units consisting entirely of models with Undead lose Health Points due to Unstable, the number of lost Health Points can be reduced in some situations. Apply the modifiers in the following order:

1. If the unit is Stubborn, halve the number of lost Health Points (round fractions up).
2. If the unit is Steadfast, reduce all lost Health Points above 12 to 12.
3. If the unit receives Rally Around the Flag, reduce the number of lost Health Points with the unit's current Rank Bonus. Units with no Rank Bonus reduce the number of Health Points lost by 1 instead.
4. Apply all other modifiers (from Special Equipment, Model Rules, spells, etc.) afterwards.

Unholy Appetite: After a Round of Combat in which attacks with Unholy Appetite caused an enemy model to lose one or more Health Points, all attacks with Unholy Appetite from models in the same unit must reroll failed to-hit rolls until the end of the next Player Turn.

Vampiric: At the end of each Melee Phase, check and resolve the following effects for all models with Vampiric:

- Character – If at least one attack with Vampiric made by the Character caused an unsaved wound against enemy units, the Character can make a single Vampiric roll. If successful, the Character Recovers a single Health Point.
- R&F model – If at least one attack with Vampiric made by a R&F model in the unit caused an unsaved wound against enemy units, the unit can make a single Vampiric roll. If successful, the unit Raises a single Health Point.

A Vampiric roll is successful if the D6 scores X+, where X is the number stated within brackets. Use only the best value if a unit or Character has multiple parts with this Attack Attribute that each caused unsaved wounds. A roll of '1' on a Vampiric roll is always a failure and a '6' is always a success. Models with Towering Presence suffer a -2 modifier to their Vampiric rolls.

Qr codes of your army

Your can print this page to have all your army's units qrcode and cut them to stick them on your units, with them you can directly access to the unit's profil with your phone.
