<i>Immediately after successfully casting the spell, add one Veil Token to your Veil Token pool. When a friendly unit within 18" of the Caster suffers a wound before Special Saves, you may discard a Veil Token from your Veil Token pool instead and the wound is ignored. An attack with Multiple Wounds will inflict one wound less than usual instead. For Standard Infantry, up to 2 wounds are ignored per token provided they are suffered simultaneously. A maximum of two Veil Tokens may be discarded each phase for this purpose. Characters and Gigantic models can only ignore a single wound this way per phase.</i>

Magic items

Binding Scroll: One use only. May be activated after Siphon the Veil (at the end of step 3 of the Magic Phase Sequence).

When activated, pick an enemy model and select one of its Attribute, Bound, or Learned Spells. The selected model cannot cast the chosen instance of the spell during this Magic Phase. Only a single Binding Scroll may be activated during the same phase.

Gleaming Robe: The wearer gains Aegis (3+) and its Armour is set to 1, which cannot be improved. If the wearer Miscasts and rolls Magical Inferno or Witchfire, the number of hits is halved, rounding fractions up.

King Slayer: The wielder of this enchanted weapon gains +X Strength, +X Armour Penetration, +X Attack Value, and Magical Attacks while using it, where X is equal to the number of enemy Characters in base contact with the wielder's unit. This bonus is calculated at the Initiative Step when the attacks are made.

Magic banners

Aether Icon: The bearer gains Magic Resistance (1). If the unit contains a model with another instance of Magic Resistance, it increases that model's Magic Resistance value by 1 instead.

Model Rules

Accurate:**Aegis:**

Bodyguard: When a Character is joined to a unit in which at least one model has Bodyguard, that Character gains Stubborn. When Characters or Character types are stated in brackets, Bodyguard only works for the specified Characters or Character types.

Elven Bolt Thrower: Artillery Weapon.

This Shooting Weapon can be fired in two ways:

- Range 48", Shots 1, Str 3 [6], AP 10, Area Attack (5x1), [Multiple Wounds (D3)].
- Range 48", Shots 6, Str 4, AP 2.

Fae Miasma: Close Combat and Shooting.

This Attack Attribute can only be used with Longbows and Paired Weapons.

When a unit is hit by attacks with Fae Miasma, it must take a Resilience Test for each hit, using the Resilience that the largest proportion of models in the unit has (use the higher value in case of a tie). If one or more Resilience Tests are failed, all models in the unit are affected by Fae Miasma until the start of the Active Player's next Player Turn. A model that is affected by (one or more instances of) Fae Miasma suffers a -1 to-hit modifier (both for Shooting Attacks and Close Combat Attacks).

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

Fight in Extra Rank:

Flaming Attacks: The attack doesn't have any special effect. However, it interacts with other rules, such as Flammable and Regeneration.

Fly: The model gains Light Troops and Swiftstride. Units composed entirely of models with Fly may make Flying Movements when performing a Move Chargers move, an Advance Move, or a March Move. When a unit makes a Flying Movement, substitute its models' Advance Rate with the first value given in brackets (X), and their March Rate with the second value given in brackets (Y). All modifiers to ground movement values are also applied to the flying values of a model. Units using Flying Movement ignore all Terrain Features and units during the Flying Movement (from their starting to their ending position), but must abide by the Unit Spacing rule at the end of the move (unless charging, when the normal exceptions to the Unit Spacing rule apply). They are still affected by the effects of the Terrain Features from which they take off and in which they land.

Frost: The model gains Aegis (5+), Fearless, and Supernal. Enemy units in base contact with one or more Frost Phoenixes suffer -2 Agility, -2 Offensive Skill, and -2 Defensive Skill.

Great Weapon: Attacks made with a Great Weapon gain +2 Strength, +2 Armour Penetration and always strike at Initiative Step 0 (regardless of the wielder's Agility). A model using this weapon cannot simultaneously use a Shield against Melee Attacks

Grind Attacks: A model part with Grind Attacks resolves these attacks at its own Agility. It must choose an enemy unit in base contact with it. The chosen enemy unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the model part's own Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits

, it may only use one of these rules in the same Round of Combat

(its controlling player may choose which). When several model parts in the same unit have Grind Attacks and when X is a random number (e.g. Grind Attacks (2D3)), roll for the number of hits separately for each model part.

Halberd: Attacks made with a Halberd gain +1 Strength and +1 Armour Penetration. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Hard Target:

Heavy Armour: +2 Armor

Light Armour: Armor +1

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Lightning Reflexes:

Lion's Fur: If on foot, the wearer gains +1 Armour which is improved to +2 Armour against Shooting Attacks. Lion's Fur cannot be taken by a model with Dragonforged Armour.

Longbow: Portée 30", tir 1, Force 3, PA 0, tir de volée

Martial Discipline: If more than half of a unit's models have Martial Discipline, their Discipline Tests are subject to Minimised Roll except for Panic and Break Tests.

Master of Spellcrafting: The Wizard's spells have their Casting Value reduced by 1. When performing a Casting Attempt with a single Magic Dice, a natural roll of '1' or '2' is always a failed Casting Attempt, regardless of any modifiers.

Move or Fire: The attack may not be used if the attacking model has made an Advance Move, March Move, Reform or Pivot during the current Player Turn.

Multiple Wounds: Attacks & Weapons, Melee

Unsaved wounds caused by the attacks are multiplied into the value given in brackets (X). If the value is a dice (e.g. Multiple Wounds (D3)), roll one dice for each

unsaved wound with Multiple Wounds. The amount of wounds that the attack is multiplied into can never be higher than the Health Points Characteristic of the target (excluding Health Points lost previously in the battle). For example, if a Multiple Wounds (D6) attack wounds a unit of Trolls (HP 3) and rolls a '5' for the multiplier, the number of unsaved wounds is reduced to 3, even if the Troll unit has already lost one or two Health Points previously in battle.

If Clipped Wings is stated after the X value in brackets, any unsaved wound caused by the attack against a model with Fly is multiplied into X+1 instead of X.

Protean Magic: During Spell Selection, the Wizard must select its spells between the Learned Spell 1 of the Paths it has access to and the Hereditary Spell of its army. This rule overrides the Spell Selection rules connected to being Wizard Apprentice, Adept or Master.

Rebirth: Universal Rule.

The first time a Phoenix loses its last Health Point, the owner must roll a D6. The roll is successful on a roll of 5+ (or 3+ if the model has Warden's Bond):

- Remove the model as a casualty as usual, but place a marker on the centre of the model's final position.
- In the next Player Turn, at the start of step 3 of the Movement Phase Sequence (after Rallying Fleeing units), the Phoenix model is placed back on the Battlefield. The centre of the model must be placed within 3" of the marker and the model must be placed more than 1" away from other units and Impassable Terrain, facing any direction.
- If the model cannot be placed following these rules, it cannot return for the rest of the game.
- The returned model is the same model that left the game, including any and all ongoing effects (such as spells affecting the model), with the exception that it always returns with only 1 Health Point left and counts as Rallied in case it was Fleeing when it lost its last Health Point (and thus is Shaken until the end of the Player Turn).
- The model does not grant Victory Point for being Destroyed if it still has Health Points left at the end of the game.

If the roll fails, follow the normal rules (i.e the model is removed as a casualty)

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

Skirmisher: The model can draw Lines of Sight in any direction (i.e. it is not limited by the Front Arc) from any point on its base (remember that Charge Moves are limited by a single Wheel of no more than 90°, and that Stand and Shoot Charge Reactions can only be done against enemies in the Front Arc) and can always use Shooting Attacks from any rank (they are not limited to shooting from first and second rank).

Units with at least one R&F model with Skirmisher are formed into a skirmish formation. They are not placed in base to base contact with each other. Instead, models are placed with a 12.5 mm distance between them. This gap is considered part of the unit for Cover purposes, and will have the same Size as the models in the unit. Other than this gap between models, units with Skirmisher follow the normal rules for forming units and therefore have a Front, two Flanks, a Rear, can perform Supporting Attacks, and so on. Units in skirmish formation gain Hard Target and Light Troops, never block Line of Sight, and when units in skirmish formation would contribute to Hard Cover, they contribute to Soft Cover instead.

Spear:

Strider: The model automatically passes Dangerous Terrain Tests taken due to Terrain.

If more than half of a unit's models have Strider, the unit never loses their Steadfast or Rank Bonus due to Terrain.

Sometimes Strider is linked to a specific type of Terrain, stated in brackets.

In this case, models with Strider are considered Striders only when interacting with such type of Terrain.

Supernal:

Sword Sworn: Attack Attribute - Close Combat.

The model part gains a +1 to-hit modifier when attacking with a Great Weapon.

Valiant: The model is immune to the effects of Fear. If more than half of a unit's models have Valiant, the unit automatically passes Panic Tests caused by Terror.

War Machine: The model cannot Pursue, Declare Charges or Declare Flee as Charge Reaction. Characters can never join units with War Machines, and Characters with War Machine cannot join units at all.

When a War Machine fails a Panic Test, instead of Fleeing it is Shaken until the end of the next Player Turn. War Machines that fail a Break Test are automatically destroyed. War Machines and units Engaged in Combat with them cannot make Combat Reforms.

When a unit charges a War Machine, it can move into base contact by having its Front Facing contact any point of the War Machine's base (it must still maximise the number of models in base contact, see subsection II.1.A "Bases and Base Contact", page 4 and Figure 1 page 4). No Align Move is allowed. Ignore the War Machine's Facing, as it does not have any due to its round base.

Wizard Adept: - Knows 2 spells.

- Can select from the Learned Spells 1, 2, 3, and 4 of its chosen Path and the Hereditary Spell of its army.

The Wizard gains Channel (1) and selects its spells as described in Spell Selection.
