Magics

Racial Trait Spell

Undying Dynasties do not have a regular Hereditary Spell. Instead, all Death Cult Hierarchs know the Hereditary Attribute Spell Death is Only the Beginning (in addition to Path Attributes). At step 1 of each Casting Attempt of a non-Attribute non-Bound Spell of type Augment with a Death Cult Hierarch, the owner may declare that the Wizard will cast an amplified version of the spell:

- The Casting Value of the amplified version is increased by 2.
- If the amplified version is successfully cast, Death is Only the Beginning is automatically cast (as an Attribute Spell).

Casting	Range	Type	Duration
<i>Death is Only the Beginning</i>			
<i>Mf</i>	-	The spell targets a single unit that was the target of the spell that triggered the Hereditary Attribute Spell. Augment	Instant
<p><i>When resolving the spell, choose one of the following effects:</i></p> <ul style="list-style-type: none"> • <i>The R&F part of the target Raises a number of Health Points equal to its Resurrected value.</i> • <i>Up to one Character within the target Recovers a number of Health Points equal to its Resurrected value.</i> <p><i>Characters and models with Towering Presence cannot Recover more than 2 Health Points from this spell in a single Magic Phase.</i></p>			

Divination

The Conclave: Spells from Divination gain +3" range up to a maximum of +9" for each additional friendly Wizard within 12" of the Caster. This bonus can never increase the combined modifier beyond +9", however other sources may.

		Casting	Range	Type	Duration	Effect
5	Unerring Strike	7+ [10+]	18"	Hex, Missile, Damage	Instant	The target suffers 2D6 [3D6] hits that wound on 4+ with Armour Penetration 1, Divine Attacks and Magical Attacks.
3	Screaming	7+ [12+]	18" [6"Aura]	Augment	Last one Turn	The target gains Distracting and Hard Target.
4	The Stars Align	8+ [12+]	18" [6"Aura]	Augment	Last one Turn	The target gains Divine Attacks. In addition, it must reroll failed to-hit rolls with Close Combat and Shooting Attacks.
6	Portent of Doom	8+	24"	Hex	Permanent	When calculating Combat Score, a side with units containing at least one model affected by the spell suffers -X to its Combat Score (for each affected unit and instance of the spell), where X is equal to the number of Characters in the unit, increased by 1 if the unit contains any R&F models. A Character leaving a unit that was the target of the spell no longer is affected by the spell, unless the Character was a single model unit that was the initial target of the spell.
1	Know Thy Enemy	7+ [12+]	18" [6"Aura]	Augment	Last one Turn	The target gains +2 Offensive Skill, +2 Defensive Skill, and +2 Agility.
4	Guiding Light		12"	Augment	Last one Turn	Discipline Tests of units with all models affected by the spell are subject to Minimised Roll. A unit cannot be affected by this spell more than once per Magic Phase.
2	Fate's Judgement	5+ [9+]	18"	Hex, Missile, Damage	Instant	The target suffers D3 [D6] hits that wound automatically with Armour Penetration 0 and Magical Attacks, with no Special Saves allowed (note that Armour Saves are allowed).

Magic items

Book of the Dead: The bearer can cast Death is Only the Beginning as a Bound Spell with PowerLevel (4/8) and the following modification: The spell's range is changed to 12" Aura.

Crown of the Pharaohs: The bearer increases the range of its Commanding Presence by 6". At the start of each of your Player Turns, the bearer may lose Undying Will until the start of your next Player Turn and choose a friendly unit within 12". This unit gains Undying Will until the start of your next Player Turn.

Godslayer: The wielder gains +1 Attack Value while using this weapon. Attacks made with this weapon become **Divine Attacks** and **Magical Attacks**, and gain **Multiple Wounds (2, against Aegis)** (note that the latter also applies against models with Aegis Saves with Conditional Application).

Magic banners

Banner of the Entombed: If taken by a Character, the bearer gains **Underground Ambush**. If taken by a R&F model, the bearer's unit gains **Underground Ambush** and additional models cannot be added to the unit during Army List creation. Standard Height models using this banner to **Ambush** **must** arrive in a formation containing exactly 5 models per rank (except for the last) and cannot make a Reform (or a Swift Reform) during this Player Turn. Units with **Underground Ambush** also count towards Entombed.

Model Rules

Aegis:

Aspen Bow: Shooting Weapon.
Range 24", Shots 1, Str 3, AP 0, Volley Fire.
This weapon always hits on a roll equal to or greater than its Aim.

Autonomous: Undead units consisting entirely of models with Autonomous may perform March Moves as normal even when outside the range of friendly models' Commanding Presence. The unit must still pass a Discipline Test in order to do so if within 8" of non-fleeing enemy units.

Bound Spells: Fate's Judgment from Divination, Power Level (4/8): 18" Hex Missile Damage Instant
The target suffers {D3} hits with Magical Attacks that wound automatically, with no Special Saves allowed (note that Armour Saves are allowed).

Bound Spells: Ice and Fire from Cosmology, Power Level (4/8): range 24+
Cosmos
Hex, Missile, Damage Instant
The target suffers 2D6 hits with Strength 4, Armour Penetration 0, and Magical Attacks. Successful Special Saves against wounds caused by this spell must be rerolled.

Chaos
The target suffers 2D6 hits with Strength 4 and Armour Penetration 0. Successful Armour Saves against wounds caused by this spell must be rerolled.

Channel: During step 3 of the Magic Phase Sequence, each of the Active Player's models with Channel may add X Veil Tokens to the owner's Veil Token Pool. This Universal Rule is cumulative, adding X Veil Tokens of each independent instance of Channel to the model's total Channel value (so e.g. a model with Channel (1) and Channel (2) is treated like a model with Channel (3)).

Colossal Kopesh: Melee Weapon.
Attacks with this weapon gain +2 Strength, +2 Armour Penetration, and Multiple Wounds (D3, against Towering Presence).

Divine Light: Universal Rule.
Enemy Wizards within 36" of one or more Caskets of Phatep suffer a -1 modifier to their casting rolls. When a Casket of Phatep is removed as a casualty, all units within 12" suffer 3D3+3 hits with Strength 1 and Armour Penetration 10.

Dust to Dust: At the end of any phase in which the Hierophant was removed as a casualty, every unit in the army with Dust to Dust must pass a Discipline Test or lose a number of Health Points equal to the amount by which the test was failed, with no saves of any kind allowed. These Health Point losses are allotted following the rules for Unstable. The number of Health Points lost is reduced by 1 if the unit is within range of Rally Around the Flag.

At the end of the Player Turn in which the Hierophant was removed as a casualty, a new Hierophant may be selected. In order to do so, nominate a friendly Wizard Character. This Character becomes the new Hierophant.

At the start of each friendly Player Turn after the army's Hierophant has been removed as a casualty and no new Hierophant has been selected, every unit with Dust to Dust must once again pass a Discipline Test or lose Health Points as described above.

Ensouled Statue: The model gains Undead and Dust to Dust. If more than half of the models in a unit have Ensouled Statue, reduce the number of Health Points lost by this unit due to Dust to Dust and Unstable by 1.

Fear: Units in base contact with one or more enemy models with Fear suffer -1 Discipline. At the start of each Round of Combat, such units must take a Discipline Test, called a Fear Test. If this test is failed, the models in the unit are Shaken until the end of the Round of Combat. Models that have Fear themselves are immune to the effects of Fear.

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

Flammable:

Fly: The model gains Light Troops and Swiftstride. Units composed entirely of models with Fly may make Flying Movements when performing a Move Chargers move, an Advance Move, or a March Move. When a unit makes a Flying Movement, substitute its models' Advance Rate with the first value given in brackets (X), and their March Rate with the second value given in brackets (Y). All modifiers to ground movement values are also applied to the flying values of a model. Units using Flying Movement ignore all Terrain Features and units during the Flying Movement (from their starting to their ending position), but must abide by the Unit Spacing rule at the end of the move (unless charging, when the normal exceptions to the Unit Spacing rule apply). They are still affected by the effects of the Terrain Features from which they take off and in which they land.

Grind Attacks: A model part with Grind Attacks resolves these attacks at its own Agility. It must choose an enemy unit in base contact with it. The chosen enemy unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the model part's own Strength and Armour Penetration.
If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). When several model parts in the same unit have Grind Attacks and when X is a random number (e.g. Grind Attacks (2D3)), roll for the number of hits separately for each model part.

Halberd: Attacks made with a Halberd gain +1 Strength and +1 Armour Penetration. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with at least one model part with Harnessed is considered to be mounted.

Lethal Strike: If the attack wounds with a natural to-wound roll of 6+, its Armour Penetration is set to 10 and the target of the attack cannot take a Regeneration save against it.

Light Armour: Armor +1

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the

movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Magical Attacks: The attack doesn't have any special effects. However, it interacts with other rules, such as Otherworldly. Model parts with Magical Attacks apply it also to their Special Attacks (such as Stomp Attacks, Impact Hits and Breath Attack).

Master of Stone: Universal Rule.

Right before the battle (during step 7 of the Deployment Phase Sequence), and at the start of each friendly Player Turn, choose a friendly unit consisting entirely of models with Ensouled Statue within 18" of the Tomb Architect. This unit gains Fortitude (5+) until the start of your next Player Turn or until the Tomb Architect is removed as a casualty, whichever comes first.

Mummy's Curse: When the model with Mummy's Curse is removed as a casualty, it immediately inflicts 1 hit with Strength 6 and Armour Penetration 10 against the model that caused the final Health Point loss. This is considered a Ranged Attack. If more than one model was part of the action which brought the downfall of the model with Mummy's Curse, randomise which of those models suffers the hit.

Not a Leader: The model cannot be the General.

Petrifying Gaze: Shooting Weapon.

Range 12", Shots D6+1, Str 2, AP 10, Quick to Fire.

When rolling to wound with this attack, use the target's Agility instead of the target's Resilience. For Multipart Models, use the highest Agility value.

Phatep's Curse: Universal Rule.

Unless this model made an Advance Move or March Move during the current Player Turn, it can cast the following Bound Spell with Power Level (6/6):

Type: Damage, Hex, Range 36", Duration: Instant.

The target must take a Discipline Test rolling an additional D6. If failed, the target suffers a number of hits equal to the amount by which the test was failed. Hits are resolved with Armour Penetration 10 and wound automatically.

Poison Attacks: If the attack successfully hits with a natural to-hit roll of '6', it automatically wounds with no to-wound roll needed. Shooting Attacks using the Hopeless Shot can only automatically wound if the first to-hit roll is a natural '6'. Note that the second to-hit roll must still be successful in order to hit the target. If the attack can be turned into more than one hit (e.g. a hit with Area Attack, Battle Focus, or Penetrating), only a single hit, chosen by the attacker, automatically wounds. All other hits must roll to wound as normal.

Scales of Destiny: Melee Weapon.

The wielder suffers -1 Attack Value.

The model has two Bound Spells:

- Touch the Heart from Cosmology,

Power Level (4/8)

- Ice and Fire from Cosmology,

Power Level (4/8)

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.

- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.

- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Scout: At step 8 of the Pre-Game Sequence (after Spell Selection) an army that includes units with Scout must state which of its units with Scout will use it, starting with the player that picked the Deployment Zone. Deploy your army as usual, but without deploying any of the Scouting units. These units are placed after all other non-Scouting units have been deployed. They can either be deployed in your Deployment Zone, using the normal rules, or they can be deployed outside the Deployment Zone, but must be more than 18" away from any enemy units. This is decreased to 12" if the Scouting unit is deployed entirely within a Forest, Ruins, Field, Building, or Water Terrain Feature. Scouting units that are deployed outside their player's Deployment Zone may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have Scouting units, alternate deploying one unit at a time, starting with the player that finished deploying first.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

Undead: The model gains Unstable. Models with Undead cannot perform March Moves, unless their unit starts the March Move within the range of a friendly model's Commanding Presence. The only Charge Reaction a unit with one or more models with Undead can make is Hold.

When units consisting entirely of models with Undead lose Health Points due to Unstable, the number of lost Health Points can be reduced in some situations. Apply the modifiers in the following order:

1. If the unit is Stubborn, halve the number of lost Health Points (round fractions up).

2. If the unit is Steadfast, reduce all lost Health Points above 12 to 12.

3. If the unit receives Rally Around the Flag, reduce the number of lost Health Points with the unit's current Rank Bonus. Units with no Rank Bonus reduce the number of Health Points lost by 1 instead.

4. Apply all other modifiers (from Special Equipment, Model Rules, spells, etc.) afterwards.

Undying Will: Units with one or more models with Undying Will gain +2 Offensive Skill, +2 Defensive Skill, Lethal Strike, and replace their Shooting Weapons' Aim with (4+). Characters, models with Ensouled Statue, and model parts with Harnessed are not affected by Undying Will.

Vanguard: After Deployment (including units with Scout), models with Vanguard may perform a 12" move. The move is performed as an Advance Move in the Movement Phase, including any actions and restrictions the unit would normally have (such as Wheeling, Reforming, joining units, leaving units and so on). The 12" distance is used instead of the unit's Advance Rate and March Rate. This move cannot be used to move within 12" of enemy units. This is decreased to 6" for enemy units which have either Scouted or Vanguarded. Units that have moved in this way may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have units with Vanguard, alternate moving units one at a time, starting with the player that finished deploying last. Instead of moving a unit, a player may declare to not move any more Vanguarding units.

War Machine: The model cannot Pursue, Declare Charges or Declare Flee as Charge Reaction. Characters can never join units with War Machines, and Characters with War Machine cannot join units at all.

When a War Machine fails a Panic Test, instead of Fleeing it is Shaken until the end of the next Player Turn. War Machines that fail a Break Test are automatically destroyed. War Machines and units Engaged in Combat with them cannot make Combat Reforms.

When a unit charges a War Machine, it can move into base contact by having its Front Facing contact any point of the War Machine's base (it must still maximise the number of models in base contact, see subsection II.1.A "Bases and Base Contact", page 4 and Figure 1 page 4). No Align Move is allowed. Ignore the War Machine's

Facing, as it does not have any due to its round base.

Wizard Apprentice: - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection

Qr codes of your army

You can print this page to have all your army's units qrcode and cut them to stick them on your units, with them you can directly access to the unit's profil with your phone.
