Magic items

Cleansing Light: At the start of each Round of Combat, the wielder may choose to have attacks made with this weapon become Divine Attacks and Flaming Attacks and Magical Attacks.

Thrice-Forged: The wearer gains +3 Armour. If the wearer's model has Towering Presence, its Armour **can never** be improved beyond 5.

Magic banners

Legion Standard: A unit with one Legion Standard increases the maximum of its Rank Bonus by +1 (normally this means the unit can add up to 4 Full Ranks to its Combat Score). A unit with two or more Legion Standards increases the maximum of its Rank Bonus by +2 instead.

Stalker's Standard: The bearer's unit gains Strider.

Wasteland Torch: The bearer's unit gains **Strider (Ruins)**. After determining Deployment Zones (at the end of step 6 of the Pre-Game Sequence), you may choose a single Field or Forest Terrain Feature that becomes Ruins. The bearer's unit gains **Flaming Attacks** in the First Round of Combat.

Zealots' Banner: The maximum number of Supporting Attacks that models in the second rank of the bearer's unit can perform is increased by 1.

Model Rules

Aegis:

Battle Fever: Units with more than half of their models with Battle Fever **must** reroll failed Panic and Break Tests.

Bodyguard: When a Character is joined to a unit in which at least one model has Bodyguard, that Character gains Stubborn. When Characters or Character types are stated in brackets, Bodyguard only works for the specified Characters or Character types.

Deeds not Words: The model part gains **Battle Focus** and **Hatred** while joined to one or more R&F models with Battle Fever.

Extra Support:

Fear: Units in base contact with one or more enemy models with Fear suffer -1 Discipline. At the start of each Round of Combat, such units must take a Discipline Test, called a Fear Test. If this test is failed, the models in the unit are Shaken until the end of the Round of Combat. Models that have Fear themselves are immune to the effects of Fear.

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

Fortitude: Fortitude is a Special Save. Fortitude Saves cannot be taken against attacks with Lethal Strike that rolled a natural 6+ to wound, or against attacks with Flaming Attacks

Grind Attacks: A model part with Grind Attacks resolves these attacks at its own Agility. It must choose an enemy unit in base contact with it. The chosen enemy unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the model part's own Strength and Armour Penetration.

If a model has both Grind Attacks and Impact Hits

, it may only use one of these rules in the same Round of Combat

(its controlling player may choose which). When several model parts in the same unit have Grind Attacks and when X is a random number (e.g. Grind Attacks (2D3)), roll for the number of hits separately for each model part.

Halberd: Attacks made with a Halberd gain +1 Strength and +1 Armour Penetration. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with at least one model part with Harnessed is considered to be mounted.

Heavy Armour: +2 Armor

Hell-Forged Armour: Armour Equipment

Plate Armour. The wearer's model gains Aegis (5+, against Toxic Attacks)

Insignificant:

Irredeemable: The model cannot make Stomp Attacks and, when in the second rank and not in base contact with any enemy models, can make Grind Attacks across models in the first rank directly in front of it. When a model with Irredeemable is killed by a Melee Attack, remove it as a casualty only at the end of Initiative Step 0. A unit with at least one model with Irredeemable may never have more ranks than files.

Legendary Beasts: The sum of the Legendary Beasts values stated in brackets of all models in the army is restricted to 1 per 750 Army Points, rounding fractions up.

Light Armour: Armor +1

Manifestation: During Spell Selection, each Exalted Herald **must** choose two different Manifestations from the list below and apply the effects during the game. The model **must** select 3 spells out of the spells indicated for the chosen Manifestations, Wrath of God (Thaumaturgy), and Hellfire (Hereditary Spell). This replaces the normal rules for Spell Selection connected to being a Wizard Adept. In addition, Guiding Light (Divination) becomes the Attribute Spell for all non-Bound Spells cast by the model.

Master of Destruction: The model part can use a Shield or a Spiked Shield simultaneously with a Great Weapon or a Halberd.

Path of the Exiled: Units with more than half of their models with Path of the Exiled **must** reroll failed Break Tests. At the end of step 7 of a Round of Combat (after taking Break Tests), models with Path of the Exiled in a unit that failed a Break Test simultaneously perform Close Combat Attacks (ignoring the rules for Initiative

Order, but otherwise following the normal rules such as Supporting Attacks and Allocating Attacks). Afterwards, they are removed as casualties. Models with Path of the Exiled cannot join or be joined by models with Path of the Favoured.

Path of the Favoured: Units with more than half of their models with Path of the Favoured must reroll failed Break Tests. In addition, model parts with Path of the Favoured upgraded to a Champion gain +1 Health Point to a maximum of 3, and their Discipline is set to 9.

Random Movement: The unit cannot Declare Charges and cannot move normally (Advance, March, Reform) in the Movement Phase (which also means they cannot perform Magical Moves). The model loses Swiftstride (and can never gain it), but always charges, Flees, Pursues and Overruns the distance stated in brackets. In the Movement Phase, at the end of step 2 of the the it with Random Movement moves using the rules for Pursuing units, except that they can freely choose which direction to rotate towards before rolling the Pursuit Distance, cannot move off the Board Edge and only take Dangerous Terrain Tests if they actually charge an enemy unit (they still test as normal when Fleeing, Pursuing a Broken enemy or Overrunning).

Whenever a unit with Random Movement needs a March Rate (e.g. when Post-Combat Reforming), use the potential maximum value of X as its March Rate. Characters with Random Movement can only join units with Random Movement (by moving into contact with them during the Movement Phase or by being deployed inside), and units with Random Movement can only be joined by Characters with Random Movement. Units with Random Movement cannot enter Buildings. If a unit has several sets of Random Movement, use the one with the lowest average (in case of a tie, you may choose which version to use). A model with Random Movement cannot move in the same phase as it arrives on the Battlefield as Reinforcement (Dawn Assault) or Ambusher.

Release the Hounds: One use only. May be activated at the start of a friendly Player Turn (all models in a unit must activate this rule at the same time). The model gains +6 March Rate and **Devastating Charge (+1 Att, +1 Str)** during this Player Turn.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it if Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Spiked Shield: Armour Equipment

Models on foot only.

Shield. For each successful Armour Save roll of 4+ made by the model part against an enemy Melee Attack while using a Spiked Shield, the model part immediately inflicts 1 hit with its Strength and Armour Penetration on the model that caused the wound, before any casualties are removed, distributed onto the model's Health Pool. This is considered a Special Attack.

Supernal:

Unbreakable: The model gains Fearless and its unit automatically passes all Break Tests. Characters with Unbreakable can only join units consisting entirely of models with Unbreakable. Units with one or more models with Unbreakable can only be joined by Characters with Unbreakable.

Wizard Adept: - Knows 2 spells.

- Can select from the Learned Spells 1, 2, 3, and 4 of its chosen Path and the Hereditary Spell of its army.
- The Wizard gains Channel (1) and selects its spells as described in Spell Selection.

Wizard Apprentice: - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.
- The Wizard selects its spells as described in Spell Selection
