## Magics

Racial Trait Spell

	Casting	Range	Type	Duration
<b>The Awakened Swarm</b>				
Mf	7+ [10+]	[12"] [24"]	Hex, Damage, Direct	Instant
<i>The target suffers 2D6 hits with Strength 4, Armour Penetration 2, and Magical Attacks.</i>				

Occultism

**The Sacrifice:** When casting a non-Bound Spell from this Path, immediately after the casting roll, but before any Dispelling Attempt, the Active Player may choose the Caster's unit or another friendly unengaged unit within 24".

A unit may only be chosen once per phase. The chosen unit suffers X hits that wound automatically with Armour Penetration 10 and Magical Attacks, and with no saves of any kind allowed, where X is determined by the Discipline value of the largest fraction of models in the unit, ignoring all Discipline modifiers. In case of a tie, use the

- lower value:
- 0 to 4: 3 hits
  - 5 to 7: 2 hits
  - 8 to 10: 1 hit

Any Health Point loss from The Sacrifice that would remove the last model of the chosen unit as a casualty is discarded.

These Health Points losses never cause Panic Tests.

If at least one Health Point loss was caused, the spell is cast with the {amplified} version. In that case, use any text marked with {}.

		Casting	Range	Type	Duration	Effect
2	Hand of Glory	6+ [8+]	Caster [12"]	[Augment], Focused	Last one Turn	[This spell may only target Characters, Champions, and single model units.] The target {and all models in its unit} gain Aegis (6+) and Aegis (+1, max 3+).
3	The Rot Within	6+	18"	Hex	Permanent	The target suffers -1 Offensive Skill and -1 Defensive Skill. {The Caster gains +1 Offensive Skill and +1 Defensive Skill.}
6	The Grave Calls	11+	12"	Hex, Damage, Direct	Instant	The target suffers 2D6 hits with Strength 5, Armour penetration 2, and Magical Attacks. {The hits gain +1 Strength and +1 Armour Penetration.}
1	Pentagram of Pain	5+[6+]	24"[12" Aura]	[Hex], [Direct], [Universal], [Damage]	Instant	The target suffers D6 hits with Strength 4, Armour Penetration 1, and Magical Attacks. [The Caster's unit is unaffected.] {If one or more unsaved wounds are caused with this spell, the Caster Recovers 1 Health Point.}
4	Breath of Corruption	6+ [9+]	Caster [12"]	[Augment], Focused	Last one Turn	The target gains Breath Attack (Magical Attacks, Toxic Attacks). [This spell may only target Characters, Champions, and single model units.] {If the Breath Attack is used as a Shooting Attack, its range is increased to 18".}
5	Marked for Doom	9+	24"	Hex, Damage, Direct	Instant	The target suffers 1 hit with Strength 10, Armour Penetration 10, Multiple Wounds (D3), and Magical Attacks. {If the target is within 12" of the Caster, the spell targets a single Character or Champion joined to the target unit.}

## Magic items

**Destiny's Call:** The wearer gains Aegis (4+) and its Armour is set to 3 and can never be improved beyond this.

**Putrid Protection:** The wearer gains +2 Armour. For each successful Armour Save made by the wearer against Melee Attacks, the wearer immediately inflicts 1 hit with Toxic Attacks against the model that caused the wound, before any casualties are removed, distributed onto the model's Health Pool. This is considered a Special Attack.

**Talisman of Shielding:** The bearer gains Aegis (5+).

## Magic banners

**Banner of the Endless Swarm:** If a unit with one or more Banners of the Endless Swarm has more Full Ranks than each of the enemy units Engaged in the same Combat, it gains **Fight in Extra Rank**. If the unit has more than twice the number of Full Ranks than each of the enemy units Engaged in the same Combat, it gains an additional instance of Fight in Extra Rank. Check how many Full Ranks the units have and apply the effects at the start of each Initiative Step.

## Model Rules

**Battle Focus:** If the attack hits with a natural to-hit roll of '6', the attack causes two hits instead of one.

**Brood's Courage:** A unit with more than half of its models with Brood's Courage (X) within 6" of a unit that includes at least one model from one of the unit entries stated in brackets (X), may use the Full Ranks of this unit for the purpose of calculating the Discipline modifier it gains from Safety in Numbers.

**Callous:** The model is allowed to use Shooting Attacks and The Awakened Swarm (Hereditary Spell) against enemy units that are Engaged in Combat with friendly units, as long as all friendly units Engaged in the Combat are of Standard Height. All units Engaged in this Combat are ignored for Cover purposes (but not for drawing Line of Sight). When a model with this rule targets an enemy unit Engaged in Combat with a Shooting Attack or with The Awakened Swarm, roll to hit as normal against the intended target. Each hit must then be randomised to see which unit it hits. Roll a D6 for each hit. On 3+ it hits the intended target; otherwise it hits a friendly unit Engaged in that Combat. If there are several friendly units involved in the combat, randomise which one is hit.

**Fearless:** If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

**Frenzy:** A unit with at least half its models with Frenzy cannot choose Flee as Charge Reaction, and when taking Discipline Tests, apply the following:

- If it is a Panic Test, Decimated Test or Fear Test: the unit gains +2 Discipline.

- If it is a Break Test, roll the test as normal.

- If it is any other Discipline Test, the unit suffers -2 Discipline.

At the start of the Charge Phase, each of your units with at least one model with Frenzy that could Declare a Charge against an enemy unit within the unit's Advance Rate +7" (using the lowest Advance Rate among the unit's models; if a model has more than 1 Advance Rate available, use the highest one) must take a Discipline Test, called a Frenzy Test. If the test is failed, the whole unit must Declare a Charge this Player Turn. Note that Characters are never forced to charge out of their units.

**Gas Globes:** Shooting Weapon.

Range 8", Shots 1, AP 10, Quick to Fire, Accurate, Magical Attacks. Hits from this weapon ignore the target's Resilience and are instead set to wound on 4+.

**Hand Weapon:** All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

**Hard Target:**

**Hatred:** During the first Round of Combat, failed to-hit rolls from attacks with Hatred must be rerolled.

**Heavy Armour:** +2 Armor

**Honourless:** A Character with Honourless cannot be chosen by the enemy as the model that suffers the penalties for refusing a Duel.

**Insignificant:**

**Light Armour:** Armor +1

**Light Troops:** Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

**Magical Attacks:** The attack doesn't have any special effects. However, it interacts with other rules, such as Otherworldly. Model parts with Magical Attacks apply it also to their Special Attacks (such as Stomp Attacks, Impact Hits and Breath Attack).

**Meat Grinder:** Melee Weapon.

When using this weapon, the wielder gains Impact Hits (2D6) and Grind Attacks (2D6). These Impact Hits and Grind Attacks are resolved with Strength 4 and Armour Penetration 2.

**Mechanical Limbs:** Special Attack.

A Rakachit Machinist may use a single of the following attacks once per Player Turn. If used as a Shooting Attack, the attack may be used in addition to using a Shooting Weapon, provided both Shooting Attacks target the same unit.

Lightning Coil: Shooting Attack. Range 18", Shots D6, Str 2, AP 3. This attack hits automatically.

Naphtha Thrower: Breath Attack (Str 3, AP 0, Flaming Attacks). This Breath Attack is not limited to being used only once per game.

**Move or Fire:** The attack may not be used if the attacking model has made an Advance Move, March Move, Reform or Pivot during the current Player Turn.

**Not a Leader:** The model cannot be the General.

**One with the Swarm:** Universal Rule.

The model can only join units of Rats-at-Arms, and loses Insignificant while joined to such units.

**Paired Weapons:** The wielder gains +1 Attack Value when using Paired Weapons. Attacks made with Paired Weapons gain +1 Offensive Skill and ignore Parry. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.

**Plague Catapult:** Catapult (4x4) Artillery Weapon

Range 12-48", Shots 1, Toxic Attacks, Magical Attacks.

**Poison Attacks:** If the attack successfully hits with a natural to-hit roll of '6', it automatically wounds with no to-wound roll needed. Shooting Attacks using the Hopeless Shot can only automatically wound if the first to-hit roll is a natural '6'. Note that the second to-hit roll must still be successful in order to hit the target. If the attack can be turned into more than one hit (e.g. a hit with Area Attack, Battle Focus, or Penetrating), only a single hit, chosen by the attacker, automatically wounds. All other hits must roll to wound as normal.

**Putrid Scholar:** Universal Rule.

The model selects its spells from all Learned Spells of its chosen Path and The Awakened Swarm (Hereditary Spell). This overrides the normal Spell Selection rules connected to being a Wizard Apprentice or Adept.

**Safety in Numbers:** Non-fleeing units comprised entirely of models with Safety in Numbers add their number of Full Ranks after the first one to their Discipline, up to a maximum of +3 and never above 10. Safety in Numbers cannot be used to modify the Discipline that is distributed by models with Commanding Presence (but the received Commanding Presence can be modified by Safety in Numbers). Furthermore, units comprised entirely of models with Safety in Numbers gain +1" to their Flee Distance rolls.

**Scoring:** Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

**Shield:** +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

**Skirmisher:** The model can draw Lines of Sight in any direction (i.e. it is not limited by the Front Arc) from any point on its base (remember that Charge Moves are limited by a single Wheel of no more than 90°, and that Stand and Shoot Charge Reactions can only be done against enemies in the Front Arc) and can always use Shooting Attacks from any rank (they are not limited to shooting from first and second rank).

Units with at least one R&F model with Skirmisher are formed into a skirmish formation. They are not placed in base to base contact with each other. Instead, models are placed with a 12.5 mm distance between them. This gap is considered part of the unit for Cover purposes, and will have the same Size as the models in the unit. Other than this gap between models, units with Skirmisher follow the normal rules for forming units and therefore have a Front, two Flanks, a Rear, can perform Supporting Attacks, and so on. Units in skirmish formation gain Hard Target and Light Troops, never block Line of Sight, and when units in skirmish formation would contribute to Hard Cover, they contribute to Soft Cover instead.

**Swift Reform:** During the Movement Phase, a unit containing one or more models with Swift Reform may execute a Swift Reform instead of a Reform. The unit makes a Reform with the following exceptions:

- The unit is not prohibited from shooting in the next Shooting Phase (but will still suffer the to-hit modifier for moving and shooting).
- The unit can perform an Advance Move after the Reform. For the purpose of no model being able to end its movement with its centre farther away than its Advance Rate from its starting position, measure this distance after the Reform.
- No model can end its movement (after an Advance Move) with its centre farther away than its March Rate from its starting position before the Reform.

**Tag-Along:** If the model is within 3" of a friendly non-fleeing unit with at least one Rat-at-Arms or Vermin Guard model, it gains Aegis (4+) against Ranged Attacks.

**Vanguard:** After Deployment (including units with Scout), models with Vanguard may perform a 12" move. The move is performed as an Advance Move in the Movement Phase, including any actions and restrictions the unit would normally have (such as Wheeling, Reforming, joining units, leaving units and so on). The 12" distance is used instead of the unit's Advance Rate and March Rate. This move cannot be used to move within 12" of enemy units. This is decreased to 6" for enemy units which have either Scouted or Vanguarded. Units that have moved in this way may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have units with Vanguard, alternate moving units one at a time, starting with the player that finished deploying last. Instead of moving a unit, a player may declare to not move any more Vanguarding units.

**Volley Fire:**

**War Machine:** The model cannot Pursue, Declare Charges or Declare Flee as Charge Reaction. Characters can never join units with War Machines, and Characters with War Machine cannot join units at all.

When a War Machine fails a Panic Test, instead of Fleeing it is Shaken until the end of the next Player Turn. War Machines that fail a Break Test are automatically destroyed. War Machines and units Engaged in Combat with them cannot make Combat Reforms.

When a unit charges a War Machine, it can move into base contact by having its Front Facing contact any point of the War Machine's base (it must still maximise the number of models in base contact, see subsection II.1.A "Bases and Base Contact", page 4 and Figure 1 page 4). No Align Move is allowed. Ignore the War Machine's Facing, as it does not have any due to its round base.

**War Platform:** Unless selected as a mount for a Character, a model with War Platform gains Not a Leader and Character, with the following exceptions:

- It does not count towards the Character's category (for Army List creation).
- It cannot Issue Duels, Accept Duels or Make Way.
- It can perform Swirling Melee.
- It does not count as a Character regarding Bodyguard and Multiple Wounds.

The model can join units even if it has Towering Presence, and having Chariot does not prevent it from joining units without Chariot. When joined to a unit, it must always be placed in the centre of the front rank, possibly pushing back other models with Front Rank, and must keep its position in the centre of the front rank at all times (as long as it is joined to the unit). If two positions are equally central (e.g. in a unit with an even number of models in the first rank and a War Platform replacing an uneven number of models per rank), the War Platform can be placed in either of these positions. If the War Platform cannot be placed in the centre of the front rank (e.g. due to Mismatching Bases or the front rank being too narrow), the model cannot join the unit. This means that a War Platform can never join a unit with Mismatching Bases and that only a single War Platform can be in the same unit unless noted otherwise.

**Wizard Apprentice:** - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection
