**Nature's Call:** All Wizards that know at least one Druidism spell (excluding Bound Spells) know the Learned Spell The Oaken Throne in addition to their other spells.

		Casting	Range	Type	Duration	Effect
<b>1</b>	Healing Waters	7+ <<6+>>	18"	Augment	Last one Turn	The Range of this spell can be measured from the Caster or from any <b>Water Terrain</b> Feature on the board. The target gains Fortitude <b>(5+)</b> <b>{(4+)}</b> .

<b>2</b>	Master of Earth	6+ <<5+>>	18"	Hex, Damage, Direct	Instant	The range of this spell can be measured from the Caster or from any <b>Impassable Terrain</b> Feature on the board. The target suffers 1D6 hits with Strength <4> <<5>>, Armour Penetration <1> <<2>> and <b>Magical Attacks</b> .

		Casting	Range	Type	Duration	Effect
0	The Oaken Throne	4+	Caster	Caster	Permanent	If any friendly Caster is affected by The Oaken Throne, certain spells are cast with an amplified version. Use any text marked with {} and ignore any red text. The Oaken Throne must already be in play when a spell is cast in order to use the {amplified} Attribute. This spell is ended if any friendly Caster attempts to cast The Oaken Throne again, or if the opponent removes a dice from their Magic Dice pool at the end of step 3 of any Magic Phase sequence (after Siphon the Veil).
A	Fountain of Youth		12"	Augment, Focused	Instant	The target or its unit Recovers {Raises} 1 Health Point. This spell can only be cast once per phase.

Otherwise,> place a Forest Terrain Feature underneath the target (this can be substituted by placing a marker or the spell card next to the unit). This Forest always extends to the edges of the target's Unit Boundary (even if the unit moves or changes formation). If the target is a friendly unit, it gains Strider (Forest).
4	Summer Growth	11+ <<10+>>	24"	Augment	Instant	This spell has different effects depending on the target: <b>Standard Infantry/Beast*</b> : Raise 4 {6} Health Points. <b>Towering Presence**</b> : Raise 1 {1} Health Point. <b>Anything else***</b> : Raise 2 {3} Health Points. * More than half of the models in the unit are both Standard Height and either Type Infantry or Beast Type. ** More than half of the models in the unit have Towering Presence. *** Use this if neither of the above is applies.

### Magic items

**Binding Scroll:** One use only. May be activated after Siphon the Veil (at the end of step 3 of the Magic Phase Sequence).

When activated, pick an enemy model and select one of its Attribute, Bound, or Learned Spells. The selected model cannot cast the chosen instance of the spell during this Magic Phase. Only a single Binding Scroll may be activated during the same phase.

**Divine Judgement:** Attacks made with this weapon gain Devastating Charge (+1 Str, +1 AP, Multiple Wounds (D3)) and become Magical Attacks.

**Percival's Panoply:** The wearer gains +2 Armour.

### Model Rules

**Aegis:**

**Bastard Sword:** Close Combat Weapon

Hand Weapon. Attacks made with a Bastard Sword gain +1 Strength and, in the First Round of Combat, +1 Armour Penetration.

**Beloved:** Universal Rule.

While the model is joined to a unit with at least one Full Rank, it gains Stand Behind.

**Courage:** The model gains Aegis (+1, max. 4+) with the following restriction: The effect can only be used against wounds against which the model cannot take or would automatically fail its any Armour Saves. Units with more than half of their models with Courage ignore friendly units consisting entirely of models with Ordeal for the purpose of Panic Tests.

**Fear:** Units in base contact with one or more enemy models with Fear suffer -1 Discipline. At the start of each Round of Combat, such units must take a Discipline Test, called a Fear Test. If this test is failed, the models in the unit are Shaken until the end of the Round of Combat. Models that have Fear themselves are immune to the effects of Fear.

**Fearless:** If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

**Fey Spirit:** The model gains Fearless and Magical Attacks. Models with Fey Spirit can only join or be joined by Damsels or models with Fey Spirit.

**Fly:** The model gains Light Troops and Swiftstride. Units composed entirely of models with Fly may make Flying Movements when performing a Move Chargers move, an Advance Move, or a March Move. When a unit makes a Flying Movement, substitute its models' Advance Rate with the first value given in brackets (X), and their March Rate with the second value given in brackets (Y). All modifiers to ground movement values are also applied to the flying values of a model. Units using Flying Movement ignore all Terrain Features and units during the Flying Movement (from their starting to their ending position), but must abide by the Unit Spacing rule at the end of the move (unless charging, when the normal exceptions to the Unit Spacing rule apply). They are still affected by the effects of the Terrain Features from which they take off and in which they land.

**Gallantry:** During Army List creation, the unit gains a Gallantry value that corresponds to the value stated in brackets (X).

Multiple instances of Gallantry (X) in the same unit do not stack. The sum of the Gallantry values of all units on the Army List is restricted to 1 per 650 Army Points, rounding fractions up (this means that e.g. a 4500 pts army can contain units with a combined Gallantry value of up to 7).

**Ghost Step:** The model treats all Terrain Features as Open Terrain for movement purposes, but must abide by the Unit Spacing rule upon the completion of its moves.

**Hand Weapon:** All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

**Hard Target:**

**Harnessed:** Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is considered to be mounted.

**Heavy Armour:** +2 Armor

**Honesty:** The model gains Aegis (+1, against Magical Attacks, max. 4+)

**Impact Hits:** At Initiative Step 10, a charging model part with Impact Hits must choose an enemy unit that is in base contact with the attacking model's Front Facing. This unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the attacking model part's Strength and Armour Penetration. If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). In multipart models, only model parts that also have Harnessed or Inanimate can use their Impact Hits. When several models in the same unit have Impact Hits, and when X is a random number (e.g. Impact Hits (D6)), roll for the number of hits separately for each model part.

**Lance:** Attacks made with a Lance and allocated toward models in the wielders' Front Facing gain Devastating Charge (+2 Strength, +2 Armour Penetration). Infantry cannot use Lances.

**Lance Formation:** Close Combat

The model gains Fight in Extra Rank, and its maximum number of Supporting Attacks is increased by 1. If more than half of a unit's models have Lance Formation and the unit is 3 or 4 models wide, it counts as being in Line Formation and only needs to be 3 models wide in order to form Full Ranks.

**Light Armour:** Armor +1

**Light Troops:** Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

**Not a Leader:** The model cannot be the General.

**Ordeal:** The model gains Aegis (+1, max. 5+) with the following condition: Its unit must be Engaged in the same Combat as at least one other friendly unit containing one or more models with Courage or Honesty. Units consisting entirely of models with Ordeal are ignored by units with more than half of their models with Courage for the purpose of Panic Tests.

**Orison:** At the start of step 7 of the Pre-Game Sequence (Spell Selection), each model with Orison (X) adds X Orison Tokens to its owner's Orison Token pool. Any player's Orison Token pool can never contain more than 6 Orison Tokens. At the start of any phase or Round of Combat, one or more Orison Tokens can be removed from the Orison Token pool. For each removed token, choose one friendly non-Fleeing unit within 8" of any friendly non-Fleeing model with Orison (X).

The chosen unit gains one of the following effects:

- Holy Strike: Model parts without Harnessed gain +1 to hit with their Close Combat Attacks.
- Holy Shield: Aegis (+1, max. 4+).

- Holy Wrath: Fear; any model that already has Fear gains Terror instead.

Several instances of an effect on the same model are not cumulative, and a single unit can only be the target of one Orison per phase unless specifically stated otherwise. The effects last until the end of the phase.

**Sacred Relic:** Universal Rule.

The model must be deployed in a Standard Height Infantry unit and can never voluntarily leave it. The model's unit gains the following rules:

- Fight in Extra Rank
- The unit's Discipline Tests are subject to Minimised Roll.
- At the start of every Magic Phase, if the unit is Engaged in Combat, add one Orison Token to your Orison Token pool

**Scoring:** Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

**Shield:** +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

**Skirmisher:** The model can draw Lines of Sight in any direction (i.e. it is not limited by the Front Arc) from any point on its base (remember that Charge Moves are limited by a single Wheel of no more than 90°, and that Stand and Shoot Charge Reactions can only be done against enemies in the Front Arc) and can always use Shooting Attacks from any rank (they are not limited to shooting from first and second rank).

Units with at least one R&F model with Skirmisher are formed into a skirmish formation. They are not placed in base to base contact with each other. Instead, models are placed with a 12.5 mm distance between them. This gap is considered part of the unit for Cover purposes, and will have the same Size as the models in the unit. Other than this gap between models, units with Skirmisher follow the normal rules for forming units and therefore have a Front, two Flanks, a Rear, can perform Supporting Attacks, and so on. Units in skirmish formation gain Hard Target and Light Troops, never block Line of Sight, and when units in skirmish formation would contribute to Hard Cover, they contribute to Soft Cover instead.

**Supernal:**

**Tall:**

**The Quest:** Universal Rule.

Immediately after deploying the first friendly unit of Knights of the Quest during the Deployment Phase, the owner must choose 1 unit entry from the opponent's Army Book (this may also be a Character, but not a Character Mount). Models of all units from this unit entry in the enemy army (even if there is more than one such unit) are considered "marked".

For attacks allocated either towards marked models, or towards models joined to units with more than half of their models marked, Questing Knights gain Lethal Strike and must reroll failed to-wound rolls.

**War Platform:** Unless selected as a mount for a Character, a model with War Platform gains Not a Leader and Character, with the following exceptions:

- It does not count towards the Characters category (for Army List creation).
- It cannot Issue Duels, Accept Duels or Make Way.
- It can perform Swirling Melee.
- It does not count as a Character regarding Bodyguard and Multiple Wounds.

The model can join units even if it has Towering Presence, and having Chariot does not prevent it from joining units without Chariot. When joined to a unit, it must always be placed in the centre of the front rank, possibly pushing back other models with Front Rank, and must keep its position in the centre of the front rank at all times (as long as it is joined to the unit). If two positions are equally central (e.g. in a unit with an even number of models in the first rank and a War Platform replacing an uneven number of models per rank), the War Platform can be placed in either of these positions. If the War Platform cannot be placed in the centre of the front rank (e.g. due to Mismatching Bases or the front rank being too narrow), the model cannot join the unit. This means that a War Platform can never join a unit with Mismatching Bases and that only a single War Platform can be in the same unit unless noted otherwise.

**Wizard Apprentice:** - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection
