Apply this effect before other to-hit and to-wound modifiers.

Magic items

Crown of Autocracy: The model's range of Commanding Presence (if available) is increased by 3", up to a maximum of 18". If the model does not have Commanding Presence, it gains Commanding Presence whose range is always set to 3".

Pan of Protection Pinchin': When successfully wounded, the bearer may choose to use the attacker's Armour value and/or its Special Save:

- Use the Armour value that the attacking model would have against the attack that inflicted the wound (including Conditional Application, modifiers, etc.). If so, the bearer cannot use its own Armour (including any modifiers), if available.
- Use the Special Save that the attacking model would have against the attack that inflicted the wound (including Conditional Application, modifiers, etc.). If so, the bearer cannot use its own Special Save (including any modifiers), if available.

In addition, when the bearer's unit is the target of a spell, the bearer gains the same Magic Resistance as the Caster of the spell.

Sceptre of Power: One use only. A Wizard with this Artefact may add a single Magic Dice from its Magic Dice pool to one of its casting rolls or dispelling rolls, after seeing the casting or dispelling roll (note that casting rolls cannot exceed the limit of max 5 Magic Dice).

Skull Fetish: At the start of any friendly Magic Phase, add X Veil Tokens to your pool, where X is the number of friendly units Engaged in Combat minus the number of friendly Fleeing units. You cannot gain more than 3 Veil Tokens this way. These tokens are in addition to Veil Tokens gained from other sources. The Skull Fetish can never cause a loss of Veil Tokens.

Magic banners

Banner of the Relentless Company: One use only. May be activated during the owner's Movement Phase. All Infantry models in the bearer's unit always have March Rate 15", until the end of the Player Turn. Only a single Banner of the Relentless Company may be activated during the same phase.

Model Rules

Born to Fight: Close Combat.

The model part's Close Combat Attacks gain +1 Strength and +1 Armour Penetration during a Round of Combat

- If it is the First Round of Combat.
- Or if the model part's unit is Steadfast at the start of the Round of Combat.

Bow:

Cave Goblin: The model gains Insignificant.

Common Goblin: The model gains Insignificant.

Common Orc: The model part gains Born to Fight.

Crossbow: Range 30" Shots 1 Strength 4 Armour Penetration 1 Unwieldy

Crush Attack:

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

Feigned Flight: A unit consisting solely of models with Feigned Flight that voluntarily chooses to Flee as a Charge Reaction, and subsequently passes a Rally Test in its next Player Turn, doesn't become Shaken. Furthermore, the Reform that is made after Rallying in this case doesn't prevent the unit from moving nor from shooting (but it still counts as having moved for shooting purposes). This rule cannot be applied if a unit fails to rally on the next friendly Player Turn or involuntarily Flees, such as a result of a failed Panic Test or if it was already Fleeing when being charged.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is

considered to be mounted.

Heavy Armour: +2 Armor

Impact Hits: At Initiative Step 10, a charging model part with Impact Hits must choose an enemy unit that is in base contact with the attacking model's Front Facing. This unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the attacking model part's Strength and Armour Penetration. If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). In multipart models, only model parts that also have Harnessed or Inanimate can use their Impact Hits. When several models in the same unit have Impact Hits, and when X is a random number (e.g. Impact Hits (D6)), roll for the number of hits separately for each model part.

Inanimate: Inanimate - Melee

Model parts with Inanimate cannot make Close Combat Attacks and cannot use Shooting Weapons. Shooting Weapons carried by model parts with Inanimate can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate).

Insignificant:

Light Armour: Armor +1

Light Lance:

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Oi it bites!: Units with model with Oi it bites! cannot be joined by Characters.

Poison Attacks: If the attack successfully hits with a natural to-hit roll of '6', it automatically wounds with no to-wound roll needed. Shooting Attacks using the Hopeless Shot can only automatically wound if the first to-hit roll is a natural '6'. Note that the second to-hit roll must still be successful in order to hit the target. If the attack can be turned into more than one hit (e.g. a hit with Area Attack, Battle Focus, or Penetrating), only a single hit, chosen by the attacker, automatically wounds. All other hits must roll to wound as normal.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Smash 'Em Flat: Universal Rule.

Natural to-wound rolls of '1' with Melee Attacks from units within 6" of a friendly Great Green Idol must be rerolled.

Break Tests taken by units within 6" of one or more friendly Engaged Great Green Idols are subject to Minimised Roll.

Supernal:

Swiftstride: When a unit composed entirely of models with Swiftstride rolls Charge Range, Flee Distance, Pursuit Distance or Overrun Distance, it rolls an additional D6 (normally this will lead to rolling 3D6) and discards the lowest D6 rolled.

They're Everywhere!: Special Attack.

When a Gnasher Herd Breaks from Combat, it is removed as a casualty at the end of step 7 of the Round of Combat Sequence (after taking Break Tests), and all units within 6" suffer 1 hit for every 5 Gnashers in the Gnasher Herd, rounding fractions down. Hits are resolved with Strength 5 and Armour Penetration 2.

Vanguard: After Deployment (including units with Scout), models with Vanguard may perform a 12" move. The move is performed as an Advance Move in the Movement Phase, including any actions and restrictions the unit would normally have (such as Wheeling, Reforming, joining units, leaving units and so on). The 12" distance is used instead of the unit's Advance Rate and March Rate. This move cannot be used to move within 12" of enemy units. This is decreased to 6" for enemy units which have either Scouted or Vanguarded. Units that have moved in this way may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have units with Vanguard, alternate moving units one at a time, starting with the player that finished deploying last. Instead of moving a unit, a player may declare to not move any more Vanguarding units.

Wizard Apprentice: - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection
