<i>Whenever a model that is the target of this spell inflicts a Health Point loss against an enemy unit, the model's unit suffers 1 hit with Strength 4, Armour Penetration 2, and Magical Attacks. These hits are considered Ranged Attacks that are distributed by the attacking unit's owner. Only consider Health Point losses caused by Close Combat Attacks, Shooting Attacks, Special Attacks, and spells with duration Instant for this purpose. No Health Pool can generate more hits this way than it had Health Points before the Health Point loss.</i>				

Model Rules

Academy Training: Units with more than half of their models with Academy Training are considered Academy Trained. While within 8" of one or more other non-Fleeing, friendly Academy Trained units, Academy Trained units:

- Gain Devastating Charge (+1" Adv) when declaring their first Charge in any Charge Phase. The effect lasts until the end of the Charge Phase. Characters without Academy Training that Charge out of the unit are not affected.
- Count as having one additional Full Rank for the purpose of Steadfast and Disrupted if they have at least one Full Rank.

Breath Attack:**Coastal Predator:** Universal Rule.

While the centre of the model's base is inside a Water Terrain Feature, the model gains Devastating Charge (+2" Adv) and Hard Target (1).

Cut one off...: Universal Rule.

For each successful Fortitude Save roll of a natural '6', the model disregards another simultaneously suffered wound. If there aren't enough simultaneously suffered wounds to disregard, the model immediately Recovers 1 Health Point instead.

Distracting: Close Combat Attacks allocated towards a model with Distracting suffer a -1 to-hit modifier. This to-hit modifier cannot be combined with any other negative to-hit modifiers.

Fortitude: Fortitude is a Special Save. Fortitude Saves cannot be taken against attacks with Lethal Strike that rolled a natural 6+ to wound, or against attacks with Flaming Attacks

Hard Target:

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is considered to be mounted.

Hatred: During the first Round of Combat, failed to-hit rolls from attacks with Hatred must be rerolled.

Heavy Armour: +2 Armor

Impact Hits: At Initiative Step 10, a charging model part with Impact Hits must choose an enemy unit that is in base contact with the attacking model's Front Facing. This unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the attacking model part's Strength and Armour Penetration. If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). In multipart models, only model parts that also have Harnessed or Inanimate can use their Impact Hits. When several models in the same unit have Impact Hits, and when X is a random number (e.g. Impact Hits (D6)), roll for the number of hits separately for each model part.

Inanimate: Inanimate - Melee

Model parts with Inanimate cannot make Close Combat Attacks and cannot use Shooting Weapons. Shooting Weapons carried by model parts with Inanimate can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate).

Lethal Strike: If the attack wounds with a natural to-wound roll of 6+, its Armour Penetration is set to 10 and the target of the attack cannot take a Regeneration save against it.

Light Armour: Armor +1

Lightning Reflexes: Close Combat

A Close Combat Attack with Lightning Reflexes gains a +1 to-hit modifier. Model parts with this Attack Attribute wielding Great Weapons do not gain this +1 to-hit modifier, but strike with the Great Weapon at the Initiative Step corresponding to their Agility instead of always striking at Initiative Step 0.

Multiple Wounds: Attacks & Weapons, Melee

Unsaved wounds caused by the attacks are multiplied into the value given in brackets (X). If the value is a dice (e.g. Multiple Wounds (D3)), roll one dice for each unsaved wound with Multiple Wounds. The amount of wounds that the attack is multiplied into can never be higher than the Health Points Characteristic of the target (excluding Health Points lost previously in the battle). For example, if a Multiple Wounds (D6) attack wounds a unit of Trolls (HP 3) and rolls a '5' for the multiplier, the number of unsaved wounds is reduced to 3, even if the Troll unit has already lost one or two Health Points previously in battle.

If Clipped Wings is stated after the X value in brackets, any unsaved wound caused by the attack against a model with Fly is multiplied into X+1 instead of X.

Poison Attacks: If the attack successfully hits with a natural to-hit roll of '6', it automatically wounds with no to-wound roll needed. Shooting Attacks using the Hopeless Shot can only automatically wound if the first to-hit roll is a natural '6'. Note that the second to-hit roll must still be successful in order to hit the target. If the attack can be turned into more than one hit (e.g. a hit with Area Attack, Battle Focus, or Penetrating), only a single hit, chosen by the attacker, automatically wounds. All other hits must roll to wound as normal.

Rage - Hydra: Attack Attribute – Close Combat.

Whenever the model loses a Health Point, it gains +1 Attack Value. Whenever it gains a Health Point, it suffers -1 Attack Value.

Ruthless Efficiency: Close Combat

The attack gains +1 to wound during the First Round of Combat.

Scent of Blood: The model gains Fearless and Frenzy while Engaged in Combat. In addition, the model gains Devastating Charge (+1" Adv) with the following restrictions:

- The Charged unit has at least one Health Pool that contains fewer Health Points than it did when the unit was deployed or otherwise entered the Battlefield.
- The effect ends immediately before the unit declares a new Charge.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

Spear:

Swiftstride: When a unit composed entirely of models with Swiftstride rolls Charge Range, Flee Distance, Pursuit Distance or Overrun Distance, it rolls an additional D6 (normally this will lead to rolling 3D6) and discards the lowest D6 rolled.

You can print this page to have all your army's units qrcode and cut them to stick them on your units, with them you can directly access to the unit's profil with your phone.
