If one or more unsaved wounds are caused, the target suffers -1 to hit with its Shooting Attacks. This spell is immediately ended when the target performs an Advance, March, Charge, Failed Charge, or Pursuit Move.

### Magic items

**Crown of Autocracy:** The model's range of Commanding Presence (if available) is increased by 3", up to a maximum of 18". If the model does not have Commanding Presence, it gains Commanding Presence whose range is always set to 3".

**Hero's Heart:** The wielder of this enchanted weapon gains +1 Attack Value while using it. Attacks made with this enchanted weapon become Magical Attacks and always have at least Strength 5 and at least Armour Penetration 3.

### Magic banners

**Banner of Speed:** A unit with one or more Banners of Speed gains +1" Advance Rate and +2" March Rate.

**Banner of the Gyengget:** In the First Round of Combat, natural to-hit, to-wound, and Armour Save rolls of '1' from the bearer's unit must be rerolled, including Special Attacks.

**Pennant of the Great Grass Sky:** The bearer's unit gains Swiftstride.

**Skull of Qenghet:** The bearer's unit gains Fear and automatically passes Panic Tests caused by Terror.

### Model Rules

**Fear:** Units in base contact with one or more enemy models with Fear suffer -1 Discipline. At the start of each Round of Combat, such units must take a Discipline Test, called a Fear Test. If this test is failed, the models in the unit are Shaken until the end of the Round of Combat. Models that have Fear themselves are immune to the effects of Fear.

**Giant See, Giant Do:** Universal Rule.

The model gains Sons of the Avalanche and counts as a Character for the purpose of Sons of the Avalanche.

The model is a Musician. The range of the Giant's March to the Beat, and to enemy units that are required to take a March Test due to the Slave Giant, are both extended to 18".

**Great Weapon:** Attacks made with a Great Weapon gain +2 Strength, +2 Armour Penetration and always strike at Initiative Step 0 (regardless of the wielder's Agility). A model using this weapon cannot simultaneously use a Shield against Melee Attacks

**Hand Weapon:** All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

**Hard Target:**

**Harnessed:** Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is considered to be mounted.

**Heavy Armour:** +2 Armor

**Impact Hits:** At Initiative Step 10, a charging model part with Impact Hits must choose an enemy unit that is in base contact with the attacking model's Front Facing. This unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the attacking model part's Strength and Armour Penetration. If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). In multipart models, only model parts that also have Harnessed or Inanimate can use their Impact Hits. When several models in the same unit have Impact Hits, and when X

is a random number (e.g. Impact Hits (D6)), roll for the number of hits separately for each model part.

**Inanimate:** Inanimate - Melee

Model parts with Inanimate cannot make Close Combat Attacks and cannot use Shooting Weapons. Shooting Weapons carried by model parts with Inanimate can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate).

**Insignificant:**

**It's A Trap!:** Universal Rule.

Each unit of Scrapling Trappers may place a Trap Counter:

- Right before the battle (during step 7 of the Deployment Phase Sequence), on a single Terrain Feature other than Open Terrain that the unit was deployed in or was in contact with at any point during its Vanguard move
- Once during each friendly Movement Phase, on a single Terrain Feature other than Open Terrain that the unit was in contact with during an Advance Move, March Move, or a Reform in this phase.

If an enemy unit performs an Advance Move, March Move, Reform, Pivot, Charge Move, Failed Charge Move, Pursuit Move, or Flee Move inside or into contact with a Terrain Feature with one or more Trap Counters, remove all Trap Counters in that particular Terrain Feature. Each model in the unit must take a Dangerous Terrain (1) Test. These tests are not considered to be caused by the Terrain Feature; any Dangerous Terrain Tests that would normally be caused by the Terrain Feature still need to be taken.

**Light Armour:** Armor +1

**Light Troops:** Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

**Paired Weapons:** The wielder gains +1 Attack Value when using Paired Weapons. Attacks made with Paired Weapons gain +1 Offensive Skill and ignore Parry. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.

**Rage:** Attack Attribute - Close Combat.

Whenever the model loses a Health Point, it gains +1 Attack Value. Whenever it gains a Health Point, it suffers -1 Attack Value.

**Scoring:** Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

**Scout:** At step 8 of the Pre-Game Sequence (after Spell Selection) an army that includes units with Scout must state which of its units with Scout will use it, starting with the player that picked the Deployment Zone. Deploy your army as usual, but without deploying any of the Scouting units. These units are placed after all other non-Scouting units have been deployed. They can either be deployed in your Deployment Zone, using the normal rules, or they can be deployed outside the Deployment Zone, but must be more than 18" away from any enemy units. This is decreased to 12" if the Scouting unit is deployed entirely within a Forest, Ruins, Field, Building, or Water Terrain Feature. Scouting units that are deployed outside their player's Deployment Zone may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have Scouting units, alternate deploying one unit at a time, starting with the player that finished deploying first.

**Scrapling Lookout:** If a unit includes a Standard Bearer or a Battle Standard Bearer with Scrapling Lookout, R&F models must be fewer than 3 before hits can be distributed onto Characters with the same Type and Size as the unit.

**Skirmisher:** The model can draw Lines of Sight in any direction (i.e. it is not limited by the Front Arc) from any point on its base (remember that Charge Moves are limited by a single Wheel of no more than 90°, and that Stand and Shoot Charge Reactions can only be done against enemies in the Front Arc) and can always use Shooting Attacks from any rank (they are not limited to shooting from first and second rank).

Units with at least one R&F model with Skirmisher are formed into a skirmish formation. They are not placed in base to base contact with each other. Instead, models are placed with a 12.5 mm distance between them. This gap is considered part of the unit for Cover purposes, and will have the same Size as the models in the unit. Other than this gap between models, units with Skirmisher follow the normal rules for forming units and therefore have a Front, two Flanks, a Rear, can perform Supporting Attacks, and so on. Units in skirmish formation gain Hard Target and Light Troops, never block Line of Sight, and when units in skirmish formation would contribute to Hard Cover, they contribute to Soft Cover instead.

**Sons of the Avalanche:** The model part gains Impact Hits (1). If its unit has 2 or more Full Ranks, the model part gains Impact Hits (2). A Character with Sons of the Avalanche instead gains Impact Hits (D3), or Impact Hits (D3+1) if its unit has 2 or more Full Ranks. In addition, the model is immune to the effects of Fear of enemy models.

**Swiftstride:** When a unit composed entirely of models with Swiftstride rolls Charge Range, Flee Distance, Pursuit Distance or Overrun Distance, it rolls an additional D6 (normally this will lead to rolling 3D6) and discards the lowest D6 rolled.

**Throwing Weapons:** Range 8", Shots 2, FO Same as user, AP Same as user, Accurate, Quick to Fire

**Thunder Cannon:** This weapon can be fired in two ways:

- As a Cannon Artillery Weapon:

Range 48", Shots 1, Str 5[10], AP 2[10], Area Attack (5×1), [Multiple Wounds (D3+1, Clipped Wings)].

- As a Volley Gun Artillery Weapon:

Range 12", Shots 2D6, Str 5, AP 4.

A Thunder Cannon that only Pivots (and moves no further) during its owner's Movement Phase ignores the to-hit modifier from Moving and Shooting in the next Shooting Phase.

**Touch of Frost:** Universal Rule.

Enemy units suffer -1 Agility, to a minimum of 1 for each unit of Yetis in base contact with them.

**Vanguard:** After Deployment (including units with Scout), models with Vanguard may perform a 12" move. The move is performed as an Advance Move in the Movement Phase, including any actions and restrictions the unit would normally have (such as Wheeling, Reforming, joining units, leaving units and so on). The 12" distance is used instead of the unit's Advance Rate and March Rate. This move cannot be used to move within 12" of enemy units. This is decreased to 6" for enemy units which have either Scouted or Vanguarded. Units that have moved in this way may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have units with Vanguard, alternate moving units one at a time, starting with the player that finished deploying last. Instead of moving a unit, a player may declare to not move any more Vanguarding units.

**Wizard Apprentice:** - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.  
The Wizard selects its spells as described in Spell Selection
