Magics

Racial Trait Spell

During Spell Selection, if a Wizard from Empire of Sonnstahl either selects the Hereditary Spell or gains it by any other means, it must instead choose a single Path from the ones available to it other than its own chosen Path. The Wizard gains the Learned Spell #1 from that Path.

Cosmology

Duality: All Cosmology spells are divided into two versions, representing opposing aspects; Cosmos and Chaos. When casting Cosmology spells, always declare which version of the spell you are using. Whenever the Caster successfully casts a non-Bound Cosmology spell, the next Cosmology spell it attempts to cast has its Casting Value reduced by 1, provided this spell is a Cosmology spell of the opposing aspect.

Magic items

Crown of the Wizard King: During Spell Selection, randomise a Magic Path (from all Paths in this book). The bearer is a Wizard Apprentice using the randomised Path. It cannot select the Hereditary Spell. The bearer cannot take any Special Items nor any other upgrades that are restricted to Wizards (or any types of Wizards).

Death Warrant: Attacks made with this weapon gain **Battle Focus** and become **Magical Attacks**. If a hit is scored with it against an enemy unit, friendly models with Parent Unit or Support Unit gain **Battle Focus** with attacks allocated towards the same enemy unit in the same phase in subsequent Initiative Steps.

Hammer of Witches: The bearer's Attack Value is set to 5 while using this weapon, and attacks made with it gain **Battle Focus (against Channel)** and become **Magical Attacks**.

Lucky Charm: One use only. May be activated when the bearer's model fails an Armour Save. This failed Armour Save may be rerolled.

Talisman of Shielding: The bearer gains Aegis (5+).

The Light of Sonnstahl: Attacks made with this weapon wound automatically, **always** have Armour Penetration 10, and become **Magical Attacks**.

Witchfire Guard: The bearer gains **Aegis (4+, against Magical Attacks)** while using this Shield.

Magic banners

Banner of Speed: A unit with one or more Banners of Speed gains +1" Advance Rate and +2" March Rate.

Banner of the Relentless Company: One use only. May be activated during the owner's Movement Phase. All Infantry models in the bearer's unit always have March Rate 15", until the end of the Player Turn. Only a single Banner of the Relentless Company may be activated during the same phase.

Model Rules

Blessings: The model part and all model parts in the same unit, except model parts with Harnessed gain Hatred. The model can cast the following three Bound Spells with Power Level (4/8) with Type: Caster's Unit and Augment, and Duration: Lasts One Turn:

- "Ullor's Blessing"

The target gains Aegis (5+) against Melee Attacks

- "Sunna's Blessing"

The target gains Flaming Attacks. All enemy units in base contact with one or more targets of this spell, when the spell is cast, suffer D6 hits with Strength 4, Armour Penetration 1, Flaming Attacks, and Magical Attacks.

- "Volund's Blessing"

The target must reroll failed to-wound rolls with Melee Attacks.

Bodyguard: When a Character is joined to a unit in which at least one model has Bodyguard, that Character gains Stubborn. When Characters or Character types are stated in brackets, Bodyguard only works for the specified Characters or Character types.

Channel: During step 3 of the Magic Phase Sequence, each of the Active Player's models with Channel may add X Veil Tokens to the owner's Veil Token Pool. This Universal Rule is cumulative, adding X Veil Tokens of each independent instance of Channel to the model's total Channel value (so e.g. a model with Channel (1) and Channel (2) is treated like a model with Channel (3)).

Divine Attacks: Successful Aegis saves taken against the attack must be rerolled.

Feigned Flight: A unit consisting solely of models with Feigned Flight that voluntarily chooses to Flee as a Charge Reaction, and subsequently passes a Rally Test in its next Player Turn, doesn't become Shaken. Furthermore, the Reform that is made after Rallying in this case doesn't prevent the unit from moving nor from shooting (but it still counts as having moved for shooting purposes). This rule cannot be applied if a unit fails to rally on the next friendly Player Turn or involuntarily Flees, such as a result of a failed Panic Test or if it was already Fleeing when being charged.

Fire on Impact!: Attack Attribute - Close Combat.

A charging model part with Fire on Impact! using a Pistol, a Brace of Pistols, or a Repeater Pistol always strikes at Initiative Step 10, and has the Strength of its Close Combat Attacks set to 4 and their Armour Penetration set to 2 (regardless of the user's Agility, Strength, and Armour Penetration).

First Knight: When the model is joined to a unit of Knightly Orders, the unit gains Fearless, and if the model is the General, the R&F models in the unit also gain Parent Unit.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is considered to be mounted.

Heavy Armour: +2 Armor

Knightly Orders: Universal Rule.

The model gains +1 Defensive Skill, and the Knight gains +1 Offensive Skill, +1 Strength, and +1 Armour Penetration. Knightly Orders cannot take Great Weapons.

Light Armour: Armor +1

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Parent Unit: A unit is considered a Parent Unit if at least half of its models have this Universal Rule. Parent Units treat all Support Units as Insignificant.

Immediately after a Parent Unit passes a Charge Range roll against a non-fleeing enemy unit in the Charge Phase, before performing the Charge Move, any Support Units within 6" of the Parent Unit may perform a support charge. To do so, the Support Unit Declares a Charge against the same enemy unit. Apply all of the usual rules for charging for this out-of-sequence charge (such as Line of Sight, Front Arc, must roll for Charge Range, max one Wheel, etc.), with the exception that the enemy cannot choose a Charge Reaction other than Hold. For the purpose of Charge Moves, treat this as any other case of Combined Charges. When calculating Combat Scores in the following Melee Phase, combine the Rank Bonus of both the Parent Unit and up to one Support Unit that performed a successful support charge (following all normal restrictions), up to a maximum of +6.

Plate Armour: +3 Armor

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Vanguard: After Deployment (including units with Scout), models with Vanguard may perform a 12" move. The move is performed as an Advance Move in the Movement Phase, including any actions and restrictions the unit would normally have (such as Wheeling, Reforming, joining units, leaving units and so on). The 12" distance is used instead of the unit's Advance Rate and March Rate. This move cannot be used to move within 12" of enemy units. This is decreased to 6" for enemy units which have either Scouted or Vanguarded. Units that have moved in this way may not Declare Charges in the first Player Turn (if their side has the first turn). If both players have units with Vanguard, alternate moving units one at a time, starting with the player that finished deploying last. Instead of moving a unit, a player may declare to not move any more Vanguarding units.

Wizard Apprentice: - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection
