Racial Trait Spell

Undying Dynasties do not have a regular Hereditary Spell. Instead, all Death Cult Hierarchs know the Hereditary Attribute Spell *Death is Only the Beginning* (in addition to Path Attributes). At step 1 of each Casting Attempt of a non-Attribute non-Bound Spell of type Augment with a Death Cult Hierarch, the owner may declare that the Wizard will cast an amplified version of the spell:

- The Casting Value of the amplified version is increased by 2.
- If the amplified version is successfully cast, *Death is Only the Beginning* is automatically cast (as an Attribute Spell).

	Casting	Range	Type	Duration
<i>A Death is Only the Beginning</i>				
<i>Mf</i>	-	See below*	Augment	Instant
<p><i>When resolving the spell, choose one of the following effects:</i></p> <ul style="list-style-type: none"> • <i>The R&F part of the target Raises a number of Health Points equal to its Resurrected value.</i> • <i>Up to one Character within the target Recovers a number of Health Points equal to its Resurrected value.</i> <p><i>Characters and models with Towering Presence cannot Recover more than 2 Health Points from this spell in a single Magic Phase.</i></p> <p><i>*The spell targets a single unit that was the target of the spell that triggered the Hereditary Attribute Spell.</i></p>				

Cosmology

Duality: All Cosmology spells are divided into two versions, representing opposing aspects: Cosmos and Chaos. When casting Cosmology spells, always declare which version of the spell you are using. Whenever the Caster successfully casts a non-Bound Cosmology spell, the next Cosmology spell it attempts to cast has its Casting Value reduced by 1, provided this spell is a Cosmology spell of the opposing aspect.

Magic items

Ankh of Naptesh: The bearer gains **Hierophant** and can never lose it. R&F models in the bearer's unit gain **Fortitude (6+)**.

Book of the Dead: The bearer can cast Death is Only the Beginning as a Bound Spell with Power Level (4/8) and the following modification: The spell's range is changed to 12" and Aura.

Godslayer: The wielder gains +1 Attack Value while using this weapon. Attacks made with this weapon become **Divine Attacks** and **Magical Attacks**, and gain **Multiple Wounds (2, against Aegis)** (note that the latter also applies against models with Aegis Saves with Conditional Application).

Scroll of Desiccation: After determining Deployment Zones (at the end of step 6 of the Pre-Game Sequence), choose a Field, Forest, or Water Terrain Feature. This Terrain Feature ceases to be the Terrain Feature it used to be and loses all its rules. It is treated as Dangerous Terrain (1) for all enemy units.

Magic banners

Aether Icon: The bearer gains Magic Resistance (1). If the unit contains a model with another instance of Magic Resistance, it increases that model's Magic Resistance value by 1 instead.

Model Rules

Aspen Bow: Shooting Weapon

Range 24", Shots 1, Str 3, AP 0, Volley Fire.

This weapon always hits on a roll equal to or greater than its Aim.

Bound in Death: R&F models in this unit **must** be fewer than 3 before hits can be distributed onto Characters with the same Type and Height as this unit.

Breath Attack:

Chariot Host: If the model part's unit has at least one Full Rank, and there is a model in the rank directly behind it (in the same file), its Impact Hits cause an additional hit (normally D3+2 instead of D3+1).

Charnel Catapult: Artillery Weapon.

This Artillery Weapon always hits on a roll equal to or greater than its Aim. It can be fired in two ways:

- Catapult (4×4), Range 12–60", Shots 1, Str 3 [7], AP 0 [4], [Multiple Wounds (D3, Clipped Wings)]
- Catapult (6×6), Range 12–48", Shots 1, Str 3, AP 0, Flaming Attacks, Magical Attacks. For the purpose of Panic Tests, a unit suffering one or more Health Point losses from this weapon is treated as having suffered 25% Health Point losses. Panic Tests caused by this weapon are taken at -1 Discipline.

Dust to Dust: At the end of any phase in which the Hierophant was removed as a casualty, every unit in the army with Dust to Dust **must** pass a Discipline Test or lose a number of Health Points equal to the amount by which the test was failed, with no saves of any kind allowed. These Health Point losses are allotted following the rules for Unstable. The number of Health Points lost is reduced by 1 if the unit is within range of Rally Around the Flag. At the end of the Player Turn in which the Hierophant was removed as a casualty, a new Hierophant may be selected. In order to do so, nominate a friendly Wizard Character. This Character becomes the new Hierophant. At the start of each friendly Player Turn after the army's Hierophant has been removed as a casualty and no new Hierophant has been selected, every unit with Dust to Dust **must** once again pass a Discipline Test or lose Health Points as described above.

Ensouled Statue: The model gains **Undead** and **Dust to Dust**. If more than half of the models in a unit have Ensouled Statue, reduce the number of Health Points lost by

this unit due to Dust to Dust and Unstable by 1.

Fear: Units in base contact with one or more enemy models with Fear suffer -1 Discipline. At the start of each Round of Combat, such units must take a Discipline Test, called a Fear Test. If this test is failed, the models in the unit are Shaken until the end of the Round of Combat. Models that have Fear themselves are immune to the effects of Fear.

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

Flammable:

Halberd: Attacks made with a Halberd gain +1 Strength and +1 Armour Penetration. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is considered to be mounted.

Heavy Armour: +2 Armor

Impact Hits: At Initiative Step 10, a charging model part with Impact Hits must choose an enemy unit that is in base contact with the attacking model's Front Facing. This unit suffers a number of hits equal to the value stated in brackets (X). These hits are resolved with the attacking model part's Strength and Armour Penetration. If a model has both Grind Attacks and Impact Hits, it may only use one of these rules in the same Round of Combat (its controlling player may choose which). In multipart models, only model parts that also have Harnessed or Inanimate can use their Impact Hits. When several models in the same unit have Impact Hits, and when X is a random number (e.g. Impact Hits (D6)), roll for the number of hits separately for each model part.

Inanimate: Inanimate - Melee

Model parts with Inanimate cannot make Close Combat Attacks and cannot use Shooting Weapons. Shooting Weapons carried by model parts with Inanimate can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate).

Lethal Strike: If the attack wounds with a natural to-wound roll of 6+, its Armour Penetration is set to 10 and the target of the attack cannot take a Regeneration save against it.

Light Armour: Armor +1

Light Lance:

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Move or Fire: The attack may not be used if the attacking model has made an Advance Move, March Move, Reform or Pivot during the current Player Turn.

Mummy's Curse: When the model with Mummy's Curse is removed as a casualty, it immediately inflicts 1 hit with Strength 6 and Armour Penetration 10 on the model that caused the final Health Point loss. This is considered a Ranged Attack. If more than one model was part of the action which brought the downfall of the model with Mummy's Curse, randomise which of those models suffers the hit.

Poison Attacks: If the attack successfully hits with a natural to-hit roll of '6', it automatically wounds with no to-wound roll needed. Shooting Attacks using the Hopeless Shot can only automatically wound if the first to-hit roll is a natural '6'. Note that the second to-hit roll must still be successful in order to hit the target. If the attack can be turned into more than one hit (e.g. a hit with Area Attack, Battle Focus, or Penetrating), only a single hit, chosen by the attacker, automatically wounds. All other hits must roll to wound as normal.

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

Swiftstride: When a unit composed entirely of models with Swiftstride rolls Charge Range, Flee Distance, Pursuit Distance or Overrun Distance, it rolls an additional D6 (normally this will lead to rolling 3D6) and discards the lowest D6 rolled.

Undead: The model gains Unstable. Models with Undead cannot perform March Moves, unless their unit starts the March Move within the range of a friendly model's Commanding Presence. The only Charge Reaction a unit with one or more models with Undead can make is Hold.

When units consisting entirely of models with Undead lose Health Points due to Unstable, the number of lost Health Points can be reduced in some situations. Apply the modifiers in the following order:

1. If the unit is Stubborn, halve the number of lost Health Points (round fractions up).
2. If the unit is Steadfast, reduce all lost Health Points above 12 to 12.
3. If the unit receives Rally Around the Flag, reduce the number of lost Health Points with the unit's current Rank Bonus. Units with no Rank Bonus reduce the number of Health Points lost by 1 instead.
4. Apply all other modifiers (from Special Equipment, Model Rules, spells, etc.) afterwards.

Underground Ambush: The model follows the rules for Ambush, with the following exception. Instead of entering the Battlefield from the Board Edge: 1. Choose an arriving unit with Underground Ambush. 2. Place the unit anywhere on the Battlefield in a legal formation more than 1" from other units, Impassable Terrain, and the Board Edge. 3. Roll a D6: • If 5-6 is rolled, the unit arrives where it was initially placed. • If 1-4 is rolled, move the unit (without changing the direction it is facing) 2D6" in a randomly chosen direction. If this would bring the unit within 1" of other units, Impassable Terrain, or the Board Edge, the unit stops 1" short of them and each model in the Ambushing unit **must** take a Dangerous Terrain (1) Test. The unit may then perform a Pivot (and must follow the Unit Spacing rule after the Pivot). None of these manoeuvres prevent the unit from moving following the rules for Ambush afterwards. 4. Repeat steps 1-3 for all other arriving units with Underground Ambush.

Undying Will: Units with one or more models with Undying Will gain +2 Offensive Skill, +2 Defensive Skill, **Lethal Strike**, and replace their Shooting Weapons' Aim with (4+). Characters, Beasts, models with Ensouled Statue, and model parts with Harnessed are not affected by Undying Will.

War Machine: The model cannot Pursue, Declare Charges or Declare Flee as Charge Reaction. Characters can never join units with War Machines, and Characters with War Machine cannot join units at all.

When a War Machine fails a Panic Test, instead of Fleeing it is Shaken until the end of the next Player Turn. War Machines that fail a Break Test are automatically destroyed. War Machines and units Engaged in Combat with them cannot make Combat Reforms.

When a unit charges a War Machine, it can move into base contact by having its Front Facing contact any point of the War Machine's base (it must still maximise the number of models in base contact, see subsection II.1.A "Bases and Base Contact", page 4 and Figure 1 page 4). No Align Move is allowed. Ignore the War Machine's Facing, as it does not have any due to its round base.

Wizard Apprentice: - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection
