Magics

Racial Trait Spell

During Spell Selection, if a Wizard from Empire of Sonnstahl either selects the Hereditary Spell or gains it by any other means, it must instead choose a single Path from the ones available to it other than its own chosen Path.
The Wizard gains the Learned Spell #1 from that Path.

	<i>Casting</i>	<i>Range</i>	<i>Type</i>	<i>Duration</i>
Liberal Magics				
<i>Mf</i>	-			Remains in play

Divination

The Conclave: Spells from Divination gain +3" range up to a maximum of +9" for each additional friendly Wizard within 12" of the Caster.
This bonus can never increase the combined modifier beyond +9", however other sources may.

		<i>Casting</i>	<i>Range</i>	<i>Type</i>	<i>Duration</i>	<i>Effect</i>
5	Unerring Strike	7+ [10+]	18"	Hex, Missile, Damage	Instant	The target suffers 2D6 [3D6] hits that wound on 4+ with Armour Penetration 1, Divine Attacks and Magical Attacks.
3	Scrying	7+ [12+]	18" [6"Aura]	Augment	Last one Turn	The target gains Distracting and Hard Target.
4	The Stars Align	8+ [12+]	18" [6"Aura]	Augment	Last one Turn	The target gains Divine Attacks. In addition, it must reroll failed to-hit rolls with Close Combat and Shooting Attacks.
6	Portent of Doom	8+	24"	Hex	Permanent	When calculating Combat Score, a side with units containing at least one model affected by the spell suffers -X to its Combat Score (for each affected unit and instance of the spell), where X is equal to the number of Characters in the unit, increased by 1 if the unit contains any R&F models. A Character leaving a unit that was the target of the spell no longer is affected by the spell, unless the Character was a single model unit that was the initial target of the spell.
1	Know Thy Enemy	7+ [12+]	18" [6"Aura]	Augment	Last one Turn	The target gains +2 Offensive Skill, +2 Defensive Skill, and +2 Agility.

		<i> Casting </i>	<i> Range </i>	<i> Type </i>	<i> Duration </i>	<i> Effect </i>
<i> A </i>	Guiding Light		12"	Augment	Last one Turn	Discipline Tests of units with all models affected by the spell are subject to Minimised Roll. A unit cannot be affected by this spell more than once per Magic Phase.
2	Fate's Judgement	5+ [9+]	18"	Hex, Missile, Damage	Instant	The target suffers D3 [D6] hits that wound automatically with Armour Penetration 0 and Magical Attacks, with no Special Saves allowed (note that Armour Saves are allowed).

Magic items

Basalt Infusion: The wearer gains +1 Armour and Aegis (3+, against Flaming Attacks). The wearer automatically fails all Fortitude Saves.

Blacksteel: The wearer gains +1 Armour and **Fear**. If taken by a model on foot, the wearer gains an additional +1 Armour.

Crystal Ball: The firsts Dispelling Attempt in each enemy Magic Phase gains a +2 Dispelling Modifier, provided the bearer is on the Battlefield.

Hero's Heart: The wielder of this enchanted weapon gains +1 Attack Value while using it. Attacks made with this enchanted weapon become Magical Attacks and always have at least Strength 5 and at least Armour Penetration 3.

Locket of Sunna: When fighting a Duel, choose a single model part with neither Harnessed nor Inanimate that the bearer is fighting with. The bearer and the chosen model part **must** swap their unmodified Characteristic values of Strength, Armour Penetration, Resilience, Agility, and Attack Value. This is done before applying other modifiers. If the chosen model part does not have a Defensive Profile of its own, use the Multipart Model's Defensive Profile instead.

Potion of Strength: One use only. May be activated at the start of any phase or Round of Combat. Until the end of the Player Turn the bearer gains Crush Attack.

Shield of Volund: While using this Shield, attacks against the bearer's model with **Lethal Strike** and/or **Battle Focus** lose these Attack Attributes.

Winter Cloak: The bearer gains **Aegis (2+, against Flaming Attacks)**, **Aegis (5+)**, and **Distracting**. The bearer automatically fails all Fortitude Saves.

Magic banners

Stalker's Standard: The bearer's unit gains Strider.

Model Rules

Battle Focus: If the attack hits with a natural to-hit roll of '6', the attack causes two hits instead of one.

Blessings: The model part and all model parts in the same unit, except model parts with Harnessed gain Hatred. The model can cast the following three Bound Spells with Power Level (4/8) with Type: Caster's Unit and Augment, and Duration: Lasts One Turn:

- "Ullor's Blessing"

The target gains Aegis (5+) against Melee Attacks

- "Sunna's Blessing"

The target gains Flaming Attacks. All enemy units in base contact with one or more targets of this spell, when the spell is cast, suffer D6 hits with Strength 4, Armour Penetration 1, Flaming Attacks, and Magical Attacks.

- "Volund's Blessing"

The target must reroll failed to-wound rolls with Melee Attacks.

Bodyguard: When a Character is joined to a unit in which at least one model has Bodyguard, that Character gains Stubborn. When Characters or Character types are stated in brackets, Bodyguard only works for the specified Characters or Character types.

Bow:

Cannon of empire: This Artillery Weapon can be fired in two ways:

- As a Cannon Artillery Weapon:

Range 72", Shots 1, Str 3[10], AP 0[10], Area Attack (5x1), [Multiple Wounds (D3+1, Clipped Wings)].

- As a Volley Gun Artillery Weapon:

Range 12", Shots 2D6, Str 4, AP 4.

Channel: During step 3 of the Magic Phase Sequence, each of the Active Player's models with Channel may add X Veil Tokens to the owner's Veil Token Pool. This Universal Rule is cumulative, adding X Veil Tokens of each independent instance of Channel to the model's total Channel value (so e.g. a model with Channel (1) and Channel (2) is treated like a model with Channel (3)).

Divine Attacks: Successful Aegis saves taken against the attack must be rerolled.

Engineer: Once per Shooting Phase, an unengaged Engineer may select a single War Machine within 6" that has not fired yet to gain the following effects:

- Replace the Aim of one of the War Machine's Artillery Weapons with the value given in brackets (X+).

- You may reroll the roll on the Misfire Table.

- You may reroll the dice (all of them or none) for determining the number of hits of a Flamethrower Artillery Weapon.

Fanatical: When a model with Fanatical is killed by a Melee Attack during any Initiative Step of a Round of Combat it is fighting, remove it as a casualty only at the end of Initiative Step 0.

Fear: Units in base contact with one or more enemy models with Fear suffer -1 Discipline. At the start of each Round of Combat, such units must take a Discipline Test, called a Fear Test. If this test is failed, the models in the unit are Shaken until the end of the Round of Combat. Models that have Fear themselves are immune to the effects of Fear.

Fearless: If more than half of a unit's models are Fearless, the unit automatically passes Panic Tests and Decimated Tests and cannot declare a Flee Charge Reaction (unless already Fleeing). Models that are Fearless are also immune to the effects of Fear.

First Knight: When the model is joined to a unit of Knightly Orders, the unit gains Fearless, and if the model is the General, the R&F models in the unit also gains Parent Unit.

Frenzy: A unit with at least half its models with Frenzy cannot choose Flee as Charge Reaction, and when taking Discipline Tests, apply the following:

- If it is a Panic Test, Decimated Test or Fear Test: the unit gains +2 Discipline.
- If it is a Break Test, roll the test as normal.
- If it is anyother Discipline Test, the unit suffers -2Discipline.

At the start of the Charge Phase, each of your units with at least one model with Frenzy that could Declare a Charge against an enemy unit within the unit's Advance Rate +7" (using the lowest Advance Rate among the unit's models; if a model has more than 1 Advance Rate available, use the highest one) must take a Discipline Test, called a Frenzy Test. If the test is failed, the whole unit must Declare a Charge this Player Turn. Note that Characters are never forced to charge out of their units.

Great Weapon: Attacks made with a Great Weapon gain +2 Strength, +2 Armour Penetration and always strike at Initiative Step 0 (regardless of the wielder's Agility). A model using this weapon cannot simultaneously use a Shield against Melee Attacks

Hand Weapon: All models come equipped with a Hand Weapon as their default equipment. If a model has any Close Combat Weapon other than a Hand Weapon, it cannot choose to use the Hand Weapon (unless specifically stated). Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry

Harnessed: Model parts with Harnessed cannot make Supporting Attacks and cannot use Weapons. Shooting Weapons carried by model parts with Harnessed can be used by other model parts of the same model (as long as they do not have Harnessed or Inanimate). A model with with at least one model part with Harnessed is considered to be mounted.

Heavy Armour: +2 Armor

Imperial Rocketeer: Catapult (1) Artillery Weapon:

Range 15-48", Shots 3, Str 5, AP 3, Multiple Wounds (D3), This weapon treats all results on the Misfire Table as Malfunction (each shot can cause a Misfire).

Light Armour: Armor +1

Light Troops: Units composed entirely of models with Light Troops are allowed to make any number of Reforms when performing Advance Moves or March Moves. They are allowed to shoot even if they Marched or Reformed. No model can end its movement with its centre further away than its March Rate from its starting position, around any obstructions (including the Unit Spacing rule). This means that when checking the distance travelled by a model, check the path the model would have taken if it was alone, with the exception that the unit as a whole cannot break the Unit Spacing rule while performing the move. If a model performed any action during the movement (such as a Sweeping Attack), the distance moved is counted from its starting position to the point on the Battlefield where it performed that action and then to its final position.

If more than half the models in a unit have Light Troops, the unit always counts as having 0 Full Ranks. Characters with Light Troops that are joined to units with one or more models without Light Troops, lose this rule for as long as they remain with the unit. An Infantry Character joined to an Infantry unit with both Light Troops and the same Size as the Character gains Light Troops for as long as it remains with the unit.

Master Artificer: The Master Artificer may give the Order Ready! Aim! Fire! to a Parent Unit or Support Unit it has joined.

Move or Fire: The attack may not be used if the attacking model has made an Advance Move, March Move, Reform or Pivot during the current Player Turn.

Paired Weapons: The wielder gains +1 Attack Value when using Paired Weapons. Attacks made with Paired Weapons gain +1 Offensive Skill and ignore Parry. A model using this weapon cannot simultaneously use a Shield against Melee Attacks.

Parent Unit: A unit is considered a Parent Unit if at least half of its models have this Universal Rule. Parent Units treat all Support Units as Insignificant.

Immediately after a Parent Unit passes a Charge Range roll against a non-fleeing enemy unit in the Charge Phase, before performing the Charge Move, any Support Units within 6" of the Parent Unit may perform a support charge. To do so, the Support Unit Declares a Charge against the same enemy unit. Apply all of the usual rules for charging for this out-of-sequence charge (such as Line of Sight, Front Arc, must roll for Charge Range, max one Wheel, etc.), with the exception that the enemy cannot choose a Charge Reaction other than Hold. For the purpose of Charge Moves, treat this as any other case of Combined Charges. When calculating Combat Scores in the following Melee Phase, combine the Rank Bonus of both the Parent Unit and up to one Support Unit that performed a successful support charge (following all normal restrictions), up to a maximum of +6.

Pistol: Range 12" Shots 1 Strength 4 Armour Penetration 2 QuicktoFire

Plate Armour: +3 Armor

Reserves: Universal Rule.

The unit is treated as Insignificant by Parent and Support Units

Scoring: Units with at least one model with Scoring are considered to be Scoring Units, which are used for winning Secondary Objectives (see section XVI.2 "Scoring Secondary Objectives", page 67). Every army needs a few Scoring units to be able to complete Secondary Objectives, which is why units with Scoring are marked in the Army Books with a special pennant icon:

Scoring can be lost during the game:

- A unit that is Fleeing loses Scoring for as long as it is Fleeing.
- An Ambushing unit that enters the Battlefield on Game Turn 4 or later loses Scoring.
- A unit that has performed a Post-Combat Reform loses Scoring until the start of the following Player Turn.

Shield: +1 Armour Hand Weapons wielded by models on foot can be used alongside a Shield, then giving Parry.

Support Unit: A unit is considered a Support Unit if at least half of its models have this Universal Rule. Support Units are treated as Insignificant by Parent Units.

Support Units within 6" of at least one Parent Unit gain Fight in Extra Rank and may use Shooting Attacks from the third rank (in addition to the first and second). If the Support Unit has at least one Full Rank, it counts as having the same number of Full Ranks as a Parent Unit within 6" for the purpose of being Steadfast.

During the opponent's Charge Phase, Support Units may perform one of the following actions:

1. Immediately after a Parent Unit within 6" voluntarily chooses a Charge Reaction, the Support Unit may Stand and Shoot as if the enemy had Declared a Charge against them in their current position (apply the normal rules for the Stand and Shoot Charge Reaction).
2. Immediately after all enemy units have completed their Charge Moves, Support Units within 6" of any Parent Unit that was successfully charged in this Phase may counter charge. To do so, choose one enemy unit that successfully charged the Parent Unit and Declare a Charge with the Support Unit. Apply all of the usual rules for charging for this out-of-sequence charge (such as Line of Sight, Front Arc, must roll Charge Range, max one Wheel, etc.). When calculating Combat Scores in the

following Melee Phase, combine the Rank Bonus of both the Parent Unit and up to one Support Unit that performed a successful counter charge (following all normal restrictions), up to a maximum of +6.

Unbreakable: The model gains Fearless and its unit automatically passes all Break Tests. Characters with Unbreakable can only join units consisting entirely of models with Unbreakable. Units with one or more models with Unbreakable can only be joined by Characters with Unbreakable.

War Machine: The model cannot Pursue, Declare Charges or Declare Flee as Charge Reaction. Characters can never join units with War Machines, and Characters with War Machine cannot join units at all.

When a War Machine fails a Panic Test, instead of Fleeing it is Shaken until the end of the next Player Turn. War Machines that fail a Break Test are automatically destroyed. War Machines and units Engaged in Combat with them cannot make Combat Reforms.

When a unit charges a War Machine, it can move into base contact by having its Front Facing contact any point of the War Machine's base (it must still maximise the number of models in base contact, see subsection II.1.A "Bases and Base Contact", page 4 and Figure 1 page 4). No Align Move is allowed. Ignore the War Machine's Facing, as it does not have any due to its round base.

Wizard Apprentice: - Knows 1 spell.

- Can select between the Learned Spell 1 of its chosen Path and the Hereditary Spell of its army.

The Wizard selects its spells as described in Spell Selection

Zealots: Prelates may join the unit and gain Unbreakable and Fearless while joined to the unit.

Qr codes of your army

You can print this page to have all your army's units qrcode and cut them to stick them on your units, with them you can directly access to the unit's profil with your phone.
