Trace a straight line from the base of the caster the number of inches rolled. All models in its path will be removed as casualties with no saves, except Magic Resistance allowed. Instead of taking an I test, War Machines and Chariots must instead roll a 5+ or be destroyed. A building (or single section of a multi-part building) affected by the spell will collapse on a roll of 5+. If the building collapses, any models occupying it must pass an I test, or be removed as a casualty with no armour save allowed. Only units with Lightning Attacks cause D6 S 5 hits with Lightning Attacks. If the number of hits rolled is at least 1, the building is destroyed and the caster suffers a S 5 hit instead of the target. Then replace the building with a target of dangerous terrain of equal size. Boosted version doubles the result of the 4D6" range rolled.	The target unit will immediately be affected by Frenzy. If the wizard casts this spell on a unit that already has Frenzy, it will be subject to Death Frenzy, giving them 2 extra attacks rather than the normal 1 from Frenzy. Units that are Death Frenzied suffer D6 automatic Wounds which Ignore Armour save at the end of each friendly turn. A unit that is Death Frenzied will go back to having normal Frenzy once they lose a round of close combat. Is cast on the Wizard itself. Until the start of the caster's next turn, all missile fire directed at the target unit suffers -1 To Hit. In addition, the unit adds +1 to their armour save. Boosted version targets all friendly units within range.	<i>Hereditary Spell</i> <table><tr><th colspan="3">Black Whirlwind</th></tr><tr><td><i>CV</i></td><td><i>Type</i></td><td><i>Duration</i></td></tr><tr><td>10+/13+</td><td>Range 24"/24"</td><td>Inst.</td></tr></table> <i>Effect</i> Place the small round template anywhere within range – it then scatters D6"/2D6". Can be cast on an Infantry unit. The target unit ignores Dangerous and Impassable Terrain (note that it may not end its move within 1" of it as normal) until the start of the caster's next Magic phase. Boosted version targets all friendly Infantry units within range.			The target gets Poisoned Attacks until the start of the caster's next Magic phase. If the unit already has Poisoned Attacks, the warriors will also cause an automatic wound on a To Hit roll of 6+.		

Remains in Play. Uses the large template. Once the template is placed, the player then nominates the direction in which the Veil of Shadows will move. To determine how many inches the template moves, roll an artillery dice and multiply the result by 3. Any model touched by the template takes a S 3 hit, and the unit will count as being Disrupted for the remainder of the turn.

If the result on the artillery dice is a misfire, centre the template on the caster and roll a scatter dice and a D6. The template moves the number of inches equal to the result of the D6, in the direction shown on the scatter dice (if you roll a Hit!, use the little arrow shown on the Hit! symbol). In either event, in subsequent turns, the Veil of Shadows travels in a random direction and moves a number of inches equal to the roll on an artillery dice. If a misfire is rolled in subsequent turns, the Veil of Shadows is removed.
